

Oracle Java SE Products Licensing Changes

Java SE has historically been free, but Oracle has recently announced a change in their [Java licensing policy](#):

Java Platform, Standard Edition (Java SE) lets you develop and deploy Java applications on desktops and servers. Java offers the rich user interface, performance, versatility, portability, and security that today's applications require.

End of Public Updates for Oracle JDK 8

Oracle will not post further updates of Java SE 8 to its public download sites for commercial use after January 2019. Customers who need continued access to critical bug fixes and security fixes as well as general maintenance for Java SE 8 or previous versions can get long term support through Oracle Java SE Subscription or Oracle Java SE Desktop Subscription. For more information, and details on how to receive longer term support for Oracle JDK 8, please see the Oracle [Java SE Support Roadmap](#).

The following Java SE products are available from the Oregon/Oracle Settlement and are listed on the OMPA (Technology Pricelist). The settlement provides for a 70% discount from list price on these products.
