

You can help a

Military Family

with donated leave

How you can help.

You can help families just like yours through the military donated-leave program. By donating leave, you can make a difference to the spouse and children of a fellow state employee, without an out-of-pocket expense.

How it works.

State employees may donate leave which converts to a cash fund for state employees who deploy to active military duty. Employees may donate unlimited hourly increments of accrued leave as a lump sum or on a monthly basis. "Leave" includes vacation hours or comp-time hours only.

State employees whose military salary is less than their salary as a state employee may apply for the difference. The program pays the cash to qualified employees on active military duty.
