INTRODUCTION TO OSPA SECURITY

REGULATIONS AND POLICIES

State rules and regulations, statewide and agency policy govern access to state financial systems including the Oregon State Payroll Application. Resources include:

- State of Oregon Rules and Regulations
  - Oregon Revised Statutes
    - ORS 291.015
    - ORS 293.595
  - Statewide IT Policy
    - Statewide IT Policy 107-004-050
    - Statewide IT Policy 107-004-052

SECURITY FORMS

There are two forms to request access to DAS’ payroll systems.

For access to the Oregon State Payroll Application (OSPA): http://www.oregon.gov/das/Financial/Acctng/Pages/Syst-security.aspx

Other State Systems

To request payroll administration access to PEBB.Benefits, someone with PEBB.Benefits admin access can log in and retrieve the form from the PdB admin site or you can email PDB.Administration@oregon.gov for a copy of the form.

For access to the state’s personnel system, security is assigned to the position. If you need security assistance please contact your agency security administrator for Workday.

Individual Screen Requests

Access to individual screens may be made by emailing the OSPS Helpdesk at OSPS.Help@oregon.gov. Access to the P009 screen to scrub pin numbers is made this way.
SECURITY PROFILES

Security profiles provide access to specific OSPA screens based on the job type. Security may be set up for a specified agency, agency group or agency all. Please note that agency all access is limited to Statewide Payroll Systems Support staff and other centralized functions such as Workday, PEBB and OSGP. To request the creation of a new security profile, please contact the OSPS Helpdesk.

AGENCY GROUPS

Agency groups are used in cases where a payroll office supports payroll functions for 2 or more separate agencies. The Security Officer can now submit one request for the group.
