# Working together

The OregonBuys project team is collaborating with workgroups at each of the large and medium-sized state agencies. These groups are known as agency core teams.

Your agency's core team is helping make decisions about how your agency will use OregonBuys to:

- Initiate requisitions,
- Issue purchase orders,
- Receive goods and services,
- Receive and enter invoices,
- Set up system user roles and approval paths.

Core team members will also get trained as super users who can share knowledge with other OregonBuys users at your agency.

Agency Core Team (×6) surrounding **OREGONBUYS PROJECT TEAM**

THE OREGONBUYS PROJECT TEAM PROVIDES TECHNICAL AND CHANGE MANAGEMENT SUPPORT TO THE AGENCY CORE TEAMS.

## OregonBuys: One unified system — modernizing state procurement

# Why do we need OregonBuys?

- One enterprise system tracks & manages agency purchases.
- Standardizes procurement processes across all agencies.
- Automates manual processes so staff can focus on strategic work.
- Enterprise-wide data collection helps agencies identify trends and make informed decisions.
