MEMORANDUM

To: Lori Friesen, Project Development Coordinator, Oregon Parks and Recreation Department (OPRD)

From: Bill Foster, Chair, Capital Planning Advisory Board (CPAB/Board)

Date: August 20, 2024

Subject: OPRD's 2025-27 Agency Facilities Plan Acceptance

Lori,

The Capital Projects Advisory Board (CPAB/Board) has reviewed OPRD's 2025-27 facilities plan in accordance with ORS 276.227. Following your Board presentation on July 12th, the Board has **accepted** your plan with the following comments:

- *CPAB appreciates your thorough presentation and the agency's continued effort to add capacity and amenities to the state's beloved parks.*

Sincerely,

Bill Foster, Chair

Capital Projects Advisory Board (CPAB)

Oregon

Tina Kotek, Governor

Parks and Recreation Department

3 June 2024

To: Capital Projects Advisory Board

From: Oregon Parks and Recreation Department

Subject: 2025-27 Agency Plan Submission

During the 2023-25 biennium the Oregon Parks and Recreation Department (OPRD) focused on preparing for the infusion of \$50M in General Obligation Bonds. This is the first time the agency has received General Obligation funds. The Finance, Procurement, and Project Departments developed and implemented new processes to support the spending and reporting requirements related to these funds. These funds will update some of the aging park infrastructure, provide more overnight sites to help meet visitation demand, support the preservation of historical buildings, and provide new visitor/interpretive centers. Additional major projects are funded with \$16.2M in Policy Option Packages, and \$11.7M with Lottery funds through 2025.

During this time, the agency also filled five Project Managers (PMs) positions and hired four Limited Duration PMs to continue supporting the development and implementation of these major projects under ORS 390.121 Parks and Recreation Powers of Commission. The agency also finalized new statewide standards for park restroom/shower facilities, cabins, and park residences to improve universal access, meet updated codes, and improve efficiencies. Accessibility Design Standards were also developed. These standards along with the agency's ADA Transition Plan go above and beyond accessibility codes when and where we can to guide the development of new projects and upgrading existing facilities, sites, trails, and other state park aspects.

The agency PMs and project teams have worked on completing the site assessments to inform the feasibility of site development and scope details of these major projects. These projects address updating infrastructure, preserving historical structures, expanding camping opportunities, a new visitor center, and a new interpretive center. Projects are underway and in various feasibility, design, and construction phases. Some projects will carry over into the 25-27 biennium for completion.

The 2025-27 biennium facility plan for OPRD is to continue to implement the following project plan that expands across the state:

- replacing six restroom/shower facilities
- two new restroom/shower facilities
- one new park residence
- one new visitor center
- one new interpretive center
- preservation work on four historical structures

The increase in the number of facilities and expanding overnight capacity has increased the need for additional staffing. The agency plans to address this with recruiting additional seasonal staff and on-boarding them earlier in the season. This will support additional cleaning and maintenance needs with the added facilities as well as visitor services. The agency has also hired three regional Project Managers to address maintenance and smaller projects.

OPRD is looking forward to providing additional care for Oregon's historical structures, update infrastructure, and supply additional overnight opportunities along with new visitor/interpretive centers to some of Oregon's well-loved properties.

Lori Friesen | Project Development Coordinator | Senior Project Manager

Oregon Parks and Recreation Department

Central Parks Services | Park Improvement

*To provide and protect outstanding natural, scenic, cultural, historic, and recreational sites
for the enjoyment and education of present and future generations.*

|--|----------|--|
| Priority Two: Potentially Critical | 5 | From the Budget Instruction: Priority Two projects are to be undertaken in the near future to maintain the integrity of the facility and accommodate current agency program requirements. Included are systems that are functioning improperly or at limited capacity, and if not addressed, will cause additional system deterioration and added repair costs. Also included are significant building envelope issues (roof, sides, windows and doors) that, if not addressed, will cause additional system deterioration and added repair costs. |
| Priority Three: Necessary - Not yet Critical | 6 | From the Budget Instructions: Priority Three projects could be undertaken in the near to mid-term future to maintain the integrity of a building and to address building systems, building components and site work that have reached or exceeded their useful life based on industry standards, but are still functioning in some capacity. These projects may require attention currently to avoid deterioration, potential downtime and consequently higher costs if corrective action is deferred. |
| Priority Four: Seismic and Natural Hazard Remediation | 7 | From the Budget Instructions: Priority Four projects improve seismic performance of buildings constructed prior to 1995 building code changes to protect occupants, minimize building damage and speed recovery after a major earthquake. Projects also include those that mitigate significant flood hazards. |
| Facility Condition Index | 8 | A calculated measure of facility condition relative to its current replacement value (expressed as a percentage) |

Facility Plan - Maintenance Priority 1-4
2025-27 Biennium

Agency Name Oregon Parks and Recreation Department

| | | |
|--|----------|--|
| Priority Four: Seismic and Natural Hazard Remediation | 7 | From the Budget Instructions: Priority Four projects improve seismic performance of buildings constructed prior to 1995 building code changes to protect occupants, minimize building damage and speed recovery after a major earthquake. Projects also include those that mitigate significant flood hazards. |
| Facility Condition Index | 8 | A calculated measure of facility condition relative to its current replacement value (expressed as a percentage). |

Current Maintenance Priority 5* for Owned Assets Over \$1M CRV

|------------------------------|---|---|
| Priority Five: Modernization | 1 | From the Budget Instructions: Priority Five projects are alterations or replacement of facilities solely to implement new or higher standards to accommodate new functions, significantly improve existing functional capabilities as well as replacement of building components that typically last more than 50 years (such as the building structure or foundations). These standards include system and aesthetic upgrades which represent sensible improvements to the existing condition. These projects improve the overall usability and reduce long-term maintenance requirements. Given the significant nature of these projects, the work typically addresses deficiencies that do not conform to current codes, but are 'grandfathered' in their existing condition to the extent feasible. |

2025-27 Biennium**

Agency Name Oregon Parks and Recreation Department

| |
|---|
| <p>1. What are the key drivers for your agency's facility needs, and how do you measure space/facility demand? Staffing to manage and address backlog and keep up w/increasing visitors, updating facilities touniversal access.</p> <p>Key drivers for the agency's facility needs are:</p> <ul style="list-style-type: none">A) Park Visitation - Increasing visitation numbers due to longer visitation seasons and population growth leads to the need for increasing levels of preventive maintenance, while also taxing our aging infrastructure. The utilities that support park facilities struggle to keep up with the increasing demand and many are at the end of their life.B) Increased maintenance demands and needed increase in staffing levels to keep up with the continual increase in visitation demands, preventive maintenance, and aging infrastructure. Some properties experience year-round visitation seasons that does not allow for staff to switch or take care of maintenance that needs to be addressed when parks are closed.C) Space and facility demand is measured by visitation numbers. The OPRD ADA Transition Plan addresses accessibility updates needed throughout the state park system. The OPRD Accessibility Guide establishes standards to use that are above and beyond ADA for improved accessibility. OPRD Cleaning/maintenance matrixes are used to plan staffing needs. |
| <p>2. What are the key facility-related challenges over the next 10-years? (Please answer in order of priority)</p> <ul style="list-style-type: none">A) Aging infrastructure that support restroom/shower facilities electrical supply supporting visitation and recreation expectations have far exceeded their useful lifespan. Increased visitation numbers are taxing these utilities beyond designed capacity.B) Many of the facilities owned and managed by OPRD were inherited and built prior to ADA standards. The agency has developed an ADA Transition Plan to update facilities. The agency developed an Accessibility Guide that goes beyond ADA to also improve Universal Access when and where we can.C) Emerging maintenance - As the maintenance backlog is brought down, emerging maintenance is increasing and quickly exceeding backlog costs.D) Staffing needs are increasing due to the increased maintenance demands from the condition of park infrastructure, increasing visitation, and the addition of facilities to accommodate expansion. Staffing and the availability housing for seasonal personnel will continue to be a challenge moving forward.E) Maintenance and replacement of facilities and infrastructure has been impacted by the increased costs of materials and services have inflated costs beyond historical budget increases. |
| <p>3. What do you need to meet these challenge?</p> <ul style="list-style-type: none">A) Additional FTE to address the increase of maintenance of facilities and infrastructure beyond its lifespan and/or designed capacity to accommodate visitor demands and the increase in major projects.B) Adequate funding is essential for meeting facility needs and the staffing needed to maintain them. The aging facility issue needs to be addressed to meet the capacity requirements of visitation numbers. The infusion of General Obligation funds OPRD is receiving will address some of the failing infrastructure.C) The staffing succession wave has reduced the skill level of current staff; as new employees replace long term staff, an increased emphasis on training is needed to ensure the skills needed to care for facilities at a level sufficient for successful preventative maintenance.D) Increased procurement requirements have resulted in increased processing and approval times that impact contracting timelines and scheduling resources. |

| 1 | The Facilities Operations and Maintenance budget includes costs to operate and maintain facilities and keep them in repair including utilities, janitorial and maintenance costs. Maintenance costs are categorized as external building (roof, siding, windows, etc.); interior systems (electrical, mechanical, interior walls, doors, etc.); roads and ground (groundskeeper, parking lots, sidewalks, etc.); and centrally operated systems (electrical, mechanical, etc.). Agencies with significant facilities may include support staff if directly associated with facilities maintenance activities. Do not include other overhead costs such as accounting, central government charges, etc. |
| 2 | Show the fund split by percentage of fund source allocated to facility O&M for your agency |

Facilities Operations and Maintenance Budget O&M Estimated Fund Split Percentage %

| | | |
|--|-----------------|--|
| <p>Total Short and Long Term Maintenance and Deferred Maintenance Plan for Facilities Value Over \$1M</p> | <p>3</p> | <p>All Maintenance excluding routine O&M costs. 23-25 and 25-27 auto-populates with 2% of the sum of your agency portfolio's CRV. Written to deliver on SB 1067: SECTION 9. (1) Each biennium, the Governor shall propose as part of the Governor's recommended budget an amount for deferred maintenance and capital improvements on existing state-owned buildings and infrastructure that is equivalent to at least two percent of the current replacement value of the state-owned buildings and infrastructure.</p> |
| <p>Priority One: Currently Critical</p> | <p>4</p> | <p>From the Budget Instruction: Priority One projects are conditions that require immediate action in order to address code and accessibility violations that affect life safety. Building envelope issues (roof, sides, windows and doors) that pose immediate safety concerns should be included in this category.</p> |
| <p>Priority Two: Potentially Critical</p> | <p>5</p> | <p>From the Budget Instruction: Priority Two projects are to be undertaken in the near future to maintain the integrity of the facility and accommodate current agency program requirements. Included are systems that are functioning improperly or at limited capacity, and if not addressed, will cause additional system deterioration and added repair costs. Also included are significant building envelope issues (roof, sides, windows and doors) that, if not addressed, will cause additional system deterioration and added repair costs.</p> |
| <p>Priority Three: Necessary - Not yet Critical</p> | <p>6</p> | <p>From the Budget Instructions: Priority Three projects could be undertaken in the near to mid-term future to maintain the integrity of a building and to address building systems, building components and site work that have reached or exceeded their useful life based on industry standards, but are still functioning in some capacity. These projects may require attention currently to avoid deterioration, potential downtime and consequently higher costs if corrective action is deferred.</p> |
| <p>Priority Four: Seismic and Natural Hazard Remediation</p> | <p>7</p> | <p>From the Budget Instructions: Priority Four projects improve seismic performance of buildings constructed prior to 1995 building code changes to protect occupants, minimize building damage and speed recovery after a major earthquake. Projects also include those that mitigate significant flood hazards.</p> |
| <p>Priority Five: Modernization</p> | <p>8</p> | <p>From the Budget Instructions: Priority Five projects are alterations or replacement of facilities solely to implement new or higher standards to accommodate new functions, significantly improve existing functionality as well as replacement of building components that typically last more than 50 years (such as the building structure or foundations). These standards include system and aesthetic upgrades which represent sensible improvements to the existing condition. These projects improve the overall usability and reduce long-term maintenance requirements. Given the significant nature of these projects, the work typically addresses deficiencies that do not conform to current codes, but are 'grandfathered' in their existing condition to the extent feasible.</p> |

Oregon Parks and Recreation

2023-25 Agency Facility Plan

Capital Projects Advisory Board

Lori Friesen

July 2024

OPRD Agency Overview

- **OPRD mission:** To provide and protect outstanding natural, scenic, historic, and recreational sites for the enjoyment and education of future generations.
- **Business needs:**
 - provide diverse opportunities for visitors to experience the outdoors and recreation;
 - manage ecosystems to protect Oregon's natural resource;
 - preserve cultural and historical resources; and
 - creating stable future funding.
- **Facilities portfolio size:**
 - 1,103 buildings | 954K sq ft | \$305M replacement | 131,821 acres
 - DAS office space reduced from 25,738 to 12,019 sqft
- **Funding sources:** Lottery, registration fees, General Obligation Bonds and Grants

OPRD Planning Factors

- **Current/Future Demand:** upgrading infrastructure to accommodate increased number of visitors and providing more accessible recreation opportunities
- **Location:** statewide
- **Business Trends:** Visitors and everchanging technology
 - visitation rates across 393 properties
 - advanced technology of recreational vehicles and gear increasing popularity requirements and extending the visitation seasons;
 - recreation vehicle sizes increasing; and
 - visitors' changing recreation expectations.

OPRD Planning Factors cont.

- **Emergent Issues:**
 - environment and weather;
 - failing infrastructure;
 - decaying structures;
 - Challenge in hiring seasonal staff to assist with operating and maintaining facilities;
 - increase in usage and visitation numbers;
 - lack of availability of materials; and
 - inflated costs of materials and services.

Planning Factors cont.

- **Strategic Opportunities:**
 - Updating facilities based on the agency's ADA Transition Plan;
 - updating design and construction standards to improve universal access;
 - increasing awareness of underused parks;
 - investing in locations that are conducive to increasing the level of accessibility;
 - updating website information - park accessibility status and what can be expected; and
 - recruiting and starting seasonal staff earlier and keeping them longer throughout extended seasons.

OPRD 23-25 Agency Facility Plan - Capital

OPRD 23-25 Agency Facility Plan - Capital Projects Advisory Board

OPRD Facility Strategies

- Under ORS 390.121 Parks and Recreation Powers of Commission for master planning, project approvals, and spending authorities.
- Master plan concepts: Balance development feasibility with Statewide Comprehensive Outdoor Recreation Plan, Statewide Trails Plan, Historic Preservation Plan, Natural Resource Plan, 2021 ADA Transition Plan, other plans, and community input within the agency mission and strategic goals.
- Demand management: visitor & staff safety; historic, cultural, & natural preservation; maintenance backlog; visitation; and **environmental or man-made challenges.**

Facility Strategies

- Program Delivery Changes: Reorganization to balance core functions
- Policy Implementation: Policy Option Packages for historical buildings, restroom/shower replacements, and paving
- Risk/Climate Change Mitigation:
 - addressing erosion and natural disaster mitigation; and
 - the agency is developing a Climate Adaptation Plan and including climate change within new master plans.

Major Projects

- **Preservation/Expansion/Revitalization:** The supplement of General Obligation Bonds last biennium allowed OPRD the opportunity to address some major preservation, expansion, and revitalization throughout the state park system
 - historical preservation: Fort Stevens Guardhouse rehabilitation work
 - expansions: Silver Falls and Champoege
 - visitor and interpretative/collections centers: Smith Rock, Silver Falls, and Kam Wah
 - revitalization - infrastructure: Beverly Beach, Cape Lookout, Fort Stevens, Nehalem Falls, Smith Rock
- **Purpose/Need:**
 - expand overnight opportunities
 - preserve historical resources
 - replace degraded infrastructure
- **Planning Phase: 2021 - 2024**

Major Projects cont.

- **Timeline: 2023 - 2025**
- **Historic POP: 3 historic building preservation projects:**
 - 1871 Yaquina Bay Lighthouse, 1936 Otter Crest Welcome Center, & 1998 Hughes House
- **Restroom POP: 6 restroom/shower facility replacements**
- **Paving POP: paving improvements for approximately 13 parks**

Facility Condition

- The nature of OPRD facility projects focuses on the preservation of historical buildings and maintaining operational structures that are generally 1-story structures. These include shops, offices, visitor centers, cabins, staff housing, and visitor check-in booths. Other structures include bridges and culverts. These all fall under different programs with their own inspection index and are consolidated into the OPRD Major Project list.
- OPRD's Project Selection is based on four main categories: risk assessment, mission alignment, improvement value and strategic alignment, and spending limitations.

Project Plan Summary

OPRD's project selection includes:

Risks Scoring

Safety Risk/Asset Condition Assessment /Critical Failure
Laws/Regs/Policies - Violations
Impact to Visitor Numbers
Loss of Revenue Risk
Accessibility Risk

Mission Alignment Scoring

Protect Special Places
Protect Historic/Cultural Resources
Protect Natural Resource
Recreational Experience
Take the Long View

Improvement & Strategic Goals

Public Support
Reduces Backlog Maintenance
Improve Operations Issue
Provides Equity
Creates Revenue/ROI

Limitations

Agency Priority
Known Grant Source
