

GET TO KNOW OREGONBUYS

Why do we need OregonBuys?

- One enterprise system tracks & manages agency purchases.
- Standardizes procurement processes across all agencies.
- Automates manual processes so staff can focus on strategic work.
- Enterprise-wide data collections helps agencies identify trends and make informed decisions.

OregonBuys project goals

1. State agencies adopt and use OregonBuys.
2. Procurement-related spend data is captured and reported on through OregonBuys.
3. Strategic sourcing plans are in place for how the state will identify strategic sourcing opportunities to optimize state spend.
4. Prompt payment of invoices results in increased discounts for the state.
5. Increased competition for state contracts results in better contract terms and potential cost savings.

System benefits you can look forward to:

AUTOMATION OF MANUAL PROCESSES

Requisitions can be converted to other document types as they progress from approvals and through to purchasing and invoicing

SHOPPING CART PURCHASES IN MARKETPLACE

Goods or services on statewide contract can be placed in the cart and then purchased by converting the item into a requisition

EASY ELECTRONIC APPROVALS

No more lost documents — approvals happen through the system which is available 24/7 from any browser enabled device

VENDOR INTERACTIONS THROUGH THE SYSTEM

Send purchase orders through the system to the vendor — the vendor can then flip the purchase order into an invoice and send back
