

OVERVIEW: This program covers critical foundational skills for managers that can be applied immediately in the workplace. This is an instructor-led training program and some of the cohorts are offered virtually, and others are in-person in Salem. During the break between each session, the participants are required to work on homework that applies the skills they learned previously.

TARGET AUDIENCE: Team leads, new managers, or experienced managers needing a refresher.

This training is required for new managers. Managers will need to enroll into the waitlist for one of the cohorts within five calendar days of their position start date. We will move all managers from the waitlist into the cohort weekly or 45 days before the first session to ensure all managers have priority over those who aren't currently managing employees. If there is capacity in the cohort, we will enroll non-managers from the waitlist.

For new managers as of April 1, 2024, you will be required to complete the Foundational Training program within 4 months of the hire date. If you are required to make up a session due to an absence in your original cohort, you must also complete the make-up session within 4 months of your hire date.

LENGTH: The in-person cohorts are a total of eight days of in-class time. The virtual cohorts consist of nine half day sessions. Participants will attend 1 session per week.
