

Modifications to ready-build plans

Plans may be modified in the following ways and remain ready-build plans. The local jurisdiction must verify that the plan design criteria meets or exceeds the associated site criteria.

- Specified eave height is the maximum height. Eave height may be reduced.
- Specified roof pitch is the maximum pitch. Pitch may be reduced to 3:12. Lower pitched roofs are allowed if they comply with ORSC R905.10.
- Specified frame spacing is the maximum spacing. Frame spacing may be reduced.
- Specified length is the maximum length. Length may be reduced, but must not be less than the width specified on the plan. Allowed openings must be reduced by the same length that was removed from the overall building length.
- Openings shown may be changed to walls except one three-foot wide by six-foot, eight-inch tall side-hinged door must be provided somewhere on the exterior.

The division does not approve modifications to the plans. Plan modifications beyond the limits indicated above are expressly subject to local jurisdiction approval on a site-specific basis.
