Pursuant to OAR 918-001-0036, this penalty matrix applies to the following trade specialty codes: boiler, electrical, elevator, manufactured dwelling/installer, plumbing, and mechanical.

The entire penalty is imposed in all cases. A violator will not automatically receive the minimum amount due for the penalty. A stay of some portion of a penalty is within the sole discretion of the board or the division acting on the board’s behalf for purposes of settling cases prior to hearing. In determining whether a portion of the penalty should be stayed the Board considers aggravating and mitigating factors including but not limited to risk to the public and the cooperation of the violator.

Civil penalties may be assessed in addition to, or in lieu of, the conditioning, suspension, and/or revocation of a license, certificate, or similar authority. The conditioning, suspension, and/or revocation of a license, certificate, or similar authority are not part of this penalty matrix and the Board or the Division, acting on the Board’s behalf, may take an action against a license, including against a first time violator. The violation type (first, second, or third) is based upon the number of violations committed within five years of the date of the present violation.
