OREGONBUYS

INTRODUCTION - PHASE 1 ORPIN REPLACEMENT

FOR LARGE, MEDIUM AND SOME SMALL-SIZED AGENCIES

AGENDA

- OregonBuys overview
- One project with two phases
- Phase 1 – ORPIN replacement
- What will change?
- What's out of scope?

WHAT IS OREGONBUYS?

OregonBuys is a procure-to-pay eProcurement solution that automates the procurement processes using web-based applications.

It is a technology-enabled solution that allows the state to procure goods and services at the best value.

OregonBuys
One unified system – modernizing state procurement

OREGONBUYS PROJECT OBJECTIVES

1. All state agencies adopt OregonBuys as the state's eProcurement system.

2. Standardize and automate procure-to-pay process and provide more transparency and reporting capabilities on statewide spend.

3. Enable development of strategic sourcing plans which will allow the state to identify strategic sourcing opportunities to optimize spend.

4. Increased competition for state contracts resulting in better contract terms.

5. Decommission ORPIN and other procurement-related shadow systems across agencies.

ALIGNMENT WITH STRATEGIC PRIORITIES
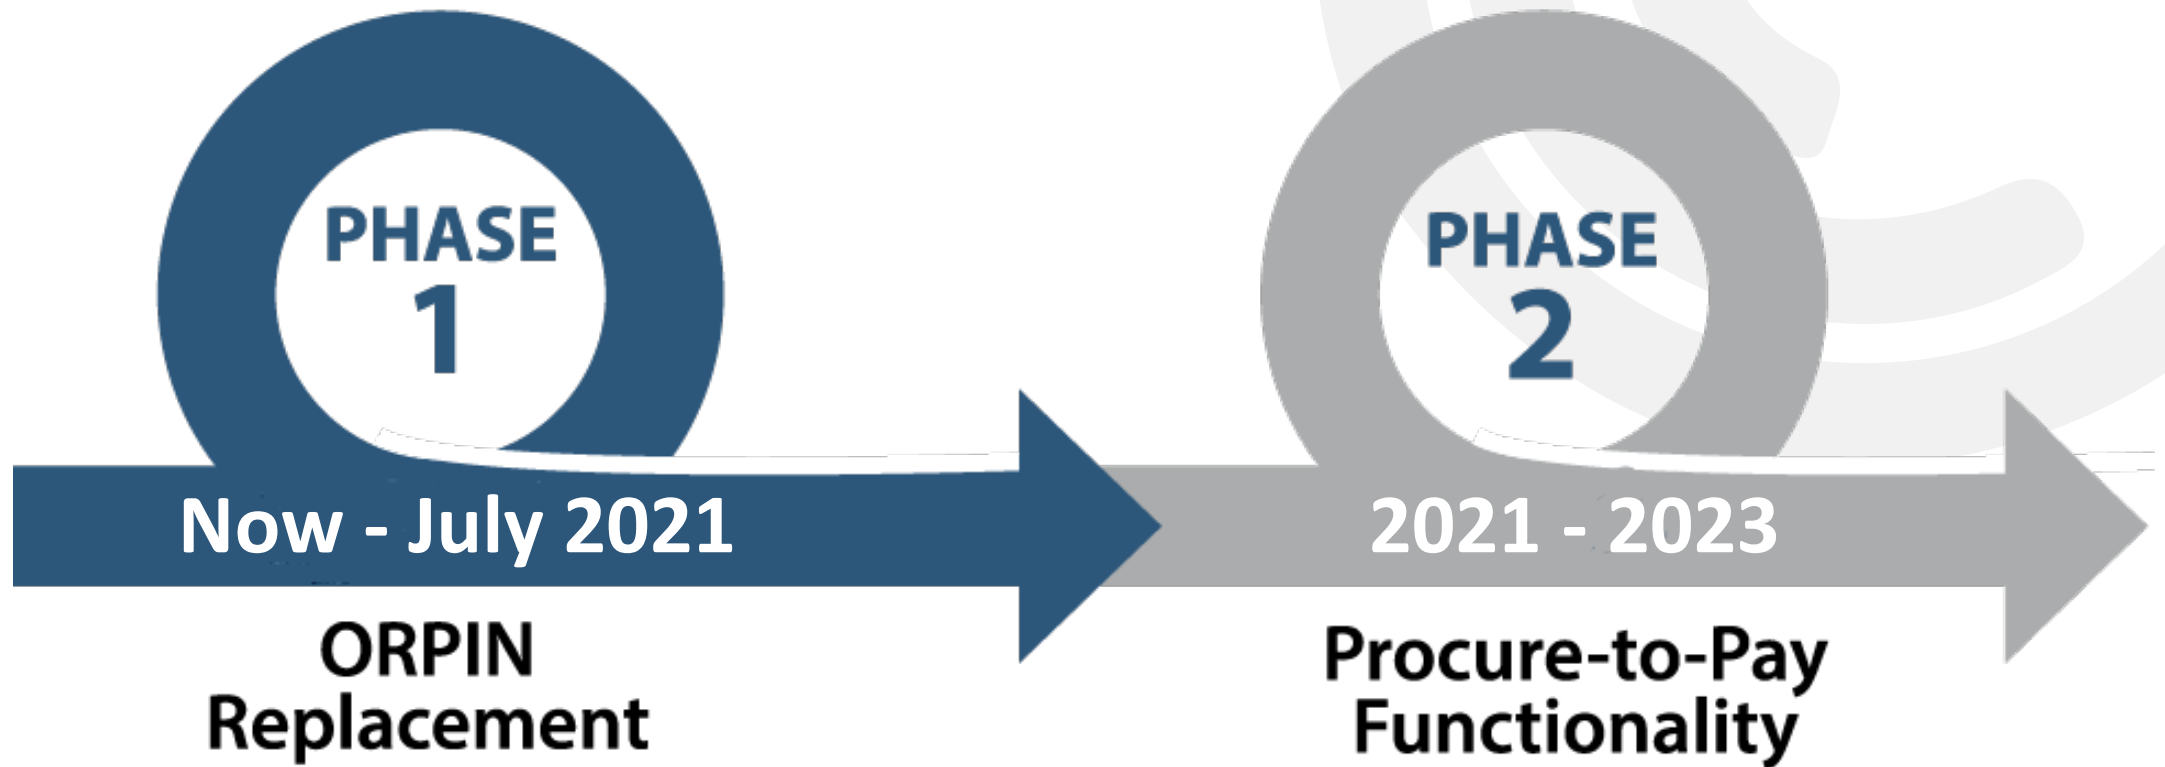

OPTIMIZE STATE RESOURCES

- One enterprise system tracks & manages agency purchases
- Standardizes procurement processes across all agencies
- Automates manual processes so staff can focus on strategic work
- Enterprise-wide data collection helps agencies identify trends and make informed decisions

ONE PROJECT – TWO PHASES

PHASE 1

Now - July 2021

ORPIN Replacement

- OregonBuys replaces ORPIN.
- All agencies transition at the same time.
- ORPIN switches to "read only" mode.

PHASE 2

2021 - 2023

Procure-to-Pay Functionality

- Additional procure-to-pay functionality rolls out to agencies in 3 "waves" that last eight months each.
- Functionality includes: requisitions, issuing purchase orders, invoicing and receiving.
- Agencies will self enroll in the wave that best fits their needs.
