PWR OCCUPATIONAL SURVEY**

Oregon Revised Statute (ORS) 279C.815 requires the Commissioner of the Bureau of Labor and Industries (BOLI) to determine the prevailing rate of wage for workers in trades and regions by means of an annual wage survey. If the data derived from the survey appears to be insufficient to determine the prevailing rate of wage, the Commissioner may consider additional supplemental information. Providing supplemental data is optional; however, those wishing to submit additional data for consideration must complete the form and statement below. Please complete a section for each county for which you wish to submit additional hours.
