

iOS Oregon Inspector App Release Notes, Version 1.0.6

Released Feb 5, 2020

1. **Standard Comments Do Not Display (Write It / Cite It)**

Issue: Standard Comments intermittently do not display to add to inspection result comments. For example: Write It / Cite It.

Fix: All Standard Comments now display correctly across all agencies, inspectors, and devices.

Reported by: Lake Oswego, Coos Bay, Umatilla County, and others

2. **App Crashes After Performing a Search – REDMOND Only**

Issue: The app crashes after performing a search in the REDMOND agency only. This occurs after performing both a Record and Inspection search.

Fix: The app no longer crashes and returns the appropriate records based on the search criteria.

Reported by: Redmond

3. **The “CodeCompliance” Module for SPRINGFIELD Agency Missing**

Issue: SPRINGFIELD is the only OSM agency that has a CodeCompliance module. It was not included in Record or Inspection Searches and assigned inspections are not populated in the Job List.

Fix: The CodeCompliance module works just like all other modules in the app.

Reported by: Springfield

4. **Condition Banner Displays Incorrectly**

Issue: When a Condition (Standard) status becomes Unapplied, the Condition Banner will incorrectly display and show the name CONDITION.

Fix: The Condition Banner does not display when the status becomes Unapplied.

Reported by: ePermitting Program

5. **Logic for Email Content for Customer Name**

Issue: When emailing the inspection reports to a customer that did not have a First Name, Last Name, or Business Name, the content of the email said, “Dear “ leaving the name blank.

Fix: Updated the logic so that when First Name, Last Name, and Business Name are all blank, the content of the email says, “Dear Customer”.

Reported by: Lake Oswego

6. **Parcel Search Field Only Allows Numbers**

Issue: The Parcel search field brings up the number keypad so it only allows numbers to be entered, no other characters.

Fix: Parcels often have letters and dashes so the full keyboard is now available for this field.

Reported by: Klamath County

7. **Licensed Professional Email Addresses Not Available**

Issue: Licensed Professional email addresses are not available in the app from the Record Details or when emailing the Inspection Result Report.

Fix: Licensed Professional email addresses are now available from Record Details and when emailing the Inspection Result Report.

Reported by: Deschutes County

8. Inspection Result Submit Button for Devices without a Home Button

Issue: Some inspectors that are using devices without a physical home button on their iOS devices have reported that they sometimes hit the virtual "Home" button instead of the "Submit" button when resulting an inspection.

Fix: The "Submit" button is now larger and moved up slightly away from the bottom of the app.

Reported by: (During training)

9. Display Phone Number and Email for all Contact Types and Make Clickable

Issue: Display the Phone Number and Email was not displayed consistently across all contact types.

Fix: The Phone Number and Email Address for the following types of contacts on the record so that they can easily be clicked and launch either the Phone App or begin a new email message:

- Contacts
- Professionals
- Owners

Reported by: Deschutes County

10.App Crashes When Sorting by Address and Then Manually Reordering

Issue: The app crashes after sorting by address and then manually reordering the job list..

Fix: The app allows this sequence of events without crashing.

Reported by: Deschutes County
