Public Comment Topic	KPFC airport continuation
Public Comment	The Pacufic City state airport plays an important, crucial role in the area. Needed funds that were approved are necessary in order to keep this airport usable. I have seen first hand life flight and the coast guard use the airport to save lives. Fixing the drainage and making the airport accessible for emergency crews will save lives. There is also the money and tourism the airport brings to local businesses. This airport has a very strong non profit group that spends many hours and dollars helping to keep the airport in shape and the taxpayer requirements low. Allowing building around the airport will also help bring more aviators and tourism to the area that can be done safely as it has for years. This is a very important airport for the region that should be kept up and thriving for both safety and financial benefit.
