

# Department of Administrative Services

Workday Wednesday – 09/18/2024

# Agenda

- 01** Release Updates
- 02** Payroll Updates
- 03** Leave Payout Process Testing
- 04** General Information & Reminders

# Release Updates

# Workday 24R2 Update

## Machine Learning (ML) & Accessibility

- What is Machine Learning?
  - Throughout Workday configuration ML is available to setup in nearly all functional areas with the goal of providing smart recommendations, predictive forecasting, and identifying anomalies.
  - It can take weeks to years of collecting data for some features to begin recommending/predicting.
  - ML does NOT:
    - Act independently, over time Workday takes into consideration past actions, frequently utilized tasks and next steps, other workers with work history/skills, and the global database of other Workday Customers.
    - Depend on or utilize Personal Identifiable Information (PII)

### What does this mean for you?

- Since is geared toward flagging anomalies and anticipating next steps/options, there won't be any changes in most user experiences.
- The central Workday team will monitor for and share any significant changes related to any ML updates.

# Workday 24R2 Update

## Machine Learning (ML) & Accessibility

- **Accessibility updates** have been made to buttons and some error pop ups

The image displays a comparison of the Workday 24R2 update for accessibility, specifically focusing on the "RLM | CAB Monthly Release Item Details" interface. The comparison is split into two panels: "NEW" (left) and "Current" (right).

**NEW Panel (Left):** Shows the interface with a green header bar. A red arrow labeled "NEW" points to the "Release Item" button in the context menu for item 107. The table lists 133 items.

**Current Panel (Right):** Shows the interface with a red header bar. A yellow arrow labeled "Current" points to the "Release Item" button in the context menu for item 107. The table lists 129 items.

**Form Comparison (Bottom Right):** A side-by-side comparison of the form fields and buttons. The "NEW" version (left) has a red "NEW" arrow pointing to the "OK" button. The "Current" version (right) has a yellow "Current" arrow pointing to the "OK" button. The "Current" version also shows error messages: "Error: The field State is required" and "Error: The field Case# & Title is required".

Number	Title	Status
107	Research: ACA - Measure Period Report	On Roadman
112	Create Retro earning Regular wages, allow overtime and difference do not impact FLSA calculations	

Number	Title	Status
107	Research: ACA - Measure Period Report	On Roadman
112	Create Retro earning Regular wages, allow overtime and difference do not impact FLSA calculations	

**Form Fields:**

- Description
- Business Case
- Scope of change
- Impact Narrative
- Functional Area
- Cross Function
- Source
- Case# & Title
- For information about Implementation Path
- Implementation Path
- Description
- Functional Area

**Buttons:** OK, Cancel

# Workday 24R2 Update

## Compensation

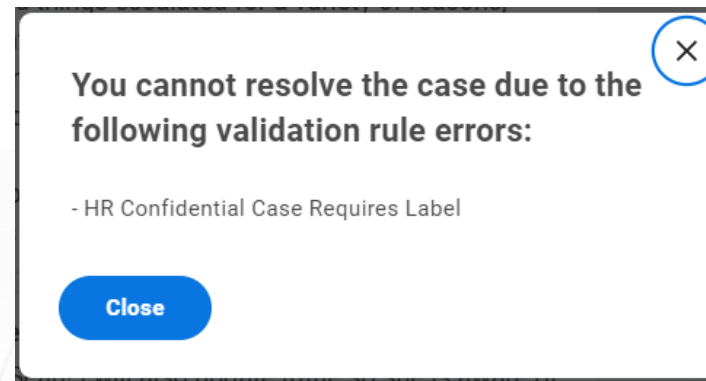

- Compensation
  - Will allow Effective Dating on Compensation Grade Profiles on Job Profiles.
  - Inactivating Compensation Steps
    - This will be scheduled into a future release for the initial review and to learn any potential downstream impact.
    - Once the initial review is complete it will take several weeks inactive the appropriate steps.

# Workday 24R2 Update

## Help Updates

- Articles
  - Help Article Editor User Interface – This includes additional formatting options.
- Help Cases
  - Case Notification Configuration Changes
    - If you would like any changes to the default settings (shown on the next slides), please create a Workday General Help case, Attention Jeff, by 9/20 (end of day)
  - Case Validations
    - Will adopt in a future release in coordination with CHRO. Example, HR Confidential Cases must have a label to be closed.

# Workday 24R2 Update

# Workday 24R2 Update

## Learning & Extended Enterprise Updates

- Branding for Learning
  - This will allow learners to know when they are in OR1 and not Production.
- Enforce Lesson Sequence in a Course
  - Easier to require learning be completed in a specific order within a course and have create extra content.
- Learning Assignments Visible on Learning Content
  - This update will allow those that manage training and learning assignments to quickly navigate between the different pieces of information needed to manage their training programs.
- Program Completion Logic
  - Making the completions work in the logical way most people expect.

# Workday 24R2 Update

## Payroll & Time Tracking

- One item that will be automatically available is an Add Payroll Input button on the Payroll Results screen
  - A new button on the payroll results screen provides access to a new, simplified task to add payroll input, saving you time, effort and reduces the likelihood of errors.
- Due to our high-volume configuration for Time Tracking, many new and updated features are not available for us to adopt.
- Several items are geared toward increasing efficiency with running calculations and additional tools for the administrative team.
- The Payroll | Time Tracking team reviewed all the release items and decided that of the items that they would be interested in adopting, everything is a 'nice to have' but does not rise above the priority of existing state release items. When ready, the enhancements from this release will be scheduled into future releases.

# Payroll Updates

# Payroll Processing Day Reminder

## **September Run 1 will process Sept. 25, 2024**

- Reminder that Payroll should not be making any entries on payroll processing days (both run 1 and run 2).
- This includes making any entries that may impact pay results:
  - For example: Pay Input, Timesheet or Time Off Changes should not be made on payroll processing days
- Centrally we cannot run calculations or create or reverse payments
- If you have an urgent need, please reach out to us
  - Depending on where we are in the process we may be able to assist
- Payroll Processing Date Reminder:
  - Sep. 20 – 5 pm Deadline for entering BT to prevent PEBB accruals for Sep from going into arrears
  - Sep. 24 – 5pm Cutoff to submit and approve for Sep. Run 1
  - Sep 25 - Run 1 payroll processing all day
  - Sep 25 and 26 – No daily Check processing

# Payroll Reminder

## When employees enter time worked on a holiday

- The time entry will default to a worktag that says:
  - **"Hours Worked - Receive Cash/Comp Time: Receive Cash"**
- This worktag is needed to pay the employee for the time worked on a holiday at 1.5 rate
- If the worktag is removed either by the employee or timekeeper, it will not pay the employee for the hours worked on a holiday
- To correct, enter the worktag on the time entry

# Payroll Reminder

## **Changing Employee Payment Elections**

- Employee payment elections should not be changed before they receive their final check. Changing an employee's payment election will notify the employee that their payment election has been changed.

## **Leave of Absence Changes**

- All Employee leave of absence changes need go to agency HR staff.
  - Absence Partners can perform this task in Workday
- OSPS cannot make entries or changes to any leave of absences.

# Payroll Reminder

**Please include the following in cases where a system change is being requested:**

- What the issue or change is
- The detailed name of the Collective Bargaining Unit
- Attach a copy of the CBA Contract language if possible
- This information will help us to make the best use of our time in researching the issue and getting an answer back to you timely

**Please open a case for all new deduction recipients (for wage withholding orders):**

- If a new recipient is needed for a garnishment, please include a copy of the writ in the case
- Agencies should not create a new deduction recipient even though the option is available

**Please remember for all cases to include the employee's name, OR number and details on what is needed within the help case.**

# Leave Payout Process Testing

# Leave Payout Process Testing

- Asking HR Partners to help coordinate agency testers.
  - Need 10-15 agencies to participate in testing.
  - Roles needed for each agency participating:
    - Employee(s)
    - Participating Employee(s) Supervisor
    - Payroll Partner
- Testing Kick-off meeting 9/24, 11-noon.
  - The Agency HR Partner helping to coordinate will need to attend.
  - Not all testers need to participate but are encouraged to attend.
- Testing the week of 9/30-10/4.
  - Testing should be 1-3 hours per participant for the week.
- **To participate in testing, HR Partners send in a help case with names and OR#'s of employees that will be involved in testing by the end of day 9/20/24.**

# General Information & Reminders

# General Information & Reminders

- Next Data Quality Series coming in October.
- Oregon1 is being refreshed this weekend.
- Oregon1 may need to be held and not refreshed on **Oct 5** (more info to come).
- For those who can't attend, please make sure your teams (HR, payroll, budget, etc.) know where to find the Workday Wednesday meeting notes.
- Reminder – Onboarding agency policy review – updates & changes or new agencies to be added to process: Will be effective 1/1/2025.

# Thank you for attending!

Please submit a help case in  
Workday if you have any  
questions about the  
information provided today
