Public Comment Topic	Pacific City State Airport
Public Comment	SOAR funds were allocated toward improvements for a drainage system, an access road, and the expansion of the apron in Cycle 3, 2020. With many delays since that time and arguments with the County of Tillamook over land use, the deadline for the improvements is fast approaching, October 2027, in which FEMA land-use rules will change making it cost prohibitive for KPFC to get the needed improvements. With any negligence, oversight or threat to loosing portions of accessibility to any of our Oregon airports is unacceptable to the Oregon Pilots Association. There should not be any further delay in the State Aviation Board allowing the necessary improvements for KPFC. By doing so your are jeopardizing the safety of the pilots frequenting this runway and those who may need emergency medical transport. The Oregon Department of Aviation's financial \$3M shortfall should not be a cause for redirecting SOAR funding that has specifically been earmarked for KPFC improvements. Please take immediate action in allowing the improvements that should have been done years ago.
