The IP35 desk phone has a lot of features. While we'll cover many of the more advanced topics individually, here are a few things that you can apply to everyday use.

We'll look at how to navigate menus and the volume options.

First, we'll navigate a menu. In this scenario, we'll look at the call log.

Press the MESSAGES key to bring up the Messages menu.

From here, press the DOWN ARROW.

Press OK on Call Log.
Navigate the options using the UP and DOWN ARROWS.

Select one by pressing the OK key.

To go back one menu, press the BACK key.

Press VOLUME UP to increase the volume of the ringer or press VOLUME DOWN to decrease it.

To mute the ringer, press and hold the * key for about 2 seconds.
This icon will appear letting you know that the ringer is off.

The VOLUME UP and VOLUME DOWN keys also control the call audio volume. When in a call, press the VOLUME UP key to increase audio volume and the VOLUME DOWN key to decrease it.
