

## Planning for Drought Resiliency

These drought and water conservation posters are one way state agencies, boards and commissions are implementing Governor Kate Brown’s Executive Order on planning for drought resiliency.

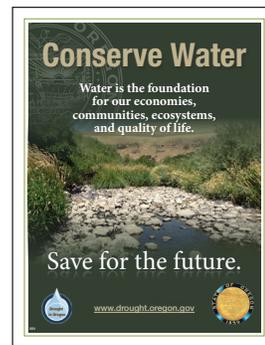

All posters are 8.5 x 11 inches. Please select from the poster set, which includes all six, or individual posters. You can choose from 80# cover stock or a self-adhesive removable vinyl, that requires no tape, for windows and/or walls.

**To order please fill out the form below.**

Name	Phone	Agency Number	Date
