DCBS FISCAL USE ONLY

PERMIT REQUIREMENTS

No person may install, alter, or repair a boiler or pressure vessel without **first** obtaining a permit from the Building Codes Division (BCD).

In case of an emergency, a permit is not required in advance of boiler or pressure vessel installations or repairs, as long as a *Request for Boiler/Pressure Vessel Permit for Installation, Alteration, or Repair* is submitted to BCD within five days after starting the emergency work. If there is a need for emergency work, you **MUST** notify the boiler permit technician immediately by phone at 503-373-7538. An emergency is defined as “an unplanned circumstance requiring immediate repair, installation, replacement, or shutdown because of risk to health, life, or property.”

The acceptance of a permit application by BCD does not signify that the installation, repair, or alteration is approved. The authorized inspector must approve all installations, alterations, or repairs.

Installations, alterations, or repairs must be completed according to the Oregon Boiler Specialty Code.

No person may engage in the business of installing, altering, or repairing boilers or pressure vessels without a valid boiler business license issued by BCD (ORS 480.630).

No person may, as the employee of a boiler business, install, alter, or repair a boiler or pressure vessel without obtaining a boiler trade license from BCD (ORS 480.630).

Any boiler or pressure vessel that is installed, repaired, or altered without a license is considered an unauthorized installation, repair, or alteration – unsafe to operate until all code requirements have been met.

Violations of licensing requirements can result in the assessment of civil penalties of up to \$5,000 for each violation (ORS 480.670 and ORS 455.895).

Questions: Contact the boiler program at 503-373-7538 or email BCD.boiler@oregon.gov.
