RE: IUOE 701 Request of Revision – Power Equipment Operator – September 2, 2015

To Whom This May Concern:

Please accept this letter on behalf of Power Technology Inc. that we are in opposition of the definition change requested by the IUOE 701. Based on past practices and traditional understandings, we see conflicts with the definition in 24. Line Constructor and the proposed change to 31. Power Equipment Operator.

Our company is an Electrical Power Line Contractor working in the State of Oregon and we employee IBEW employees working throughout Oregon.

Respectfully,
