PRE-APPRENTICESHIP PROVIDER AGREEMENT

Pre-apprenticeship is a program designed to prepare under-represented, disadvantaged or low skilled individuals to enter and succeed in a registered apprenticeship program. Approved pre-apprenticeship programs must have a documented partnership with at least one, if not more, registered apprenticeship committees. The Oregon State Apprenticeship and Training Council (OSATC) has the authority to approve pre-apprenticeship training programs (PATP) for the purposes of serving the best interest of registered apprenticeship. In order to be used by a registered apprenticeship committee as a direct entry or preferred applicant source, a pre-apprenticeship program must be approved by the Council.

This Provider Agreement is in conformity with and is to be used in conjunction, as applicable, with the Apprenticeship Rules, Chapter 839-011-0335 OAR (Oregon Administrative Rules); Apprenticeship and Training Statutes, Chapter 660 ORS (Oregon Revised Statute); The National Apprenticeship Act, 29 U.S.C. (United States Code) 50; Apprenticeship Programs, Title 29 Part 29 CFR (Code of Federal Regulations); and Equal Employment Opportunity in Apprenticeship and Training, Title 29 Part 30 CFR which collectively govern the employment and training in apprenticeable occupations, as applicable. If approved by the council, such amendment(s) or changes as adopted by the council shall be binding to all parties on the first day of the month following such approval. PATP shall notify pre-apprenticeship participants and registered apprenticeship committees with whom the PATP facilitated entry or formalized agreements of changes as they are adopted by the Council. If and when any part of this Provider Agreement becomes illegal, as it pertains to federal and/or state law, that part and that part alone will become inoperative and null and void, and the Bureau of Labor and Industries (BOLI) may recommend language that will conform to applicable law for adoption by the OSATC. The remainder of the Provider Agreement will remain in full force and effect.

The following are requirements for administering a pre-apprenticeship program. These provisions are to be used in conjunction with OAR 839-011-0335:

1. The program must incorporate Council approved training and curriculum based on industry standards.
2. The program must specify recruitment strategies focused on outreach to under-represented populations
3. The program must provide assistance in exposing participants to registered apprenticeship programs and provide direct assistance to participants applying to those programs.
4. Pre-apprenticeship programs agree to provide the Council with a list of program graduates at least once every six months indicating the names, addresses and other identifying information for program completers on a form designated by the Division.
