

Asset Forfeiture in Oregon 2017

Report from the Asset Forfeiture Oversight Advisory Committee to the Oregon Legislature

April 2018

Criminal Justice Commission
State of Oregon

Foreword

The purpose of this report is to provide the number and nature of asset forfeitures in Oregon in 2017. State and local government agencies electronically report seizures they have made for the purpose of civil and criminal forfeiture using the Oregon Asset Forfeiture (FluidReview) website. The staff at Oregon Criminal Justice Commission (CJC) uses the information reported by state and local agencies to compile this report for the Asset Forfeiture Oversight Advisory Committee (AFOAC). Statutory direction for the AFOAC, the CJC, and these reporting requirements are found at ORS 131.600, ORS 131A.450, & ORS 131A.455.

The Asset Forfeiture Committee met on April 3, 2018 to discuss the findings represented in the 2017 annual report.

During the 2018 legislative short session, HB 4056 was passed. This new legislation made the following changes to ORS Chapter 131A Civil Forfeiture:

1. Language change- HB 4056 strikes the term 'drug courts,' and adds 'support for specialty courts' defined as Drug, Veteran and Mental Health courts. This change broadens the use of forfeiture proceeds deposited in the Oregon Criminal Justice Commission Drug Courts account.
2. Addition of New Distribution – The Oregon 529 College Savings Plan will receive 10% of forfeiture proceeds as of July 1, 2018. The funds will come from the forfeiting agency's proceeds and will specifically be distributed to the scholarship fund subaccount for children of public safety officers who have 'suffered a qualifying death or disability,' ie: line of duty injury or fatality.

Recommendations

- The committee proposes to support legislation that will amend the statute regarding publication of forfeiture cases. The committee recommends that the civil and criminal forfeiture statutes be amended to provide for publication in a newspaper of general circulation one time rather than four times and that the notice of seizure for forfeiture be posted for thirty days on the forfeiting agencies official web site.
- ORS Chapter 131A provides a mechanism for the forfeiture of the proceeds or instrumentalities of specified criminal conduct which is generally commercial in nature. This is referred to in the statutes as "prohibited conduct". The commission of prohibited conduct can produce significant revenue, usually in cash, which often results in the need for the offender to launder this revenue. Money laundering is therefore a natural extension and sometimes required part of the criminal undertaking of prohibited conduct. However, money laundering itself is not included in the definition of prohibited conduct for civil forfeiture. In order to further the purposes of the civil forfeiture statutes, the committee recommends a statutory fix to amend ORS 131A.005(12) to include laundering a monetary instrument ORS 164.170 to ORS 164.174.
