

# AMENDMENT NO. 2, ATTACHMENT 1

## REVISED EXHIBIT A - MENU OF SERVICES

### SECTION 1: INTRODUCTION

Contractor shall provide the BOLDplanning.com platform Hosted Continuity of Operations Planning (COOP) System (“COOP Solution”) to Authorized Purchasers who enter into a COOP Solution WOC with Contractor pursuant to this Master Agreement.

Authorized Purchasers who have access to the COOP Solution have the option to purchase additional Services listed in Section 3.

### SECTION 2: COOP SOLUTION

The COOP Solution shall provide a consistent on-line environment for Authorized Purchasers to conduct COOP planning for their programs including, but not limited to, a nationally-standard planning framework, a database that allows identification of shared resources and User access restricted by agency and function.

Contractor shall provide a Participating Program Enterprise License to the State of Oregon, Military Department, Office of Emergency Management (“OEM”) for the Participating Programs listed on Table A. The Participating Program Enterprise License includes the following: (a) an unlimited, transferable, non-exclusive right to access and to use the COOP Solution as set forth in Section 6.1 of the Master Agreement for all entities listed on Table A; (b) 6 Full day Statewide Training sessions or 12 half day Statewide Training sessions as mutually agreed in a Work Order Contract between Contractor and OEM; and (c) 46 State of Oregon Agency COOP Plan Reviews.

In addition and more specifically, but without limiting the generality of the preceding, the COOP Solution must include the following elements, at a minimum:

#### 2.1 Features and Functions

Feature	Description
<b>Accessibility</b>	The Cloud-based Software-as-a-Service (SaaS) will be accessible by all authorized users from any internet computer with a standard browser.
<b>Announcements and Reminders</b>	Delivered to users and planners via email. These can be pre-set and automatically sent or sent on an ad hoc basis by participating staff.
<b>Browser-enabled</b>	Compatible with the latest versions of Apple Safari, Google Chrome, Microsoft Internet Explorer, and Mozilla Firefox
<b>Calendar</b>	Ability to schedule and reschedule calendar events with related email reminders.
<b>Files Archive</b>	Ability to upload, store and manage electronic files related to the COOP plan. This includes all standard file formats including MS Word, MS Excel and PDF.
<b>COOP Contacts</b>	System allows for the collection and management of contacts involved in COOP planning and response. This includes the collection of a wide variety of contact information for communication during events.
<b>COOP Teams</b>	System allows for the creation of Teams, assigning members and the designation of roles and responsibilities

<b>COOP Successions and Delegations of Authority</b>	System allows for the development of lines of succession for positions and the delegations of authority for specific tasks and actions.
<b>COOP Facilities and Relocation Strategies</b>	System allows for the identification of primary and alternate facilities and the development of relocations strategies.
<b>COOP Vital Records and Systems</b>	System allows for the identification of critical records and system along with information about backup strategies. These records and systems are then linked to various interdependencies
<b>COOP Mission Essential Functions</b>	System allows for the identification and prioritization of essential functions along with details about the process and the interdependencies to Vital Records, Facilities and COOP Contacts.
<b>COOP Communications and Notification Procedures</b>	System allows for the identification of communications equipment and procedures.
<b>Scalable Planning and Rollup Reporting</b>	System allows for the creation of a number of 'departmental' plans that can then be rolled up into a collated plan for the entire organization. A wide variety of rollup reports can be generated from these multiple plans.
<b>Reports</b>	Extensive set of standard reports for COOP elements, along with administrative reports for user access, user activity, system usage, etc.
<b>User Profile</b>	Profile options include various levels of access including administrator, plan user and plan viewer.

## 2.2 Hosting and Support

Feature	Description
<b>Comprehensive hosting services</b>	Full system administration provided by BOLDplanning and Amazon Web Services (AWS)—including performance monitoring, account management, and system maintenance.
<b>Native cloud service</b>	Architected for the cloud; fully hosted, and managed on the infrastructure provided by Amazon Web Services with 99.9% guaranteed system availability
<b>“Hands-Free” upgrade/update</b>	Upgrades/updates are released on a regular schedule and typically deployed with no downtime incurred
<b>Annual open security audits</b>	Third-party annual security audits of BOLDplanning.com and results available to clients upon request.
<b>Beta environment</b>	Beta environment for test driving new features and functions prior to their inclusion in upgrades/updates.
<b>Backup and recovery</b>	Data is automatically backed up daily on secure, geographically-diverse servers
<b>Disaster recovery</b>	Backed by documented and tested disaster recovery plan and procedures, BOLDplanning.com is architected to recover quickly from various disaster scenarios system using failover mechanisms, data backups, and AWS regions/availability zones
<b>BOLDplanning knowledge base</b>	Online 24/7/365 support resources and knowledgebase with access to BOLDplanning Guides, video tutorials, FAQs, user-groups and release notes
<b>Three-tier support model</b>	Traditional three-tier incident reporting, escalation, and resolution help desk support model
<b>Basic Support Package</b>	24/7/365 access BOLDplanning.com, email response to Help Desk inquiries within two business days, M-F phone support from 8 a.m. to 6 p.m. CST

<b>COOP Training, Consulting and Professional Services</b>	Comprehensive COOP consulting, deployment management, migration services, and custom tool development can be engaged at additional cost
--	---

### 2.3 Architecture and Infrastructure

Feature	Description
<b>Native cloud service</b>	Fully hosted and managed on the state-of-the-technology, cloud-computing infrastructure provided by Amazon Web Services
<b>Highly available</b>	99.9% guaranteed system availability
<b>Highly reliable</b>	Redundant architecture with automatic failover
<b>Highly scalable</b>	Scalable across all departments for large organizations.
<b>Automated provisioning</b>	Detection and accommodation of usage spikes to ensure efficient operations during peak times.
<b>Development environment</b>	Agile development methodology, ColdFusion programming language, Microsoft platform, SQL Server database, and Microsoft web server
<b>Highly secure</b>	All data traffic in and out of BOLDplanning.com is at least 128-bit TLS/SSL-encrypted. The AWS cloud infrastructure is SAS70 Type II audited, Service Organization Controls 1 (SOC 1) reported and published under both the SSAE 16 and the ISAE 3402 professional standards, ISO 27001 certified, Level 1 service provider under the Payment Card Industry (PCI) Data Security Standard (DSS), and has achieved FISMA-Moderate operation level.
<b>Branding</b>	Support for institutional branding of interface is included in the one-time implementation fee
<b>Browser-enabled</b>	Compatible with the latest versions of Apple Safari , Google Chrome, Microsoft Internet Explorer, and Mozilla Firefox
<b>Platform-neutral</b>	Compatible with Apple Mac OS X, Linux, and Microsoft Windows
<b>Mobile access</b>	All reporting is available from Mobile devices.

## SECTION 3: ADDITIONAL SERVICES

Any Authorized Purchaser who already has access to the COOP Solution may purchase from Contractor any or all of the following services packages by entering into a Services WOC with Contractor pursuant to this Master Agreement:

### 3.1 COOP Data Consolidation, System Configuration and Project Management - (\$15,000)

*(estimated schedule: 90 days)*

Contractor shall implement the COOP Solution for Authorized Purchaser. Contractor will act as the project manager for the entire process to ensure that all elements are ready for rollout to planners. This Service Package consists of the following:

- Outreach to planners about the overall project, goals and objectives and their opportunities for involvement.
- Development of a core user group to discuss options for consolidating all existing planning efforts within the COOP Solution.
- Schedule and facilitate a full-day on-site project initiation meeting with the core user group to discuss data review, consolidation and system configuration.
- Review of existing plans and transfer of all applicable planning data into the COOP Solution.

- Initial system setup and configuration and notification of changes and discrepancies to the core user group.
- Notification and outreach to all new planners joining this initiative including plan creation, password setup and distribution, user documentation, and other elements for successful project initiation.

### **3.2 Initial Rollout Training and Project Management - (\$15,000)** *(estimated schedule: 60 days)*

Contractor shall provide on-site training on implementation of the COOP Solution to Authorized Purchaser. Contractor will conduct 2 introductory kick-off workshops at locations designated by the Authorized Representatives. Each workshop will consist of 2 consecutive days of on-site training for planning staff. Each day will be a stand-alone workshop so staff attend only a single day to receive all necessary training. These workshops will focus on the following agenda items:

- Introduction to general COOP concepts.
- Hand's-on technical training for all sections of the COOP system
- Instructions for project managers for effective rollout to their departmental planners
- Time for actual COOP plan development

### **3.3 COOP Training Webinar - (\$350)** *(estimated schedule: 15 days)*

Contractor shall provide webinar training on use of the COOP Solution to Authorized Purchaser. Contractor will work directly with the Authorized Representative to schedule and conduct a 60 minute COOP training. A number of different training agendas may be addressed, including:

- Introduction to COOP for executive management, department heads, and key planners.
- New user training for first time planners at the department level.
- Re-fresher training for existing users.
- Training on specific COOP elements as requested by Authorized Representative
- System administrator and COOP project manager training

### **3.4 COOP Training On-Site Workshop - (\$2,600)** *(estimated schedule: 30 days)*

Contractor shall provide on-site training on use of the COOP Solution to Authorized Purchaser. Contractor will work directly with the Authorized Representative to schedule and conduct on-site COOP training. A detailed and documented training process that includes training plans, agendas, documentation and flexible workshop formats has been developed for the COOP Solution. This training may be broken up at the discretion of the Authorized Representative.

- Full-day COOP workshops
- 2 half-day COOP workshops
- Consecutive 60 and 90 Minutes workshops
- Individual and group workshop formats
- "Drop-In" training day

Each session is a "stand-alone", hands-on workshop, allowing planners to choose and attend a single session. Each workshop may include the following:

- Introduction to COOP and to the COOP Solution.
- Significant time for actual COOP development as planners enter departmental data into the web-based tool.
- Instructions for additional data input, planning team meetings, and the estimated schedule for plan completion.
- Details about the monthly Plan Maintenance Cycle (PMC) for COOP enhancement.

### **3.5 COOP Plan Reviews – (\$300) (estimated schedule: 30 days)**

Contractor shall review COOP plans for Authorized Purchaser. Contractor will work directly with the Authorized Representative to schedule and complete plan reviews for one, some or all plans specified in Section 2.2. All sections of the plans will be reviewed by a COOP Subject Matter Expert (SME). Using the on-line review tool within the COOP Solution, the COOP plans will be analyzed and each section will receive a red/yellow/green status level along with comments for improvement. The review levels and comments will be immediately available via the COOP Solution, and will provide a detailed status report for all plans under development.

### **3.6 COOP Tabletop Exercise – (\$16,800) (estimated schedule: 90 days)**

Contractor shall provide on-site tabletop exercise for Authorized Purchaser Contractor will work directly with the Authorized Representative to schedule and complete a Homeland Security Exercise and Evaluation Program (HSEEP) compliant COOP tabletop exercise. The exercise will focus on the following:

- Executive participation in the overall COOP process with emphasis on the ownership of departmental responsibilities for planning and activation.
- COOP activation procedures including policy implementation and staff communications.
- Short-term and long-term relocation issues including facility and IT requirements.
- Jurisdictional prioritizations for critical functions.
- Areas for improvement in the COOP planning process and actionable items for future consideration.

Specific deliverables for this event include the following:

- Facilitation of exercise planning meeting via webinar and phone.
- Design of a realistic exercise scenario.
- Development of all HSEEP exercise documentation including the exercise plan and applicable worksheets.
- Facilitation of the actual event.
- Development and delivery of an After Action Report (AAR).

### **3.7 Initial COOP Orientation Package with Webinar Trainings – (\$5,600) (estimated schedule: 30 days)**

Contractor shall provide webinar training consisting of an overview and use of the COOP Solution to Authorized Purchaser. This Service Package includes:

- Schedule and conduct an introductory conference call with Authorized Purchaser emergency manager and any other Project Managers (PM) to explain the COOP Solution documentation, and suggested process.
- Schedule and conduct a COOP Project Initiation webinar training for the PM and the members of the core COOP team.
- Technical import of key COOP data such as contacts, facilities and vital records as provided by the project managers.
- Development of an Outreach and Invitation Package for distribution to all Authorized Purchaser staff.
- Schedule and conduct a 90 minute COOP Introduction Training webinar for all Authorized Purchaser staff.

### **3.8 Initial COOP Orientation Package with On-Site and Webinar Trainings – (\$7,800)** *(estimated schedule: 30 days)*

Contractor shall provide both on-site and webinar trainings consisting of an overview and use of the COOP Solution to Authorized Purchaser. This Service Package includes:

- Schedule and conduct an introductory conference call with Authorized Purchaser emergency manager and any other PMs to explain the system, documentation, and suggested process.
- Schedule and conduct a COOP Project Initiation webinar training for the PM and the members of the core COOP team.
- Technical import of key COOP data such as contacts, facilities and vital records as provided by the project managers.
- Development of an Outreach and Invitation Package for distribution to all Authorized Purchaser staff.
- Schedule and conduct 1 full-day, on-site COOP Introduction Workshop for Authorized Purchaser staff.
- Schedule and conduct 1 90 minute COOP Introduction webinar for Authorized Purchaser staff.

### **3.9 Initial COOP Orientation Package with Full Service Package – (\$20,600)** *(estimated schedule: 90 days)*

Contractor shall implement the COOP Solution for Authorized Purchaser. Contractor shall also provide on-site trainings consisting of an overview and use of the COOP Solution to Authorized Purchaser. This Service Package includes:

- Schedule and conduct a full-day on-site COOP Orientation Workshop with Authorized Purchaser emergency manager and any other PMs to explain the system, documentation, and suggested process. This will include an executive briefing for department management and extensive PM training on the system.
- Coordinate with Information Technology, Human Resources, and Facilities Management for data collection of critical jurisdiction-wide information.
- Assist with the research, collection, and data entry of Authorized Purchaser COOP data. This also includes the technical import key COOP data such as contacts, facilities and vital records as provided by the project managers.
- Assist with the development, finalization and distribution of an executive letter of support for implementing COOP.
- Development of an outreach and invitation package for distribution to all participating departmental staff. Management of the invitation and the RSVP process for on-site workshops.
- Schedule and conduct 2 consecutive full-day, on-site COOP introduction workshop.

- Schedule and conduct 1, 90 minute COOP Introduction.
- All project management and administration for Initial COOP Orientation during the implementation.

### **3.10 Full Service COOP Package – (\$44,600)** *(estimated schedule: 180 days)*

Contractor shall implement the COOP Solution for Authorized Purchaser. Contractor shall also provide on-site trainings consisting of an overview and use of the COOP Solution to Authorized Purchaser. This Service Package includes:

- Schedule and conduct a full-day on-site COOP Orientation Workshop with Authorized Purchaser emergency manager and any other PMs to explain the system, documentation, and suggested process. This will include an executive briefing for department management and extensive PM training on the system.
- Schedule and conduct a COOP Project Initiation webinar training for the PM and the members of the core COOP team.
- Coordinate with Information Technology, Human Resources, and Facilities Management for data collection of critical jurisdiction-wide information.
- Assist with the research, collection, and data entry of Authorized Purchaser COOP data. This also includes the technical import key COOP data such as contacts, facilities and vital records as provided by the project managers.
- Assist with the development, finalization and distribution of an executive letter of support for implementing COOP.
- Development of an outreach and invitation package for distribution to all participating departmental staff. Management of the invitation and the RSVP process for on-site workshops.
- Schedule and conduct 2 consecutive full-day, on-site COOP introduction workshop.
- Schedule and conduct a series of mid-term trainings and planning workshops including 3 90-minute COOP follow-up webinars and 1 on-site full-day training.
- Schedule and conduct a complete review of all departmental planning elements and provide red/yellow/green status levels and comments for improvement to all departments.
- Design and conduct a COOP tabletop exercise for all participating departmental staff.
- Develop an after action review from the tabletop
- Initiate a monthly plan maintenance cycle for COOP enhancement.
- All project management and administration during the implementation.

### **3.11 COOP Hourly Consulting – (\$130 per hour)**

Authorized Purchasers can request additional consulting services from Contractor. Mutually agreed upon consulting services purchased on an hourly basis to be described in individual Work Order Contract.

## **SECTION 4: COST**

Authorized Purchasers not covered by the Participating Program Enterprise License wishing to use the COOP Solution must purchase an annual license subscription. Participating Programs are: State of Oregon, Oregon local government: 36 Counties and their 242 Incorporated Cities, and tribal emergency management programs from the 9 federally recognized tribes who elect to use the COOP solution procured under this RFP as their primary COOP solution. (See Table A, for the full List)

Authorized Purchasers may also elect to purchase additional service packages.

## 4.1 COOP SOLUTION

Access to the COOP Solution may be purchased by individual entity or grouped in an enterprise license for the fixed prices set forth below.

### 4.1.1 Individual Entity Licensing:
