MISSION AND STATUTORY AUTHORITY

The Construction Contractors Board (CCB) is a regulatory agency that protects Oregon consumers through licensing of the construction industry. The agency operates under statutory authority established in Oregon Revised Statutes (ORS) Chapter 701 and Oregon Administrative Rule (OAR) Chapter 812. A nine-member board appointed by the Governor and confirmed by the Senate oversees agency activities and budget administration.

Mission:

The CCB protects and serves Oregon consumers, supports responsible licensed contractors and promotes a positive business climate.

Objectives:

CCB's administration of licensing, enforcement, education and dispute resolution programs are focused on achieving the following objectives:

- Protect Oregon consumers that contract for construction services.
- Promote a fair and competitive business climate in the construction industry.
- Deliver valuable programs, services and resources to both consumers and contractors.
- Provide timely and efficient customer service to all Oregonians.

STRATEGIC OR BUSINESS PLAN

The agency's strategic plan is focused on the following priorities:

1. **Durable Financial Stability** – Efficient utilization of financial resources supports positive outcomes for consumers and contractors and ensures long-term viability of programs and services.
 - a) **Goal:** Work with board and stakeholders to establish revenue structure(s) that will provide sustainable support for service delivery and improve the predictability and equity of future revenue adjustments.
 - b) **Associated Policy Option Package (POP 102):** In 2024, the board raised contractor fees for the first time since 2010 – nearly 14 years. The board considered the proposed increase after a robust public process carried out over nine months. The board determined that rising costs over a decade-and-a-half warranted action and that the increase was necessary to maintain adequate service levels, support modernization efforts and reduce long-term costs.

2. **System and Service Delivery Modernization** – Current systems are old, inefficient and at risk of critical failure. Replacing existing systems with modern, secure and supported systems will provide better services to customers, produce efficiencies and lower long-term costs.
 - a) **Goal:** Conduct competitive procurement to replace existing system with a modern commercial licensing product that meets long-term needs of CCB.
 - b) **Associated Policy Option Package (POP 101):** The agency has obtained EIS Stage Gate 1 approval of the business case and associated documents in support of the license system replacement and is nearly complete with Stage Gate 2 submissions. The agency expects to issue a request for proposals (RFP) sometime in 2025.
3. **Staff and Organizational Development:** Current staffing and training reflect older labor-intensive processes, leading to increased long-term costs. CCB’s organizational structure and staff development approach must evolve and adapt to align with long-term strategic efforts around financial stability and modernization.
 - a) **Goal:** Identify and implement organizational and staffing structures that will align with ongoing fiscal responsibility and modernization efforts in support of improved efficiency and service delivery.
4. **Accountable Service Delivery:** CCB has a number of data metrics that are regularly tracked and reviewed, including at public board meetings, that help the agency remain accountable to the customers that rely on our services.
 - a) **Goal:** Through modernization, improve the availability and utilization of data to support performance measures and regularly identify and implement small achievable enhancements to service delivery throughout the organization.
5. **Community and Stakeholder Engagement:** The protections we offer to consumers and the support we provide to contractors are only functional if we reach and engage all Oregonians in ways that allow them to put our resources and support into action.
 - a) **Goal:** Continue to identify and expand opportunities for community and stakeholder engagement that honor the diverse populations we serve.

CRITERIA FOR 2025-2027 BUDGET DEVELOPMENT

Over the next several years CCB will continue to be heavily focused on financial stability, IT modernization and workforce development – all with the ongoing focus of continuing to provide accountable services to the consumers and contractors of Oregon. These areas of focus form the core of the agency’s strategic plan, our Diversity, Equity, Inclusion and Belonging (DEIB) Plan and our Information Technology Strategic Plan. The values, focus and considerations are consistent throughout each targeted action and activity with a core focus on accountability to our customer base and delivering services as efficiently as possible.

Summary of 2025-2027 Criteria

1. **Financial Stability:** As an Other Fund agency, relying solely on contractor license fees, the agency must be thoughtful and strategic in managing the rising cost of operating state programs in a manner that ensures adequacy of services, without financially impairing the regulated community. As the cost of operating state programs has increased in recent years, CCB has made every effort to maintain and even improve service delivery without passing additional costs to the Oregon construction businesses. The agency reached a tipping point in 2023 due to the accumulated impact of labor cost inflation. The board was forced to consider either substantial cuts and additional delay of modernization efforts or increasing revenue by adopting the first fee increase in 14 years. While the board ultimately approved the fee increase, they also provided direction to the agency to study options and propose changes that would improve the predictability and the equity of future fee increases.
2. **Critical Demand to Modernize Systems:** The agency’s core license database is old (developed in the 1990’s), unsupported and inefficient. It holds the agency back in terms of being able to provide modern and streamlined services to our customers. The current system relies on manual and paper processes. These processes are labor-intensive, costly and inefficient. It is cumbersome to make changes or add licenses to the data base when there are legislative changes and extract data for decision making. The implementation of a new, modern license database with ongoing support is critical to the agency’s future information security, improving service to customers and containing long-term costs by allowing the agency to operate more efficiently.

Background

Over the last five years the CCB has been working to address a financial situation created by the convergence of several factors. Some factors are similar to those experienced by many organizations in and outside government such as general inflation and the rapidly increasing cost of labor. Some factors are unique to CCB and date back to short-sighted decision-making beginning in 2017 under prior leadership where the agency prioritized reducing reserves rather than making critical long-term investments.

The combined effect of these factors created a financial “triple bind:”

- depleted reserves
- escalating costs
- demand for critical IT modernization

Over the course of several years the agency adopted a number of strategies in order to address these concerns. These strategies included:

- Held up to 10% of budgeted positions vacant during large portions of the 2021-2023 and into the 2023-2025 biennia.
- Implemented small, low-cost efficiencies to improve services even with less staff.
- Held staffing static even as workload and number of licensees grew.
- Relied on efficiencies to continue to provide services.

As the number of contractors in Oregon continued to grow agency workload increased. Continuing to operate with a high staff vacancy rate began to negatively impact service delivery despite the agency's best efforts. Beginning July 2023, the board began the process of studying whether further reductions in service delivery or a fee increase was warranted. Ultimately the board assessed that a fee increase was warranted and adopted a \$75 increase to the \$325 two-year license fee, resulting in a fee of \$400 after full implementation.

Fee Increase

The multiple interrelated factors noted above contributed to the timing and scope of the fee increase. However, rising labor costs are the most significant driver for the proposed change. Since the fee was last increased in 2010, total labor costs have increased 55%, *notwithstanding reductions in total staffing over the same period*. Steady increases in the number of licensees over the period have provided additional revenue and staved off the need for increases prior to now. However, the increasing cost of labor has created a structural budget deficit for the agency.

The agency projected an approximate \$2.0 million difference between expenses and revenue after 2023-2025 cost of living adjustments and bonuses (approx. \$1.1 million) were accounted for. This is unsustainable and requires action by the board in order to place the agency on a sustainable financial trajectory.

The board was deliberate and conscious of the impact of increased fees on the regulated population. As part of a nine-month process the board considered both fee increases as well as reducing costs by cutting positions. Given that agency staffing has been maintained at essentially the same level since 2013, while the number of contractors has steadily increased, the board determined that additional staff reductions would negatively impact service delivery. The board also considered impact of action/inaction on planned modernization efforts that promise to improve agency efficiency and improve services.

Ultimately the board identified three key priorities that guided decision-making and informed the board's fee increase proposal:

- **Address the structural budget deficit.**
- **Maintain existing service levels.**
- **Ensure viability of modernization efforts** (replacement of 1990's-era license system).

The board determined the fee increase addresses the existing budget deficit, maintains adequate services and ensures the viability of

☐ Agency Request

☐ Governor's Budget

☒ Legislatively Adopted

Budget Page 11

license system replacement. The agency further projects that improved efficiency created by implementation of the new system will allow the agency to persist near current staffing levels even if there is additional growth in the industry.

In consideration of the public comment on the matter, the board also provided directions to the agency to return to the board with additional proposals addressing three primary issues:

- Whether the board should adopt a schedule for future increases that is indexed to a pre-determined set of factors in order to improve the predictability of future increases for the board, the agency, and the industry.
- Whether the board should adopt a tiered approach to fees that recognizes the relative size of various types of construction businesses, reducing costs on smaller entities.
- Whether changes should be made to the continuing education requirements that would improve the experience of continuing education for construction professionals.

RACIAL EQUITY IMPACT STATEMENT

CCB works toward a future where outcomes are not predicted by economic disparities among Oregonians who are a part of our most underrepresented or marginalize communities. As a community partner, our organization commits to identify and dismantle racial inequities, and to provide equity-based supports, so that our staff, board members, contractors, and consumers can participate fully as Oregonians.

Efforts to reduce barriers include:

- Significant expansion of outreach, education and other materials and trainings in other languages.
- Support for first generation licensees through how to become a licensed contractor trainings in English and Spanish.
- Improvement of first-time Spanish language pass rate on CCB examination.

Enhancing opportunities to building and advance racial equity is not a one-time project but an ongoing effort. The CCB has such a strong commitment to all of the Oregonians that we serve every single day, without respect to their social, cultural, racial, or other status. We believe the values and principles described in these programs form an appropriate framework for building on past success and continuing that work on an ongoing, everyday basis.

DIVERSITY, EQUITY AND INCLUSION PLAN

The Construction Contractors Board is committed to fostering and preserving a culture of diversity and equity. Our employees are the Agency's most valuable asset. The Agency's culture, reputation and achievements are the result of the individual differences, life experiences, knowledge, inventiveness, self-expression, and capabilities that employees invest in our mission.

The Construction Contractors Board's diversity and equity efforts are reflected in CCB's:

- recruitment practices and policies
- compensation and benefits programs,
- professional development and training efforts,
- social and recreational programs and the
- development of a work environment built on the premise of diversity and equity.

These efforts promote and reinforce:

- Respectful communication and cooperation between all employees
- Teamwork and employee participation, permitting the representation of all groups and employee perspectives
- Employer and employee contributions to the communities we serve to promote a greater understanding and respect for diversity

DEIB Action Plans

- **Intra-Agency Communication and Resources:** Build knowledge and awareness and enhance staff engagement by building a supportive, positive, and respectful workplace while celebrating employee differences whether they be cultural, generational, or through lived experiences.
 - Expand quarterly Wellness Newsletter to include DEIB articles.
 - Human Resource's Weekly Tips support DEIB awareness topics.
- **Inclusive External Communication and Resources: Reduce language and other barriers to accessing agency information and resources** to enable as many Oregonians as possible to benefit from agency services.
 - Website incorporates accessibility principles and can be translated into multiple languages.
 - Deliver aids and resources to support applying for CCB license in multiple languages.
 - Webinars – offered in English and Spanish which include closed captioning options.
 - Proposed Licensing System Replacement will include accessibility principles in requirements.

- **Workforce Demographics & Training:** Continue to develop a network of resources and relationships in order to support broadest possible reach on agency recruitment efforts for both staff and board positions. Support career development opportunities for employees through training and awareness programs that foster a strong sense of engagement and community.
 - Partner with agencies and community groups that can support CCB's efforts at expanding diversity.
 - Provide cross-training and career development opportunities for staff.
 - Expand reach of job postings to attract diverse candidates.
 - Compose interview panels of diverse staff and conduct training on inclusive interview practices.

DEIB Evaluation and Monitoring

Leverage engagement surveys to gauge internal and external customer satisfaction and seek in-depth feedback for CCB's Leadership Team to monitor and make recommendations on improvements to our DEIB initiatives and ensure that agency efforts to improve access are being effective.

- **External Customer Survey:** CCB regularly sends out a survey to our customers seeking feedback to help identify process improvements. Next steps would be to use the metrics to evaluate the agencies culture and reputation regarding our mission and objectives.
- **Employee Engagement Survey:** Collect responses from staff about DEIB efforts within the agency, then implement immediate changes to support a respectful and inclusive workplace.
- **Assess Evaluation Metrics:** Assess the effectiveness of our evaluation and performance metrics for whether they provide meaningful feedback on equity in program delivery.
- **Annual Review on DEIB strategic priorities:** identify new opportunities and lessons learned by focusing on hidden biases and bottlenecks in previous years goals to keep CCB leadership and staff accountable.

IT STRATEGIC PLAN

CCB's primary IT focus is on replacement of the agency's licensing and enforcement database that has been in operation since the 1990's. The system relies on outmoded and manual (paper) processes delivering a less-desirable user experience and creating inefficiencies for agency staff and driving up long-term costs. The agency has already begun the process of building agency-wide engagement in the replacement. The planning and development have incorporated feedback and expertise from leadership and front-line personnel in every unit of the agency. The agency has also performed extensive outreach to other agencies that have recently or are currently moving through the process. The information shared as a result of these outreach efforts has heavily informed the agency's planning efforts. This expansive and coordinated planning effort, including experts both within and outside the agency, has built a strong basis for a successful implementation.

Simultaneously the agency continues to focus on implementing small achievable enhancements and streamlining efforts that result in efficiencies and better service to the customer in advance of full license system replacement. Implementation of a call-back feature for the CCB call center and deployment of an electronic submission portal for new applications have delivered enhanced service and improved the efficiency of agency programs.

IT Strategic Plan Guiding Principles

- **Modernized User Experience**
Running outdated applications causes many challenges and is out of alignment with business and customer service goals. Modernization will focus on improving the customer experience while also making staff more efficient.
- **Innovation and Continuous Improvement**
Organizational culture will be a catalyst for continuous improvements and will encourage exploration of technology innovation that will improve external service delivery and internal efficiency.
- **User Experience**
Technology solutions will be designed to optimize the user's experience and maximize utilization of sharing and reuse technologies.
- **Strategic Adoption of New Technologies**
Adoption of technology will rely on and build on the experience of other agencies and will consider and deploy enhancements on an ongoing basis.
- **Quality Business Data**
Agency will ensure sound business data stewardship by providing a secure and accessible data environment.

IT Action Plan: Key Initiatives

- **License System Replacement:** Replace the licensing and enforcement system with a system that meets the needs of the Construction Contractors Board and the needs of consumers and contractors, including expanding the scope of services that may be performed online, reduce the amount of manual and paper documentation needed, reduce processing times, reduce errors and omissions that lead to delays and additional phone call and email traffic.
- **Field Investigator Hardware Refresh:** Upgrade hardware tools and technologies available to field investigators to enable most functions to be performed onsite, improving efficiency of site checks and allowing more sites to be visited annually.
- **Move to State Data Center:** Move on premises servers from CCB to the State Data Center, alleviating a key body of work from CCB IT Group and allowing agency staff to focus on business-centric developments with greater impact to CCB staff and customers.

IT PROJECT PRIORITIZATION MATRIX

The CCB Licensing and Enforcement Modernization will address insufficient, inefficient, and disjointed information systems. The current system was developed in-house in the 1990's and the code for the current system has not been available for quite some time, making it difficult to deploy either desired enhancements or necessary modifications. System limitations create inefficient manual processes that are also labor intensive, driving up long term cost. The age of the system and the fact that the base code is not available present an increased risk of critical system failure.

Total Weighted Score (Agency): 90

Total Weighted Score (EIS Analysis): 90

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Technology and Strategic Alignment (35%)		
Alignment to Strategic Plans	Agency Score: 3 EIS Score: 3 CCB’s IT Strategic Plan supports the replacement and modernization of multiple outdated systems with Licensing and Enforcement Modernization. A cloud-based Software-as-a-Service will be CCB’s first and preferred option. With this system, CCB intends to address accessibility issues for all Oregonians as well as create a more user friendly, self-service system that is not paper driven like current systems. A new system will also allow data to be more secure and as well as allow agency leadership to make improved data driven decisions. IT staff will be able to shift from burdensome coding to being able to quickly configure changes required by legislature and business process improvement.	
Technology Best Practices and Priorities	Agency Score: 3 EIS Score: 3 CCB has been cobbling together current systems since the 1990’s. Changes are difficult and some security features are difficult because of old programming languages. CCB looks forward to the improved security, modern ways to do business with contractors and the public (like they are used to with other systems) and having quality data to use to make data driven decisions. CCB fully embraces the Cloud Forward approach. CCB plans to change business processes to use a COTS system with no or very little customization. CCB will work with a vendor to migrate data in the most efficient way and to clean up data before migration.	
Business and People Centered Approach (25%)		

☐ Agency Request

☐ Governor's Budget

☒ Legislatively Adopted

Budget Page 17

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
People Centered Approach	<p>Agency Score: 2 EIS Score: 2</p> <p>CCB routinely surveys construction contractors and has found that they desire an online system that they can access from anywhere (computers, mobile devices, etc.). CCB's current system is predominantly paper driven (with a few exceptions). The code for the current system is old and out of date and CCB cannot translate forms and communications easily or provide information to those with disabilities. A new system will help CCB meet those goals. It will also help internal staff to be more efficient and provide higher value customer service rather than making sure paperwork is correct and performing data processing functions.</p> <p>CCB has not yet discussed if and how we would use public involvement and the Racial Equity Toolkit because we are just beginning the project. These will be addressed as we complete our Communications Management and Stakeholder Management Plans.</p>	
Business Process Transformation	<p>Agency Score: 3 EIS Score: 3</p> <p>As discussed in some of the items above, CCB anticipates obtaining a COTS solution with no or little customization. Business processes will be required to change. One important change will be the requirement for all CCB business to be available to be done online rather than paper. We realize there will still be situations that our consumers will not have online access but that will be an exception. From the CCB surveys received, contractors welcome online/self-service opportunities. CCB has documented many measurable benefits anticipated and they can be found in the Business Case.</p>	

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Investment Risk	<p>Agency Score: 3 EIS Score: 3</p> <p>Continuing with the status quo would mean that CCB would continue to use a system that has limited ability to make changes and will not be able to meet future needs. Without a new system, it is questionable how long CCB will be able to maintain current business operations, serve its constituencies, and fulfil its legislative and statewide mandates (such as enhanced security). Failure to modernize the efficiency of the licensing and enforcement systems hampers businesses from the setup of their initial CCB license which has a multiplier effect on their ability to hire employees, pay taxes and purchase supplies. Data quality and insufficient reporting capabilities will also remain, preventing CCB from providing reliable data to stakeholders when requested. Failure to be more accessible to all Oregon consumers and contractors.</p>	
Agency Readiness and Solution Appropriateness (40%)		
Organizational Change Management (OCM)	<p>Agency Score: 3 EIS Score: 3</p> <p>With obtaining a COTS solution, CCB anticipates the upgraded system will significantly impact operations throughout the organization. The majority of employees use the current systems to do their work. CCB has already engaged in OCM activities such as all leadership being trained about the PROSCI ADKAR model, what it takes to be a sponsor, resistance, etc. CCB has been working on process improvements for a while even with the limitations of current system, so a culture of change is becoming instilled. CCB plans to prepare a formal Organizational Change Management Plan and follow the PROSCI methodology. As CCB prepares the Communication Management Plan, we will identify community involvement/communication and have already discussed options for outreach/training as we began working on the Stakeholder Management Plan.</p>	

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Solution Scale and Approach	Agency Score: 2 EIS Score: 2 CCB routinely surveys construction contractors and has found that they desire an online system that they can access from anywhere (computers, mobile devices, etc.). For the most part, contractors work out of a vehicle so mobile access is very important. Using online systems and email communication is also very important. With the current paper driven processes, many fees cannot be paid online, contractors receive letters in the mail for things that need to be corrected on paper forms extending the process for application sometimes by weeks. CCB's first and preferred solution is a cloud-based SaaS so that it can be scaled to future needs and IT staff can provide higher level value. As CCB prepares its Stakeholder and Communications Plans, we will discuss other ways to involve customers and communities in the usability of the solution.	
Capacity	Agency Score: 3 EIS Score: 3 CCB will have the skillsets and capacity to resource this system replacement. The specialized resources will be obtained as needed and we have discussed the possibility of hiring temporary employees to carry on business so that Subject Matter Experts can be freed up to work on the project. Budget has been reserved to obtain additional resources when needed. CCB always fosters an inclusive workplace culture.	

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Governance and Project Management Processes	Agency Score: 2 EIS Score: 2 Because CCB has operated IT as break/fix for many years, a formal IT governance process has not yet been set up. It has been discussed as being needed once this implementation is complete. The steering committee has not officially been set up, but the CCB Leadership Team has been meeting every two weeks to discuss high level requirements, stakeholders, organizational change, RACI, etc. The sponsor of the project is the CCB Administrator, and he is fully engaged. CCB is in the beginning stages of discussion on project governance and the leadership team will review all management plans before they are submitted. The sponsor will involve the CCB Board as the project is implemented. As the Communication Management Plan is created, CCB will discuss community outreach and how to incorporate the DEI Action Plan. Any project resources that CCB does not currently have, will be obtained as the project is implemented and budget has been reserved to obtain them. CCB has begun working on Stage Gate 2 documents and is using PMBOK standards and plans to use them throughout the project.

The agency serves as infrastructure to manage many different regulatory requirements for construction contractors. CCB's programs foster basic business competency, and compliance with revenue, workers compensation law, employment law, building codes, contract law, environmental law and other measures designed to offer protections for Oregon consumers and construction workers.

Current law mandates that the agency structure its programs to ensure that construction contractors maintain compliance with all applicable regulatory requirements in an effort to protect consumers, construction workers, and maintain building standards to ensure safe structures in Oregon. Contractors must understand and comply with a vast number of laws designed to protect the public.

2025-27 Current Service Level = \$20,655,722 (Adjusted)*
10% Equivalent to \$2,065,572

REDUCTION OPTIONS:

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
Business Services	Reduce staffing in Business Services (one Bus Ops Mgr. – 1 FTE)	Total personal services and services and supply cost: \$351,663 Source of funding is Other Funds - Contractor Licensing Fees	1ST
Administration	Eliminate Human Resources staffing in Administration (one HRA 3 – 1 FTE)	Total personal services and services and supply cost: \$366,573 Source of funding is Other Funds - Contractor Licensing Fees	2ND
Enforcement Program	Reduce staffing in Enforcement program (one Ops. Policy Analyst 2 – 1 FTE).	Total personal services and services and supply cost: \$278,798 Source of funding is Other Funds - Contractor Licensing Fees	3RD
Enforcement Program	Reduce staffing in Enforcement program (three Compliance Specialist 2 – 3 FTE).	Total personal services and services and supply cost: \$903,344 Source of funding is Other Funds - Contractor Licensing Fees	4TH
Licensing Program	Reduce staffing in Licensing Program (one Public Svc. Rep 4 – 0.66 FTE)	Total personal services and services and supply cost: \$165,194 Source of funding is Other Funds - Contractor Licensing Fees	5TH

TOTAL REDUCTION OPTIONS

(\$2,065,572)

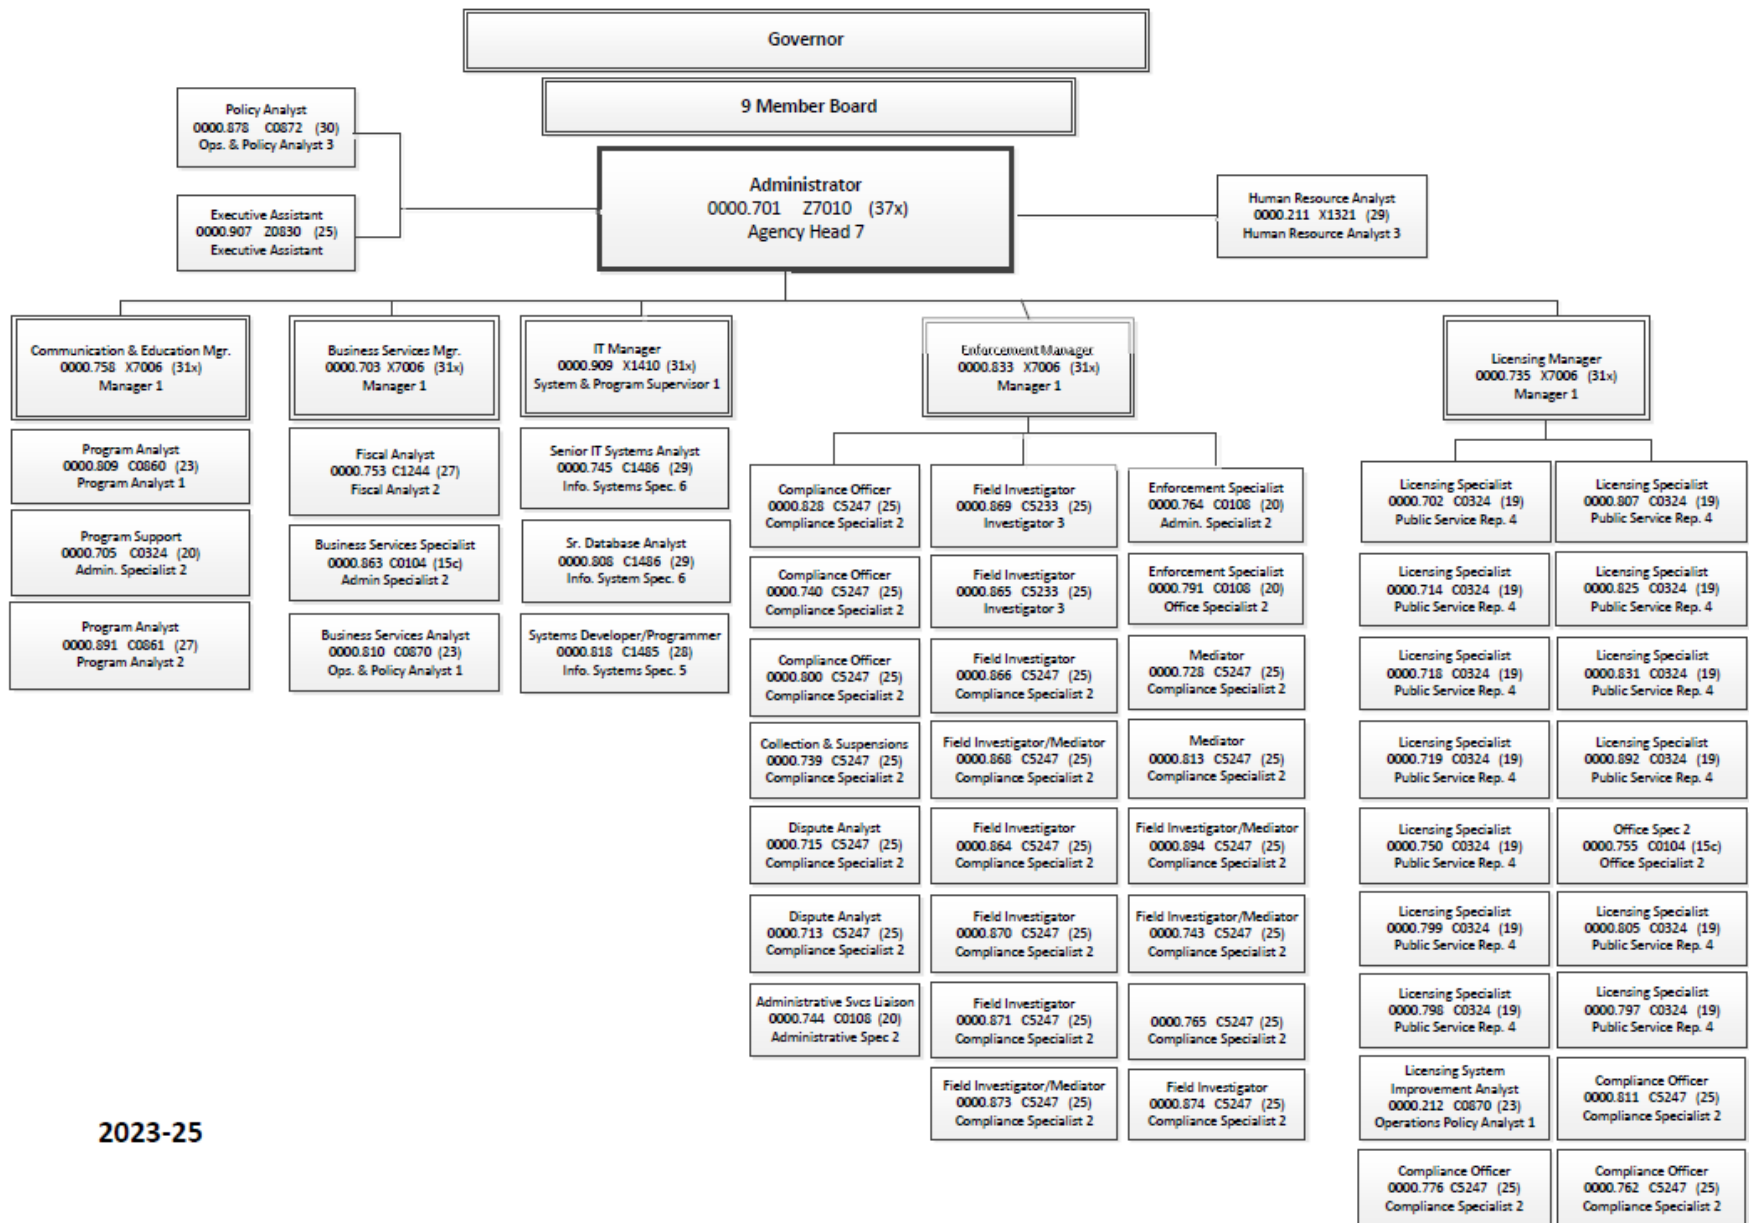

*Agency **subtracted \$841,467** attributable to fees charged by our testing vendor from Agency Request Modified Current Service Level Budget. Payments are made directly to vendor by applicants; these are not operational agency funds.

REVENUES

REVENUE FORECAST NARRATIVE

Revenue Sources

CCB is an Other Funds agency, supported primarily by contractor license fees. The agency also receives a portion of its revenue from other fees such as complaint processing fees, administrative fees and fees paid for other licenses and certifications issued by the board. These other license fees include home inspectors, lead paint renovators, locksmiths and others. The board also retains a portion of the civil penalty revenue collected from individuals who violate laws enforced by the CCB. The agency retains 20 percent of civil penalties, while transferring 80 percent to the General Fund.

Approximately 85 percent of operating revenue is derived from the fee paid to apply for a new contractor license and to renew a license every two years. CCB's 2025-27 revenue projections include a fee increase adopted by the board during the 2023-25 biennium (detailed narrative below). After full implementation the new permanently established fee will be \$400 for a two-year license.

- Matching Funds: The Board receives no matching funds, no general funds, and no federal funds.
- Programs Funded: All agency programs are funded through the fees and payments listed below.
- Limitation on Use: Most revenue may be used to administer all agency programs with one exception:
- Lead paint penalties are dedicated to lead paint compliance educational activities.

As of July 1, 2024, approximately 49,000 contractor licenses are issued in Oregon. This number of licenses is similar to the number prior to the 2008 financial crisis. In 2011 the total number of contractors dipped to a low of approximately 34,000. Since 2011 the number of licensed construction businesses has steadily increased.

2025-2027 Revenue Projections

Biennial revenue projections for 2025-27 are defined primarily by the fee increase adopted by the board in 2024, the first increase in nearly 14 years. Rising labor costs over the period since fees were last raised drove the board's decision to increase fees in order to maintain services at existing levels and support IT modernization efforts. The rate of license renewals and submission of applications for new license are stable and in line with historic patterns. This is a shift from prior biennia where projections were deflated in anticipation of a possible recession.

REVENUES

Fee Increase

In 2024 the board adopted an increase of \$75 to the \$325 two-year license fee paid by contractors. This resulted in a total fee of \$400 after full implementation. Since the fee was last increased in 2010, total labor costs have increased 55%, while total staffing was reduced during the same period. Steady increases in the number of licensees over the period have provided additional revenue and delayed the need for fee increases prior to 2024. The increasing cost of labor has exceeded the additional revenue from increased licensees and created a structural budget deficit for the agency.

After 2023-25 cost of living adjustments and bonuses were accounted for (an additional \$1.1 million) the agency projected an approximate \$2.0 million difference between expenses and revenue for the biennium. This is unsustainable and required action by the board in order to place the agency on a sustainable financial trajectory.

The board was deliberate and conscious of the impact of increased fees on the regulated population. As part of a nine-month process the board considered both fee increases as well as reducing costs by cutting positions. Ultimately the board identified three key priorities that guided decision-making and informed the board's fee increase proposal:

- **Address the structural budget deficit:** A \$2.0 million difference between expenses and revenue is unsustainable, even though the agency has restored adequacy of reserves.
- **Maintain existing service levels:** Agency staffing has been maintained at essentially the same level since 2013, while the number of contractors has steadily increased. The board determined that additional staff reductions would negatively impact service delivery.
- **Ensure viability of modernization efforts:** The board determined that ensuring the viability of the license and enforcement system modernization requested in POP 101 was critical to ensuring adequacy of services in the future and holding down long-term costs.

The board determined the \$75 fee increase for the two-year license would address the existing budget deficit, maintain adequate services and ensure the viability of license and enforcement system modernization. The board also determined that improved efficiency created by implementation of the new system would allow the agency to maintain current services at near current staffing levels and hold down long-term costs.

REVENUES

Structure of Fee Increase: Impact on Beginning Balance and Associated POPs

In adopting the fee increase, the board staggered the implementation dates for renewals and new licensees. The structure was adopted to benefit new businesses by deferring additional costs on new businesses for one more year. The reduced cost to these new businesses and the staggered implementation dates add to the complexity of the authorization process. Because the implementation spans both the existing and upcoming biennia, legislative action is broken into two steps, even though the board adopted one rule with staggered implementation dates.

The structure of the staggered fee increase and the associated approval and ratification process is illustrated below:

- Phase I: \$75 increase on existing licenses **renewed** on or after July 1, 2024:
 - Board Approval: March 27, 2024
 - DAS Approval: April 2, 2024
 - SOS Filing: April 9, 2024
 - Effective Date: July 1, 2024
 - Leg. Action: Ratification pending as part of 2025 Fee Ratification Bill
 - 2023-25 Revenue: \$1.4 million
 - 2025-27 Revenue: \$2.8 million
- Phase II: \$75 increase on **new applications** received on or after July 1, 2025
 - Board Approval: March 27, 2024
 - DAS Approval: N/A
 - SOS Filing: April 9, 2024
 - Effective Date: July 1, 2025
 - Leg. Action: Approval pending as part of agency 2025-27 budget authorization (POP 102).
 - 2025-27 Revenue: \$705,750

NOTES:

- The agency is seeking minimal additional *operational limitation* associated with the fee increase. That is because the primary basis for the increase was to:
 - Support and maintain *existing service levels and staffing*; AND
 - Preserve cash reserves that have been dedicated and set aside for license system replacement (POP 101).

REVENUES

- The additional limitation requested in POP 101 primarily covers one-time implementation costs. It is expected that subsequent budget requests will address costs associated with ongoing license, maintenance and support costs.
- POPs 104 and 105 request additional limitation to support moving IT hosting to the state data center and to align personal services projections with past hiring and spend patterns. These limitation adjustments were not material to consideration of the fee increase.
- Result of failure to ratify and/or approve either portion of board's fee proposal would likely result in deferral of the license and enforcement system modernization project (POP 101) and reduction in hiring for 2025-27, possible layoffs and possible permanent reductions in future biennia.

Revenue Driven Activity Rates

The two most recent budget development cycles for CCB were defined by a degree of uncertainty. Coming out of the COVID pandemic economic indicators continued to predict the likelihood of a recession. As a result, initial agency projections in 2020 and 2022 were conservative, anticipating the promised recession and the resulting reduction in revenue. These initial projections were incrementally revised upward as license application and renewal rates remained stable and the likelihood of recession receded.

Based on both recent history as well as forward-looking economic indicators the agency has not applied any downward assumptions on the 2025-27 projection. The projected activity rates that form the basis of CCB's 2025-27 revenue projection incorporate the general stability that the agency has continued to experience over recent cycles. The projection also acknowledges the predicted "soft landing" for the general economy in the future. The agency is also factoring in the major statewide investment in housing production during last session and anticipates that support will contribute to a healthy development sector and stable revenues.

Projected rates for key revenue activities are as follows:

- Contractor License Renewal rate – Average of **80%**
- New Contractor License Applications – Average of **392** per month

Including a projected revenue increase of \$1.4 million resulting from the \$75 fee increase for license renewals that became effective July 1, 2024, the ending balance for 2023-25 is projected to be \$5.8 million.

REVENUES

REVENUE ASSUMPTIONS (as of May 2024)

Renewals	Renewals are projected to remain steady with a renewal rate or around 80%. The \$400 fee is contingent upon legislative ratification of a \$75 increase approved by DAS effective July 1, 2024. Details in POP 102.	36,842 x \$400	\$14,736,800
New Licenses	New applications for the CCB license should remain stable at about 392 a month in the 2025-27 biennium. The \$400 fee is contingent upon legislative approval of a \$75 increase as requested in POP 102.	392 x 24 x \$400	\$3,764,000
Lead Based Paint	Initial licenses and renewals are expected to average 435 a month at \$50 each.	435 x 24 x \$50	\$522,000
Other Licenses (Locksmith, Home Inspector Fees, Energy Efficiency and Sustainable Technology (EEAST), Home Energy Assessor (HEA), Flaggers, License Change Fees)	The revenue for all other CCB license fees is projected to remain stable for the 2025-27 biennium.	(Variable)	\$181,791
Civil Penalties	CCB is projecting civil penalty receipts in the amount of \$1,150,546 during 2025-27. The agency retains 20% while 80% is transferred to the General Fund. <div style="text-align: right;"> \$1,150,546 Projected Receipts <u>\$ 920,437</u> Transfer to General Fund \$ 230,109 Net Retained by Agency </div>	\$1,150,546 x 20%	\$230,109

MEMORANDUM

To: Angela G. Parada, MRED
CFO Analyst

From: Chris Huntington
CCB Agency Administrator

Date: August 2024

Re: 2025-27 Agency Request Budget Form 107BF22 Fee Change Detail Report

The following forms provide details of the fee increase adopted by the Construction Contractors Board's (CCB) in 2024, the first increase to the contractor license fee since 2010.

The CCB proposed and adopted a \$75 increase to the existing license fee of \$325, resulting in a total fee of \$400. The implementation of the new fee is scheduled to take place over two years. The new fee will apply to license renewals beginning on or after July 1, 2024. This portion of the increase was approved administratively by DAS. To reduce impact on new businesses, the board deferred impact of the increased fee on new applicants for one additional year. The increased fee will apply to new applications received on or after July 1, 2025. Approval is requested in a policy option package (POP) as part of the agency's 2025-2027 budget.

Increased labor costs since the fee was last increased in 2010 are the primary driver for the proposed increase. Since the fee was last increased, total labor costs have increased by 55%, notwithstanding reductions in total staffing over the same period. Steady increases in the number of licensees over the same period have provided additional revenue and staved off the need for increases prior to now. However, the increasing cost of labor has created a structural budget deficit for the agency.

This is unsustainable and required action by the board to place the agency on a sustainable financial trajectory.

The board was deliberate and conscious of the impact of increased fees on the regulated population. As part of a multi-month process the board considered both revenue enhancements through fee increases as well as reducing costs by cutting positions. Given that agency staffing has been maintained at essentially the same level since 2013, while the number of contractors has steadily increased, the board determined that additional staff reductions would negatively impact service delivery and opted to increase fees for the first time in nearly 14 years. The board also considered impact of action/inaction on planned modernization efforts that promise to improve agency efficiency and improve services.

Ultimately the board identified three key priorities that guided decision-making and informed the board's fee increase proposal:

- **Address the structural budget deficit.**
- **Maintain existing service levels.**
- **Ensure viability of modernization efforts** (replacement of 1990's-era license system)

The board determined that the adopted fee would address these priorities.

Thank you for your consideration.

Chris Huntington

Governor's Budget

X Legislatively Adopted

Budget Page 51

PROGRAM UNITS

The CCB protects and serves Oregon consumers, supports responsible licensed contractors and promotes a positive business climate.

CCB's administration of licensing, enforcement, education and dispute resolution programs are focused on achieving the following objectives:

- Protect Oregon consumers that contract for construction services.
- Promote a fair and competitive business climate in the construction industry.
- Deliver valuable programs, services and resources to both consumers and contractors.
- Provide timely and efficient customer service to all Oregonians.

PROGRAM UNIT NARRATIVE

Licensing Program

As of July 2024, there are approximately 50,000 construction contractor licensees in Oregon. Contractors qualify for licensure by passing an examination on contractor laws, posting a surety bond and providing proof of adequate liability insurance. Non-exempt and commercial contractors must also provide proof of workers compensation insurance. The licensing process also includes a background check that searches for past construction violations, past construction debt and a criminal history search focused on certain statutorily identified crimes. In addition to Residential and Commercial endorsements, the CCB also issues a number of specialty endorsements to Locksmiths, Home Inspectors, Energy Assessors and others.

Enforcement Program – Field Investigations

The field investigations program deters unlicensed construction activity through statewide enforcement of license standards. Field investigators investigate reports of unlicensed construction activity that can be reported to CCB via the agency website. Investigators also perform random and unannounced inspections of construction job sites. Investigators determine the CCB license status of all contractors working at a job site as well as compliance with other CCB administered regulations, including lead hazard abatement standards. If violations are identified, the investigator may issue a field citation or a field report documenting the violation. In a regular two year period, the field investigators will visit approximately 8,000 construction worksites throughout the state.

Enforcement Program – Compliance Services

The compliance program enforces laws relating to the construction industry through formal administrative action. Compliance officers process complaints of unlicensed activity as well as field citations and field reports generated by field investigators. Possible administrative actions may include formal written warnings, assessment of civil penalties, and for more serious license violations, probation, suspension, revocation or refusal to issue or renew a license.

PROGRAM UNITS

Enforcement Program – Mediation and Dispute Resolution Services

The mediation and dispute resolution program helps resolve certain types of statutorily designated construction disputes. Most common disputes include homeowner complaints against a residential contractor and sub-contractors or material supplier complaints for non-payment. The program is voluntary, but CCB mediators are successful in resolving the majority of disputes if both parties are willing to participate. Approximately 1,000 claims are processed each year, including on-site and phone mediations. Additionally, dispute resolution analysts process complaints and order payment from the surety bond if the complainant presents an arbitration award or court judgment ordering payment.

Education Program - Consumer Outreach and Education

The education program educates consumers about protecting their most valuable financial investment by using licensed contractors. Access to the bond, access to dispute resolution services, the protection of contractor liability insurance and the ability to look up the history of licensed contractors are the primary focus of CCB's consumer education efforts. The program also provides information on the proper steps to ensure a successful building or remodeling project, and how to avoid construction scams. Education staff provides consumer education by attending statewide construction trade shows and home shows, issuing news releases, improving the CCB website, and organizing media campaigns. Staff respond to phone calls and speaking engagement requests and coordinate their work with other agencies including DOJ, OSHA, DEQ and others.

Education - Contractor Education

This program administers the pre-license education required of all contractors and oversees the continuing education program that is required for most licensed contractors throughout their life as a licensed contractor. The pre-license program ensures that contractors receive training and testing in basic construction business practices, federal/state regulations that impact construction contractors and important information about laws that affect contractor businesses. New contractors must complete pre-licensure instruction and pass a competency test. Pre-license education is provided by third-party providers based on standards established by CCB. The continuing education program includes a combination of CCB created and delivered training as well as training from a variety of industries and other entities.

PROGRAM UNITS

ESSENTIAL PACKAGES

The agency's 2025-2027 Legislatively Adopted Budget includes standard inflation, price list of adjustments, and technical adjustments that rebalance services and supplies among categories.

POLICY OPTION PACKAGES

CCB proposed four policy option packages. All were approved.

- POP 101 License System Replacement
- POP 102 License Fee Increase
- POP 104 Move IT Hosting to SDC
- POP 105 Personal Services Adjustments

CFO ANALYST ADJUSTMENTS

- Package 092 Statewide AG Adjustment (\$23,302) NOT APPROVED
- Package 093 Statewide Adjustment DAS Charges (\$13,537) NOT APPROVED

OTHER ADJUSTMENTS

- Package 810 Statewide Adjustments HB 5006 \$61,226

LEGISLATIVE CONCEPTS

(NONE)

PROGRAM UNITS

POLICY OPTION PACKAGE 915-101

License System Replacement

Agency Request: \$1,500,000

Governor's Recommended Budget: \$1,500,000

LEGISLATIVELY ADOPTED: \$1,500,000

Purpose

Fund replacement of agency's current thirty-year-old, in-house developed license system. Agency's primary license database is an in-house developed database that is more than 30 years old. The system is cumbersome for staff and external users. The existing system also lacks modern security features and functionality. It is not easily altered to keep pace with changes. These factors lead to significant inefficiencies for the agency and sub-standard service for consumers and contractors. These inefficiencies add cost to administering CCB licensing programs by maintaining labor-intensive manual systems and processes.

How Achieved

Replace the old system with a modern commercial solution. The replacement is planned to be a modern, secure, and supported commercial product that provides significant enhancements to efficiency of agency operations, improved functionality for contractors and consumers that use the system and is expected to meet strict security protocols.

Staffing Impact

A part-time Limited Duration Operations and Policy Analyst 4 position is requested.

Quantifying Results

Estimate of \$1.5 million for 2025-2027. NOTE: Estimating the exact amount of expense that will be spent during 2025-2027 is challenging as the timing is heavily affected by matters outside the control of the agency. The agency has received several high-level estimates from vendors that provide the type of product the agency is seeking. These estimates are included in the agency's approved business case submitted to DAS. Based on these estimates, the agency estimates a total 5-year cost of approximately \$2.1 million split between initial implementation costs and first three years of annual hosting and maintenance. The amount will likely be spread over parts of three biennia. The exact amount per biennia will depend upon outside factors – speed of DAS procurement process, when contract is awarded, speed of implementation etc. The agency recently received Stage Gate 1 authorization and is working toward Stage Gate 2 approval. No costs are expected until completion of Stage Gate 3.

PROGRAM UNITS

	Agency Request	Governor's Recommended	Legislatively Adopted
Personal Services	\$156,004	\$156,004	\$156,004
Services & Supplies	\$1,343,996	\$1,343,996	\$1,343,996
Capital Outlay	\$0	\$0	\$0
Total	\$1,500,000	\$1,500,000	\$1,500,000

Revenue Source:

The cost of this package is financed from Other Funds received through the payment of CCB license fees. Funding of this package is dependent upon legislative ratification and approval of a fee package approved by the board in 2024.

Structure of Fee Increase: Impact on Beginning Balance and Associated POPs

In adopting the fee increase, the board staggered the implementation dates for renewals and new licensees. The structure was adopted to benefit new businesses by deferring additional costs on new businesses for one more year. The reduced cost to these new businesses and the staggered implementation dates add to the complexity of the authorization process. Because the implementation spans both the existing and upcoming biennia, legislative action is broken into two steps.

The structure of the staggered implementation dates and associated ratification and approval process is illustrated below:

- Phase I: \$75 increase on existing licenses **renewed** on or after July 1, 2024:
 - Board Approval: March 27, 2024
 - DAS Approval: April 2, 2024
 - SOS Filing: April 9, 2024
 - Effective Date: July 1, 2024
 - Leg. Action: Ratified in 2025 Fee Ratification Bill (SB 5510)
 - 2023-25 Revenue: \$1.4 million
 - 2025-27 Revenue: \$2.8 million

PROGRAM UNITS

- Phase II: \$75 increase on **new applications** received on or after July 1, 2025
 - Board Approval: March 27, 2024
 - DAS Approval: N/A
 - SOS Filing: April 9, 2024
 - Effective Date: July 1, 2025
 - Leg. Action: Approved in 2025-27 LAB (POP 102).
 - 2025-27 Revenue: \$705,750

PROGRAM UNITS

POLICY OPTION PACKAGE 915-102

License Fee Increase

Agency Request: \$0
Governor's Recommended Budget: \$0
LEGISLATIVELY ADOPTED: \$0

Purpose:

Receive legislative approval of a fee increase for the CCB license fee.

How Achieved:

CCB revenue support comes chiefly from license fees paid by contractors to obtain a new license, and every two years to renew a license. After applying 2023-2025 COLA and bonuses to the LAB (an unbudgeted addition of approximately \$1.1M), the agency was projecting a \$2 million deficit between revenue and expenses for the current biennium. While the agency has accumulated sufficient reserves, the projected depletion of reserves is not sustainable. The fee paid by contractors has not been raised above the current rate of \$325 since 2010. Over that period costs have significantly increased (labor costs are up 55%), workload has increased (14% increase in number of contractors), staffing is down 26% (reduced from 80 staff to currently 59) and the fee paid by contractors has been static.

The CCB board has proposed and adopted a \$75 increase to the two-year license fee paid by contractors. The proposal would have this fee apply to renewals on or after July 1, 2024 (2023-2025 biennium) and to new applications submitted on or after July 1, 2025 (beginning of next biennium). The board has formally adopted the rule, including the cited implementation schedule.

This policy package has two components:

- DAS has approved the increase as it relates to the 2023-2025 biennium (for license renewals), and it went into effect July 1, 2024. This fee increase will be included in the statewide fee bill for ratification of the increase beyond June 30, 2025. Projected revenue for 23-25 is \$1.4 million and for 25-27 is \$2.8 million.
- CCB requests approval of a \$75 fee increase for new license fees paid by contractors effective July 1, 2025. The projected increased revenue in 25-27 is \$705,750.

☐ Agency Request

☐ Governor's Budget

☒ Legislatively Adopted

Budget Page 58

PROGRAM UNITS

The structure of the staggered implementation dates and associated ratification and approval of the fee increase is illustrated in detail below:

- Phase I: \$75 increase on existing licenses **renewed** on or after July 1, 2024:
 - Board Approval: March 27, 2024
 - DAS Approval: April 2, 2024
 - SOS Filing: April 9, 2024
 - Effective Date: July 1, 2024
 - Leg. Action: Ratified in 2025 Fee Ratification Bill (SB 5510)
 - 2023-25 Revenue: \$1.4 million
 - 2025-27 Revenue: \$2.8 million

- Phase II: \$75 increase on **new applications** received on or after July 1, 2025
 - Board Approval: March 27, 2024
 - DAS Approval: N/A
 - SOS Filing: April 9, 2024
 - Effective Date: July 1, 2025
 - Leg. Action: Approved in 2025-27 LAB.
 - 2025-27 Revenue: \$705,750

Staffing Impact:

No increase in staffing.

Quantifying Results:

Revenue Source:

Other funds.

Budget Page 59

PROGRAM UNITS

POLICY OPTION PACKAGE 915-104

Move IT Hosting to SDC

Agency Request: \$35,664

Governor's Recommended Budget: \$35,664

LEGISLATIVELY ADOPTED: \$35,664

Purpose

Move hosting of CCB IT infrastructure to the SDC.

How Achieved

The agency has been in ongoing discussions with the State Data Center to move hosting of CCB IT infrastructure to the SDC. Current CCB servers are hosted by CCB and require significant additional dedicated IT effort that could be better utilized on forward-facing business operations that benefit consumers and contractors.

Staffing Impact

None

Quantifying Results

An SDC quote from mid-2022 quoted an estimate of \$16.7K annually. Applying a 6.5% inflation factor to the original quote the agency estimates annual charges of \$17,832 or \$35,664 for the biennium.

	Agency Request	Governor's Recommended	Legislatively Adopted
Personal Services	\$0	\$0	\$0
Services & Supplies	\$35,664	\$35,664	\$35,664
Capital Outlay	\$0	\$0	\$0
Total	\$35,664	\$35,664	\$35,664

Revenue Source:

The cost of this decision package is financed from Other Funds received through the payment of CCB license fees.

PROGRAM UNITS

POLICY OPTION PACKAGE 915-105

Personal Services Adjustments

Agency Request: \$337,949

Governor's Recommended Budget: \$337,949

LEGISLATIVELY ADOPTED: \$337,949

Purpose:

CCB requests additional Personal Services limitation:

- CCB has traditionally never had any budget for non-ORPICS PS costs for temporary workers or differentials, though the agency consistently makes use of these items to meet agency priorities. Budgeted overtime, incurred primarily by the licensing section during peak renewal periods and by enforcement staff in support of travel to remote locations, is insufficient based on past and projected usage.
- CCB is unable to successfully recruit positions at the Step 3 level, which is the step vacant positions automatically default to at "PICS Freeze" during the budget development process. While requested step increases for three positions were not approved in the Governor's Budget, an equivalent amount of limitation was recommended in the category of Other Personal Services to support additional flexibility in hiring well qualified individuals in specific classifications based on past hiring.
- This package also includes a zero-cost technical adjustment reclassification of a position.

How Achieved:

Add limitations to budgeted non-ORPICS line items consistent with past and expected usage of these items.

Provide additional limitations to Personal Services to support flexibility in hiring the best qualified staff.

Increase the number of steps for three positions as described below in order to generate sufficient limitation to fund the hiring of the best qualified staff. **[NOT APPROVED IN LAB]**

Reclassify a position from a Systems & Programming Supervisor 1 to a Chief Information Manager 1 as described below.

___ Agency Request

___ Governor's Budget

 X Legislatively Adopted

Budget Page 61

PROGRAM UNITS

Staffing Impact:

Step Increases

Business Services Manager – Manager 1 (31x) – Freeze Step 3 [NOT APPROVED IN LAB]

Request: Recruit/Hire at Step 7

Justification: Hiring an experienced manager at Step 3 is not in line with recent experience. The agency has a limited leadership team and hiring and training inexperienced managers is undesirable and not in line with agency needs. Because the agency has relatively few positions and tends to retain leadership we don't have extensive hiring data, but the last manager hired was hired at Step 9. Given agency's recent experience, business need and desirability of attracting and hiring experienced leaders we request this adjustment be approved.

- Principal Exec. Manager D SR 31x – Hire Date 12/20/21 Step 9

Enforcement Program Analyst – OPA 2 – Freeze Step 3 [NOT APPROVED IN LAB]

Request: Recruit/Hire at Step 6

Justification: While the cited position is the only OPA 2 in the agency and it is a newly reclassified position, we do have other positions in the OPA series, and both were hired above Step 3 (see notes below). Again, the agency does not have large pools of analysts, individuals must come with experience. This position was specifically created as a promotional ladder within the organization. There are very few options to move up the chain at CCB between SR 25 and the Management series (SR 31x). This position was designed to help bridge that gap. Also, the function of this position demands significant internal knowledge of agency regulations and processes. As such we fully anticipate hiring this as an internal only recruitment. Given the tenure and experience of the SR 25 individuals within the organization that would be likely to compete for the position Step 3 is not a reasonable estimate of the likely hire rate of pay.

- The last two employees in the OPA series were hired at Step 7 and Step 10.
- As articulated above this position will come from the pool of experienced CS 2's within the agency, most of whom are hired at high steps and will require a higher step if they promote into the position.

Field Investigator Mediator – CS 2 – Freeze Step 3 [NOT APPROVED IN LAB]

Request: Recruit/Hire at Step 9.

Justification: The position was recruited and hired shortly after freeze and was hired at Step 10. As additional background, over the course of the last several years the most likely candidates for our field investigator positions are former law enforcement individuals. They almost always demand at or near top step given the alignment of their training and experience with the position that they are hiring for.

PROGRAM UNITS

Reclassification

Systems & Programming Supervisor 1 Step 9 to Chief Information Manager 1 Step 7 (zero cost)

Justification: Currently in ORPICS the agency IT manager's position has a budgeted job code of MMS X1410 IP SR31X. The is an abolished classification. During The Oregon Management Project class review analysis that moved the general Principal Executive Manager (PEM) series into more specific, job-related classifications to be in alignment with the public and private sector, the position was allocated to the Information Technology Infrastructure Manager 1 X7935 IP SR31X classification. This classification was appealed by the incumbent. Given the size, scope, and complexity of the work that the position is responsible for, the Chief Information Manager 1 classification (MMS X7445 IP SR31X) was determined to be the best fit. The result of these changes was not updated in the ORPICS system and should be corrected. The Salary Range remains at 31X. The Step level has been adjusted so that there is no cost to this reclassification.

Quantifying Results:

Add to budgeted line items consistent with past and expected usage of these items: \$50,000 for overtime, \$47,000 for temporary workers and \$64,000 for differentials, and \$37,408 of associated OPE.

Provide additional limitation to Personal Services to support flexibility in hiring the best qualified staff: \$139,541.

	Agency Request	Governor's Recommended	Legislatively Adopted
Personal Services	\$337,949	\$337,949	\$337,949
Services & Supplies	\$0	\$0	\$0
Capital Outlay	\$0	\$0	\$0
Total	\$337,949	\$337,949	\$337,949

Revenue Source:

The cost of this decision package is financed from Other Funds received through the payment of CCB license fees.

SPECIAL REPORTS

IT PROJECT PRIORITAZTION MATRIX – Agency Submitted Scoring Matrix

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Technology and Strategic Alignment (35%)		
Alignment to Strategic Plans	Agency Score: 3 EIS Score: 3 CCB's IT Strategic Plan supports the replacement and modernization of multiple outdated systems with Licensing and Enforcement Modernization. A cloud-based Software-as-a-Service will be CCB's first and preferred option. With this system, CCB intends to address accessibility issues for all Oregonians as well as create a more user friendly, self-service system that is not paper driven like current systems. A new system will also allow data to be more secure and as well as allow agency leadership to make improved data driven decisions. IT staff will be able to shift from burdensome coding to being able to quickly configure changes required by legislature and business process improvement.	
Technology Best Practices and Priorities	Agency Score: 3 EIS Score: 3 CCB has been cobbling together current systems since the 1990's. Changes are difficult and some security features are difficult because of old programming languages. CCB looks forward to the improved security, modern ways to do business with contractors and the public (like they are used to with other systems) and having quality data to use to make data driven decisions. CCB fully embraces the Cloud Forward approach. CCB plans to change business processes to use a COTS system with no or very little customization. CCB will work with a vendor to migrate data in the most efficient way and to clean up data before migration.	
Business and People Centered Approach (25%)		

___ Agency Request

___ Governor's Budget

X Legislatively Adopted

Budget Page 84

SPECIAL REPORTS

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
People Centered Approach	Agency Score: 2 EIS Score: 2 CCB routinely surveys construction contractors and has found that they desire an online system that they can access from anywhere (computers, mobile devices, etc.). CCB's current system is predominantly paper driven (with a few exceptions). The code for the current system is old and out of date and CCB cannot translate forms and communications easily or provide information to those with disabilities. A new system will help CCB meet those goals. It will also help internal staff to be more efficient and provide higher value customer service rather than making sure paperwork is correct and performing data processing functions. CCB has not yet discussed if and how we would use public involvement and the Racial Equity Toolkit because we are just beginning the project. These will be addressed as we complete our Communications Management and Stakeholder Management Plans.	
Business Process Transformation	Agency Score: 3 EIS Score: 3 As discussed in some of the items above, CCB anticipates obtaining a COTS solution with no or little customization. Business processes will be required to change. One important change will be the requirement for all CCB business to be available to be done online rather than paper. We realize there will still be situations that our consumers will not have online access but that will be an exception. From the CCB surveys received, contractors welcome online/self-service opportunities. CCB has documented many measurable benefits anticipated and they can be found in the Business Case.

___ Governor's Budget

X Legislatively Adopted

Budget Page 85

SPECIAL REPORTS

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Investment Risk	Agency Score: 3 EIS Score: 3 Continuing with the status quo would mean that CCB would continue to use a system that has limited ability to make changes and will not be able to meet future needs. Without a new system, it is questionable how long CCB will be able to maintain current business operations, serve its constituencies, and fulfil its legislative and statewide mandates (such as enhanced security). Failure to modernize the efficiency of the licensing and enforcement systems hampers businesses from the setup of their initial CCB license which has a multiplier effect on their ability to hire employees, pay taxes and purchase supplies. Data quality and insufficient reporting capabilities will also remain, preventing CCB from providing reliable data to stakeholders when requested. Failure to be more accessible to all Oregon consumers and contractors.	
Agency Readiness and Solution Appropriateness (40%)		
Organizational Change Management (OCM)	Agency Score: 3 EIS Score: 3 With obtaining a COTS solution, CCB anticipates the upgraded system will significantly impact operations throughout the organization. The majority of employees use the current systems to do their work. CCB has already engaged in OCM activities such as all leadership being trained about the PROSCI ADKAR model, what it takes to be a sponsor, resistance, etc. CCB has been working on process improvements for a while even with the limitations of current system, so a culture of change is becoming instilled. CCB plans to prepare a formal Organizational Change Management Plan and follow the PROSCI methodology. As CCB prepares the Communication Management Plan, we will identify community involvement/communication and have already discussed options for outreach/training as we began working on the Stakeholder Management Plan.	

___ Agency Request

___ Governor's Budget

X Legislatively Adopted

Budget Page 86

SPECIAL REPORTS

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Solution Scale and Approach	Agency Score: 2 EIS Score: 2 CCB routinely surveys construction contractors and has found that they desire an online system that they can access from anywhere (computers, mobile devices, etc.). For the most part, contractors work out of a vehicle so mobile access is very important. Using online systems and email communication is also very important. With the current paper driven processes, many fees cannot be paid online, contractors receive letters in the mail for things that need to be corrected on paper forms extending the process for application sometimes by weeks. CCB's first and preferred solution is a cloud-based SaaS so that it can be scaled to future needs and IT staff can provide higher level value. As CCB prepares its Stakeholder and Communications Plans, we will discuss other ways to involve customers and communities in the usability of the solution.	
Capacity	Agency Score: 3 EIS Score: 3 CCB will have the skillsets and capacity to resource this system replacement. The specialized resources will be obtained as needed and we have discussed the possibility of hiring temporary employees to carry on business so that Subject Matter Experts can be freed up to work on the project. Budget has been reserved to obtain additional resources when needed. CCB always fosters an inclusive workplace culture.

SPECIAL REPORTS

CRITERIA	SCORING GUIDE	SCORE AND AGENCY JUSTIFICATION
Governance and Project Management Processes	<p>Agency Score: 2</p> <p>EIS Score: 2</p> <p>Because CCB has operated IT as break/fix for many years, a formal IT governance process has not yet been set up. It has been discussed as being needed once this implementation is complete. The steering committee has not officially been set up, but the CCB Leadership Team has been meeting every two weeks to discuss high level requirements, stakeholders, organizational change, RACI, etc. The sponsor of the project is the CCB Administrator, and he is fully engaged. CCB is in the beginning stages of discussion on project governance and the leadership team will review all management plans before they are submitted. The sponsor will involve the CCB Board as the project is implemented. As the Communication Management Plan is created, CCB will discuss community outreach and how to incorporate the DEI Action Plan. Any project resources that CCB does not currently have, will be obtained as the project is implemented and budget has been reserved to obtain them. CCB has begun working on Stage Gate 2 documents and is using PMBOK standards and plans to use them throughout the project.</p>

Budget Page 88

SPECIAL REPORTS

IT STRATEGIC PLAN

CCB's primary IT focus is on replacement of the agency's licensing and enforcement database that has been in operation since the 1990's. The system relies on outmoded and manual (paper) processes delivering a less-desirable user experience and creating inefficiencies for agency staff and driving up long-term costs. The agency has already begun the process of building agency-wide engagement in the replacement. The planning and development have incorporated feedback and expertise from leadership and front-line personnel in every unit of the agency. The agency has also performed extensive outreach to other agencies that have recently or are currently moving through the process. The information shared as a result of these outreach efforts has heavily informed the agency's planning efforts. This expansive and coordinated planning effort, including experts both within and outside the agency, has built a strong basis for a successful implementation.

Simultaneously the agency continues to focus on implementing small achievable enhancements and streamlining efforts that result in efficiencies and better service to the customer in advance of full license system replacement. Implementation of a call-back feature for the CCB call center and deployment of an electronic submission portal for new applications have delivered enhanced service and improved the efficiency of agency programs.

IT Strategic Plan Guiding Principles

- **Modernized User Experience**
Running outdated applications causes many challenges and is out of alignment with business and customer service goals. Modernization will focus on improving the customer experience while also making staff more efficient.
- **Innovation and Continuous Improvement**
Organizational culture will be a catalyst for continuous improvements and will encourage exploration of technology innovation that will improve external service delivery and internal efficiency.
- **User Experience**
Technology solutions will be designed to optimize the user's experience and maximize utilization of sharing and reuse technologies.
- **Strategic Adoption of New Technologies**
Adoption of technology will rely on and build on the experience of other agencies and will consider and deploy enhancements on an ongoing basis.
- **Quality Business Data**
Agency will ensure sound business data stewardship by providing a secure and accessible data environment.

SPECIAL REPORTS

IT Action Plan: Key Initiatives

- **License System Replacement:** Replace the licensing and enforcement system with a system that meets the needs of the Construction Contractors Board and the needs of consumers and contractors, including expanding the scope of services that may be performed online, reduce the amount of manual and paper documentation needed, reduce processing times, reduce errors and omissions that lead to delays and additional phone call and email traffic.
- **Field Investigator Hardware Refresh:** Upgrade hardware tools and technologies available to field investigators to enable most functions to be performed onsite, improving efficiency of site checks and allowing more sites to be visited annually.

Move to State Data Center: Move on premises servers from CCB to the State Data Center, alleviating a key body of work from CCB IT Group and allowing agency staff to focus on business-centric developments with greater impact to CCB staff and customers.

AFFIRMATIVE ACTION

Responsibility for achieving the Affirmative Action objectives is shared by all managers and employees at CCB. The following individuals will provide the leadership for CCB to have a workforce rich in diversity, free of discrimination, and a welcoming, inclusive environment. The agency's affirmative action policy states that equal opportunity for employment will be afforded to all applicants, for every position opening within the agency, regardless of race, creed, or disability.

Leadership achieves these objectives by:

- Fostering and promoting to subordinate managers and employees the importance of a diverse, discrimination and harassment free workplace. Assure managers and employees understand their responsibilities in achieving a welcoming work environment free from discrimination and harassment.
- Conducting performance reviews for subordinate managers, include ratings on the manager's support and effectiveness in working toward the CCB Affirmative Action Plan objectives, and their contribution to promoting a welcoming and respectful work environment.
- Informing employees of the goals and objectives for the CCB Affirmative Action Plan.
- Display the CCB Affirmative Action Policy Statement and CCB Diversity and Inclusion Statement in prominent areas and on the website.
- Attending, and encouraging staff to attend, diversity related activities and training. Share information received with managers and staff who were unable to attend.
- Following the procedures outlined in DAS 50.010.01, Discrimination and Harassment Free workplace, and follow reporting requirements outlined in the policy.

2023-2025 Accomplishments

- Progress on Expanded Outreach to Diverse Organizations: By maximizing the network, we have been building we were able to successfully hire four new Board Members. One of which does a direct result of the networking with the LatinoBuild Organization. Moreover, CCB hired nine new employees to the agency 11% of those hired identified as being Hispanic or Latino. Bring in an even more diverse workforce helps support the agency's goal to build a culture where all differences are valued from all perspectives.

___ Agency Request

___ Governor's Budget

X Legislatively Adopted

Budget Page 92

SPECIAL REPORTS

- Regular Communications with Staff on Diverse Topics: Through all of the different platforms of communication with Staff and Leadership alike, we have promoted equity and shown that with supportive and positive work environment it fosters a respectful workplace for all employees; despite their differences. Whether those differences are cultural differences, generational differences or differences in life experience.
- Diversity Tools and Resources For Staff: In early 2024, the Human Resources Analyst position was filled. The impact for the agency was felt immediately. The skills, knowledge and abilities with this hire exceeded the expectations and has provided strong leadership and support in helping CCB to achieve the goals and objectives for the 2023-2025 biennium. This position will continue to serve as the Affirmative Action Coordinator as well as support the agencies efforts to empower staff to make informed decisions with respect to their individual levels of comfort and desires for career and professional development.
- Improve Support for Pre-licensees, Including Spanish Exam Pass Rate: Improved the first time pass rate to 53.33% for all candidates who sat for CCB license exam in Spanish, a 40% increase over the last several years. CCB's Communication and Education Team has also rolled out several new Contractor Application workshop/webinars in 2024 and they are planning to remove additional barriers for our Spanish speaking Contractors by committing that these workshop/webinars will be offered in both English and Spanish. These webinars are a value added to individuals that may be less aware of the complicated regulatory and licensing protocols and are intended as a support for underserved/underrepresented individuals and populations to further aid in their success to obtaining a CCB License through voluntary compliance.

Summary of 2025-2027 Goals and Strategies

- **Intra-Agency Communication and Resources:** Build knowledge and awareness and enhance staff engagement by building a supportive, positive, and respectful workplace while celebrating employee differences whether they be cultural, generational, or through lived experiences.
 - Expand quarterly Wellness Newsletter to include DEIB articles.
 - Human Resource's Weekly Tips will support DEIB awareness topics.
- **Inclusive External Communication and Resources: Reduce language and other barriers to accessing agency information and resources** to enable as many Oregonians as possible to benefit from agency services.
 - Website incorporates accessibility principles and can be translated into multiple languages.
 - Deliver aids and resources to support applying for CCB license in multiple languages.
 - Webinars – offered in English and Spanish which include closed captioning options.
 - Proposed Licensing System Modernization will include accessibility principles in requirements.

SPECIAL REPORTS

- **Workforce Demographics & Training:** Continue to develop a network of resources and relationships in order to support broadest possible reach on agency recruitment efforts for both staff and board positions. Support career development opportunities for employees through training and awareness programs that foster a strong sense of engagement and community.
