

NEW STATEWIDE
ePROCUREMENT SYSTEM
COMING SOON

OregonBuys

Oregon is getting a new web-based eProcurement processing system called OregonBuys. This powerful tool will replace the Oregon Procurement Information Network (ORPIN) and will be the statewide eProcurement solution for all state agencies.

INFORMATION FOR ORCPPs

FEATURES

OregonBuys features end-to-end automated processes from request through payment, including:

- Solicitations
- Digital bid submissions
- Online evaluations

The best part? No more manual steps and a modern online marketplace shopping experience.

TIMELINE & APPROACH

Early planning is now underway and our goal is to replace ORPIN in early 2020. ORPIN's historical information will remain available after the transition.

Your current ORPIN account will remain active until the full system conversion takes place. And, we don't expect any changes to ORCPP membership fees at this time.

We'll share a project update in mid-summer of 2019 and will contact you with actions you need to take.

EARLY ADOPTERS

Two state agencies, Secretary of State and Department of Forestry, have already adopted the OregonBuys system. All other remaining state agencies will transition at a later time. If you do business with Secretary of State or Department of Forestry, they may contact you to ask you to set up an OregonBuys vendor account so that you can receive purchase orders from their agency.
