What will we talk about

Transformational Leadership Program (TLP)

This multi-month program helps individuals become more self-aware, build stronger relationships, and lead with purpose and vision. The 2027 program is a competitive application process that will be for non-supervisory employees who want to grow their leadership skill. The application window opens September 1, 2026, at 8 a.m. and closes September 30, 2026, at noon.

Promise of Leadership (POL)

This workshop is a strong choice for everyone, at any level. It helps participants understand their leadership strengths and learn how to be more effective. The workshop uses the Leadership Circle 360 Profile, a tool that gives clear and useful feedback to support both professional and personal growth.

Outward Performance (OP)

This workshop teaches participants to use an outward mindset that focuses on understanding and supporting others. By learning to see challenges and relationships in a new way, people can work better with their teams and reduce conflicts. These mindset shifts make communication easier, builds trust, and helps improve organizations over time.

Leader to Leader (L2L)

This workshop is for employees in management services and supervisory roles. It gives leaders practical tools to grow using peer coaching and working through real challenges they face in their jobs. Participants learn to communicate more effectively, build trust, and strengthen their leadership skills. By learning with other leaders, they gain useful ideas they can put into practice right away.
