Overview of Justice Reinvestment Supplemental Grant Program

In 2017, HB 3078 created a competitive grant to support *downward departure prison diversion programs*. Unlike the Formula Grant, Supplemental Grant funds are *limited to positions and trainings* that directly support downward departure prison diversion programs. Ten percent of supplemental funding requested must be dedicated to nonprofit community-based victim services providers approved in the county's formula-based Justice Reinvestment grant application

Program Performance Objective

Qualifying programs must:

- Identify a specific eligible population agreed upon by all key stakeholders, including the district attorney's office, the judiciary, and community corrections.
- Use presentencing assessments to inform downward departure sentencing. Assessments used may include, but are not limited to, the PSC, LS/CMI, URICA, TCUDS, ASUS, and WRNA.
- Establish regular communication regarding program participants' progress, including collaboration on revocation decisions.
- Use structured sanctions for all program participants.
- Provide supervision, sanctions, and services appropriate to participants' criminogenic risks and needs.
- Aim to decrease county prison intakes—including revocations—for the target population.
- Use data to monitor and evaluate program in order to improve program operations.

Allowable Uses

Supplemental grant funds are restricted to supporting key personnel positions that increase local capacity to engage in a collaborative, effective downward departure prison diversion program. Funding is available to support critical personnel in participating agencies including, but not limited to, the following:

- Public Defense Services
- District Attorney's Office
- Judiciary
- Community Corrections

Funding may also be used for training directly related to the development or operation of the downward departure prison diversion program. Funding may not be used to support wraparound services or sanctions for program participants, such as treatment, housing, skills training, jail beds, or community service programming. Applicants are strongly encouraged to use their formula-based Justice Reinvestment grant funding to build appropriate local service and sanction capacity
