AGENDA

Interagency Sustainability Coordinators Network

Meeting Date: Wednesday, July 12, 2017
Time: 2:00 to 4:00 pm
Location: DAS West/Executive Building
155 Cottage Street NE
Salem Oregon 97301
Conference Room A
Parking limited on street (city metered), additional free parking across street and Cherriots transit mall is 1 block west of Exec Building.

Call in Number: 1-866-377-3315  Passcode: 9604566#

OSB Meeting & Agency Reporting Schedule 2016-17

- Friday, Jan 15, 2016 in Portland
  - Agriculture
  - Fish & Wildlife
  - Public Utilities Commission
- Thurs & Friday, April 7-8, 2016 in Newport – now includes metric information
  - Admin Services – update
  - Energy – update
  - Transportation – update
- Friday, May 13, 2016 in Salem
  - Corrections – update
  - Forestry – Part 2
  - Land Conservation & Development – update
- Thurs & Friday, Sept 15-16 in Boardman/Condon – CANCELLED
- Friday, Nov 4, 2016 in Portland
  - Consumer & Business Services
- Friday, Jan 6, 2017 in Portland
  - DAS – update
  - Lands – update
- Friday, March 3, 2017 in Salem
  - Housing & Community Services – update
  - Water Resources – update
  - Watershed Enhancement – update
- Friday, May 5, 2017 in Salem
  - Justice – update
    - Governor’s Office
    - Parks – update
  - Travel Oregon – update
- Thurs & Friday, October 5-8, 2017 in Boardman/Condon
  - No agency reports – presentations from the community
- Friday, Nov 3, 2017 in Portland
  - Business Oregon – update
  - OLCC
  - Public Utilities Commission – update
  - Secretary of State’s office – update

Notes:
# MINUTES

## Interagency Sustainability Coordinators Network

**Meeting Date:** July 12, 2017  
**Time:** 2:00 p.m. – 4:00 p.m.  
**Location:** Dept of Administrative Services  
155 Cottage Street NE  
Salem, Oregon 97301  
Conference Room “A”  

**Attendees:** Dave Wortman, Elin Shepard, Elaine Schacher, Chad Naugle, Tammy Adkins, Kevin McCarron, Kate Grover, Kathy Majcher, Jonathan Rivin, Emerson, Christie, Archana Thapa-Sherpa, Johathan Moll, Joanne Manson, Geoff Croon, Alyssa Mucken, Eleanor Sandys, Kaci Radcliffe, Katrina Kam, Chris Stewart, Leslie Kochan, Liz Redon.  
**By Phone:** Randy Hindrichsen & Emily York  
**Guest Presenters:** None

Welcome & Introductions  
Dave Wortman, the new DAS Statewide Sustainability Officer convened the group as facilitation transitioned from Elin to Dave, introductions were made of those in attendance. |

## Old Business

| State Employee survey project proposal |  
State Employee survey project proposal  
State Employee survey project framework proposal was presented at the last meeting and approved by the Oregon Sustainability Board (OSB). The goal is to survey leadership and practitioners to gauge awareness of sustainability, priorities and challenges. It will also inform Dave’s work plan relating to priorities, skills and training. Survey proposal:  
  
- Elin provided a brief history of the survey project. A subgroup of ISNC members was formed and submitted a proposal to OSB. It was determined that ISNC did not have enough guidance so Elin sought additional guidance from the Board, resulting in the project framework proposal, which OSB approved. The survey will have two phases: Phase I - To senior level managers to determine their level of awareness and support. The results of Phase I will inform the questions for phase II, which will go to a sampling of agency staff to inform awareness and support and to identify where there are gaps in information that are needed to broaden support. The timeline may need to shift slightly with the goal of completion by 12-31-2017 to inform action items in 2018. OSB’s goals are to identify gaps, find solutions to fill those gaps and provide motivation to advance sustainability in all agencies.  
- OSB Chair, John Miller, will be launching the survey to the executive leadership team with an introduction by Lauri Aunan from the Governor’s office. Survey Monkey will probably be used. Response goal is 15 to 20%. ISCN members will assist in announcing the survey within each agency.  
- DEQ is thinking about doing a survey that is agency specific, which will be shared with ISCN.  
- Dave asked members to email comments about the process within the next two weeks. He is open to ideas to make it better and suggestions on how best to phrase questions.  
- Dave plans to bring together a sub-committee to draft questions between ISCN meetings. Emily would like to be in a group that reviews the questions. All members will have a chance to review the questions by email before the survey goes out. |
- Purpose of survey: To determine knowledge of sustainability, identify perceived barriers, identify the most effective way to receive information (on-line or in-person), identify best way to get information distributed (peer to peer, website or other).
- OSB wants to know: Participation during work time, how managers view time spent by staff on sustainability activities.
- Executive leadership must understand that sustainability requires employee time and input and substantive data gathering. This requires a dedicated commitment.

**Metrics & plan updates & policy**

- Metrics & plan updates - Agencies are experiencing challenges in pulling together data when preparing sustainability reports. It is difficult to find one set of metrics that fit all agencies. Currently the core set of common metrics are energy, water, paper and fuels. There are a lot of data points also, which will be a continuing discussion. The goal is to make life easier for agencies to prepare sustainability reports by creating tools and templates; tables to plug in metrics; creating a guide for assumptions, guidance on what to include and not include, common metrics, and data management.
- OSB is looking for ways to look at agency progress. Anecdotal stories are okay but now they need data. They need to see the numbers. There is concern that the numbers be meaningful, measurable and sustainable.
- Employment is collecting data now regarding fuel use, paper use, energy use, water use, green chemistry and office supplies.
- Water Resources is still working on collecting data on water and is looking into collecting data in a broader way.
- DAS has data on water use if the building is metered. It is not available on the website at this time.
- The Department of Energy is a source of information. They share energy reports. Each agency reports to E-manager. No data is available for private facilities.
- Emily shared that competitions between tenants within buildings or between floors is an effective strategy to reduce usage. In one month, usage was reduced between $4,000 to $5,000 in the Portland State Office building.
- Reporting to a single dataset was suggested so agencies do not have to scramble to find data. Better metrics and better datasets are needed, which are agency specific.
- Core metrics to be determined (agency specific).
- A member suggested that a separate sub-committee be formed to study and compile a report for OSB informing the board what is working and what is missing by looking at each agency’s behaviors, operations and mission.

**Action:** Dave will report back on the cost of installing meters for each tenant in multi-tenant buildings.

**EO and legislative updates**

- A new Executive Order is in the works to look at state government building efficiency in Oregon. Goal is to have standards to operate in order to work toward high performance buildings.
- Working group is developing a new baseline for individual building targets per national standards.
- Water use is a challenge to report. The 2015 Executive Order required measurements, tracking and reducing. However, a water database was already in place that held water diversion intake and ground water wells and it was framed differently so the reporting structure was different. Diana Enright at Water Resources Dept. is working with facility managers to get to a common baseline.
- A list of the sustainability bills tracked by DAS was distributed showing which bills passed both chambers, pending Governor’s signature. DEQ is required to do a solid waste management study. Part o’ the Volkswagen settlement money will be used in a Clean Fuels program, ODOT will be distributing a rebate for electric vehicles and there is a working group in the Governor’s office working electric vehicles infrastructure. Woody biomass was added to the types of energy generating technology that is considered green energy that must be set aside in the contract price when constructing or renovating public buildings.
### New Business

**Employee training opportunity**
- Dave requested input on training needs and possible delivery methods. Executive Order 17-08 requires DAS to develop a policy for statewide core trainings. Dave will be proposing a sustainability training to the Executive Team. Training will be implemented in 2018. Sustainability is a piece of the puzzle. It needs to be its own module so that sustainability becomes integrated into the culture.
- Elin developed a two-module training in iLearn in 2009 but Dave was unable to open or access it.
- Members suggested that the training address such things as:
  - Workspace plug loads and power strips
  - Lighting
  - Fleet vehicle use
  - Practical day-to-day things like turning off computer screens every night
  - What is sustainability, the big picture.
- Survey may inform training needed and metrics guidance.
- Dave suggested a program where he trains the Trainer who teaches peers (Green Teams).
- Dave will explore engagement points with Master Recycler program and All Staff meetings.

**ISCN purpose statement / GHAGs?**
- Dave asked the group if ISCN would benefit from longer term shared goals or initiatives. The response was yes and while each agency has a different mission, the state shares certain common goals and it is important that there be a consistent, aligned approach.
- ISCN will meet every two months. Between meetings Dave will create a place to post files and have discussions through a web interface / interactive list serve (Base camp) where case studies may be shared and what agencies are doing and include topics that cater to small agencies that occupy leased office space.

### Round Table

- Agencies are doing good things but those things cannot be quantified right now.
- There is demand to know how Oregon is doing statewide. A statewide online sustainability performance dashboard was suggested.
- A central resource for training would be helpful. Dave agreed to be the central resource.
- Elin would like to see an Executive Order for ISCN to raise the profile of sustainability coordinators so that they advise on legislation and policy.

### Wrap-up, summarize action items, and adjourn

- Priorities for Dave moving forward
  - Resource Conservation policy update.
  - Green building policy.
  - DAS Sustainable Behavior Education campaign development to begin 2018 - High level cohesive messages.
  - Develop common initiative for strategic priorities for the year such as transportation, energy efficiency, water use, etc.

Meeting Adjourned

### Next Meeting:

**Date:** September 13, 2017  
**Time:** 2:00 to 4:00 p.m.  
**Location:** Department of Administrative Services

Welcome and Introductions
Old Business: Sustainability Survey

- Project of the OSB
  - Goal: confirm and assess awareness of sustainability activity, identify gaps for action
  - Short and sweet
  - Two-phase approach
    - Phase 1: Agency leads and exec staff, gauge support for sustainability
    - Phase 2: Employees Level 34 and below, assess awareness and enthusiasm
  - October launch, results by end of year
Sustainability Survey

- General feedback on structure, timing?

- Specific feedback on key questions to ask?
Metrics and Plan Updates

- Latest plan updates to OSB
- Status of metrics discussion
- Feedback from group
  - Challenges with reporting on metrics?
  - Suggestions moving forward?
Exec. Order and Legislative Updates

- Major new sustainability-related legislation
- New and pending Executive Orders
Staff Training Opportunity

- Driven by Exec. Order 17-08
  - DAS directed to develop policy identifying statewide training program
  - CHRO to describe suite of core required trainings
- Opportunity to create sustainability-related module(s)
- Questions: Desired subject matter? Format? Delivery?
ISCN Purpose/BHAGs

- Would group benefit from a big uniting goal? Initiative? Project?
  - If so, what are some ideas?
Wrap Up and Next Steps

- Summarize action items
- Next meeting: September 12, 2-4pm, here
- Minutes distributed

Thank you!

Dave Wortman, david.wortman@Oregon.gov
Sustainability Survey Proposal
Developed by Roje Gootee & Elin Shepard
4/10/17

Survey goal: confirm and assess awareness of sustainability activity in agencies and identify gaps where the Board could help. In addition, the results of the survey could be consolidated and action items implemented by the new Statewide Sustainability Officer.

Survey structure & timing: we recommend that the survey be mostly multiple choice, and true and false, but also offer the ability to write in comments. The survey should be no more than 10 questions total. It would be administered in two parts:
1. The first survey would go to agency heads and high level executive staff. We would work with DAS to randomly-select 50% of staff, level 35 and above. This survey would launch in September after summer vacations have ended and stay open for two weeks. The survey would include higher-level questions about support for sustainability activities in offices and agencies, such as allowing agencies to conduct green team business during work hours.
2. The second survey would go to 10% of randomly-selected state employees, level 34 and below. This survey would have a few standard questions, but also build off the results of the manager’s survey. It would have a dual purpose: 1. To assess the awareness of and the level of enthusiasm for sustainability practices among employees within the agency, and 2: to assess whether the executive-level vision described in the results of Survey 1 is consistent with what is actually happening on the ground. It would launch in mid to late October and stay open for two weeks. The goal would be to have all survey results pulled together and analyzed by the end of the year.

Survey next steps:
- May 5: obtain approval for survey concept at OSB meeting.
- May 10: bring concept to the ISCN and begin to solicit question ideas
- June 1: begin to work with DAS on how to identify survey recipients
- July 7: have list of recipients for both surveys identified and begin to develop survey in Survey Monkey. Hopefully, DAS position on board to start helping at this point.
- Aug 14: send draft of Survey 1 to OSB for approval by Sept 1
- Sept 18: send out Survey 1
- Oct 2: end survey – consolidate results for discussion at OSB meeting; finalize drafting Survey 2
- Oct 9: send Survey 2 to OSB for approval by Oct 20
- Oct 30: send out Survey 2
- Nov 13: end survey – consolidate results and send to OSB by Nov 30
- Nov 30-Dec 31: develop action items

EXECUTIVE ORDER 17-08

STRENGTHENING PUBLIC EMPLOYEE BARGAINING AND TRAINING PRACTICES

WHEREAS, the State of Oregon must spend public resources responsibly, and must maximize the value received from every dollar it spends;

WHEREAS, the costs of recruiting and retaining the best possible state employees must be considered in the light of both the limitations of available public resources, and the benefits such high quality employees provide with respect to higher quality, more cost-effective, and more efficient delivery of services to Oregonians;

WHEREAS, each biennium the Oregon Legislature appropriates an amount of money available for the purpose of increasing state employee compensation, generally referred to as the “Salary Pot”;

WHEREAS, the Executive Branch engages in formal bargaining with many state employees regarding compensation;

WHEREAS, the State of Oregon is and should remain a market employer, capable of attracting and retaining top-tier employee talent to work for the public good;

WHEREAS, obtaining current information about comparable employers allows the State of Oregon to continue to be a market employer, safeguarding public dollars while providing competitive compensation; and

WHEREAS, it is in the public interest that the State provide training to new state employees to maximize their effectiveness and efficiency;

NOW THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

I. Definitions. For purposes of this Executive Order, the following definitions shall apply:

A. “Salary Pot” shall mean the sums (if any) appropriated by the Oregon State Legislature on a biannual basis for purposes of increasing state employee compensation.

B. “Bargaining” shall mean any negotiation between the State of Oregon (through the Department of Administrative Services [DAS])
on the one hand, and a bloc of state employees (generally, between one or more public employee labor unions), on the other hand, relating to the effort to reach an agreed-to contract covering public employee compensation.

C. “Executive Branch” shall mean the Executive Department as defined in ORS 174.112, except that it shall not include the offices of the Oregon Secretary of State, Oregon State Treasury, Oregon Department of Justice.

D. “State employee” shall mean any employee of the State of Oregon.

E. “Market Employer” shall mean an employer whose employees earn, on average, between 95-105% the compensation earned by similarly situated employees in comparable markets.

F. “Step Increase” shall mean a salary increase from one salary step to another within a state employee’s compensation range.

II. **Market Study.** DAS shall, on a biennial basis, conduct a market study of Executive Branch employee compensation.

A. This market study shall be completed by December 31 of the even-numbered year in every biennium.

B. DAS shall, before commencing the 2018 market study, evaluate the comparable markets to be used in the study to ensure that they include the employers the state most commonly competes with for the recruitment and retention of employees across classifications.

C. The State (through DAS) shall employ the data included in the market study in determining its position in bargaining.

D. In utilizing the market study in bargaining, the State shall seek to remain or regain its status as a market employer.
III. Bargaining Within Salary Pot.

A. When engaged in bargaining, DAS shall treat the Salary Pot as the source of General Fund funding, for the purposes of any bargained-for contract, for: (1) state employee cost of living adjustments ("COLAs"); (2) regular “step” increases in salary for Executive Branch employees; and (3) increases in state employee health care coverage costs.

B. If, in the opinion of the Chief Operating Officer, the legislatively determined Salary Pot is insufficient for the State to be a market employer for the coming biennium, DAS shall as soon as practicable send a letter explaining this circumstance to the Governor’s Office, with copies sent to the President of the Oregon Senate and the Speaker of the Oregon House of Representatives. DAS’ letter shall identify the amount of money DAS believes would be required to permit Oregon to maintain or regain its status as a market employer.

IV. State Employee Training. DAS, in collaboration with Executive Branch agencies, shall develop and implement a policy (the “DAS Policy”) that identifies a statewide employee training program.

A. All permanent Executive Branch employees hired on or after the effective date of the DAS Policy shall participate in the training program within one year of the completion of their trial service.

B. The DAS Policy shall describe a suite of required trainings which include a core set of skills trainings common to all employees.

C. The DAS Policy shall describe a series of additional trainings required for specific employees, as determined in consultation with the relevant Executive Branch agencies.

D. All trainings provided subject to the DAS Policy shall be presented by qualified experts. Such experts may be state employees or outside vendors engaged for the purpose of providing training. The DAS Policy may distinguish between trainings that must be attended...
EXECUTIVE ORDER NO. 17-08
PAGE FOUR

in person, and those that may be taken through remote learning, online, or other alternative platforms.

E. DAS shall consult in good faith with labor unions representing state workers around the content and format of employee trainings, as appropriate.

F. DAS may exempt from this training requirement those employees for whom DAS concludes training is not an appropriate use of public resources, due to previous training or experience, current job duties, or for other reasons.

V. This Executive Order will remain in effect unless and until it is superseded by a subsequent Executive Order or source of law.

Done at Salem, Oregon this 27th day of April, 2017.

Kate Brown
GOVERNOR

ATTEST:

Dennis Richardson
SECRETARY OF STATE
