

Motion for Pacific City State Airport POP 103:

Make no change to POP 103 funding proposal and move forward with the project at PFC within the budget constraints that there'll be no additional funding. If there is not enough funding, staff shall prioritize a scoped approach based on safety. Direct ODAV staff to continue working with Tillamook County and the engagement of the DLCD to update its local ordinance to meet the state OAR primary surface standard of 250 feet wide and protect the RPZ by prohibiting new residential development and public assembly uses within it.

Motion: Bill Graupp

Second: Brian Prange
