A SFMS Desk Manual

R*STARS: PROF.5
Revised: 1/10/13

ESTABLISHING STATE EMPLOYEE VENDOR PROFILES WITH SPECIFIC PDT'S

The PAYMENT DISTRIBUTION TYPE (PDT) identifies how R*STARS will combine transactions on warrants and direct deposit payments, e.g., across documents, appropriated funds, or by batch agencies. "MA", "RA" and "DA" are the most cost effective PDT values available because they reduce the number of warrants and direct deposit payments produced by combining payment transactions. PDT values that begin with an "M" will cause the warrant to be mailed directly to the vendor. PDT values beginning with an "R" will cause the warrant to be returned to SFMS for distribution. PDT values that begin with a "D" will cause the payment to be directly deposited to the payee's bank account. PDT values may be viewed by agencies by accessing the PAYMENT DISTRIBUTION TYPE PROFILE (D50) screen. Additional information also may be found in the System Management Guide, Chapter 5, "Payment Processing".

SFMS policy requires all new vendor profiles, with the exception of state employees, to be activated with a "MA" value in the PDT field on the SYSTEMWIDE VENDOR PROFILE (52) and VENDOR MAIL CODE PROFILE (51) screens. If an agency enters a different PDT, SFMS Vendor Maintenance staff will correct the value to "MA" before activating the vendor record.

State employees can be established with either a PDT of 'MA' or 'RA'. Additionally, agencies can override the default setting by entering a different PDT, e.g., "M" or "R", on the BATCH HEADER ENTRY (500) screen or on one of the transaction entry screens.

If a state employee requests direct deposit payments, the PDT value on the 52 screen will be changed centrally to 'DA' and all other existing mail codes for the employee will be inactivated. The intent is for agencies to leave the PDT on the batch header blank for batches of payments to state employees. Agencies won't need to determine which mail code to use for employees since mail code "000" will allow all three types of payment distribution types. Agencies are requested to provide guidance on the inactivation of existing mail codes when requesting changes to employees that are currently on the 52 Statewide Vendor Profile.

Agencies may use either the default value "MA" or enter "RA" in the PDT (PAYMENT DISTRIBUTION TYPE) field when submitting new state employee vendor records for activation on the 52 screen. Agencies may also request changes to the PDT indicator for employees currently established on the 52 profile.
