

MLA # 5404

Master License Agreement

This Master License Agreement ("Agreement") is between State of Oregon, acting through its Department of Administrated Services, ("DAS") on behalf of the State of Oregon, state agencies, and ORCPP members, (individually, "Customer"), located at 1225 Ferry St NE, Salem, OR, USA 97301 and BMC Software, Inc., a Delaware corporation located at 2103 CityWest Boulevard, Houston, Texas 77042, or its local licensing affiliate ("BMC").

This Agreement is effective on the last signature date set forth below ("Effective Date").

1. GENERAL DEFINITIONS.

"Affiliate" is an entity that controls, is controlled by or shares common control with BMC, where such control arises from either (a) a direct or indirect ownership interest of more than 50% or (b) the power to direct or cause the direction of the management and policies, whether through the ownership of voting stock, by contract, or otherwise, equal to that provided by a direct or indirect ownership of more than 50%.

"Customer" means the executive department, the judicial department and the legislative department as defined in Oregon Revised Statute 174.111, and all Oregon political subdivisions and entities, and members of the Oregon Cooperative Purchasing Program.

"DAS" means the State of Oregon, acting by and through the Department of Administrative Services. DAS is not a "Customer" under this Master License Agreement unless DAS has issued an Order or Ordering Document for DAS, itself.

"Documentation" means the technical publications relating to the software, such as release notes, license entitlement descriptions, reference, user, installation, systems administrator and technical guidelines, included with the Product.

"Licensed Capacity" is the amount of each Product licensed as established in the Order.

"Order" or "Ordering Document" is a separate agreed written or electronic ordering document either (1) between Customer and BMC, or (2) between Customer and a BMC Authorized Reseller (the State Contract), which BMC is not party to. The Order or Ordering Document will identify the Products to be licensed and the Licensed Capacity and/or the Support to be purchased and the fees to be paid. The terms and conditions for use of all BMC Products and provision of Support purchased under an Order or Ordering Document will be governed by this Agreement.

"Product" is the object code of the software and all accompanying Documentation delivered to Customer, including all items delivered by BMC to Customer under Support.

"State Contract" refers to the agreement that sets forth the terms and conditions that permit Customer to acquire a Product. The "State Contract" may be a master contract between DAS and a BMC Authorized Reseller against which Ordering Document and Orders may be placed or it may be a contract between Customer and a BMC Authorized Reseller or it may be a contract between Customer and BMC. BMC is not a party to and is not subject to any obligations of a contract which is between DAS or Customer and BMC's Authorized Reseller.

"Support" is the support services program as further specified in this Agreement.

"Territory" means the country(ies) where Customer is licensed to install the Product as specified in the Order.

"BMC Authorized Reseller" means a reseller who is currently approved by BMC to resell certain BMC Products and BMC Support to an end user. The BMC Authorized Reseller must have a valid reseller agreement in place with BMC.

2. SCOPE. Licenses are granted and Support are obtained, solely by execution of Orders. Each Order is deemed to be a discrete contract, separate from each other Order, unless expressly stated otherwise therein, and in the event of a direct conflict between any Order and the terms of this Agreement, the terms of the Order will control only if the Order is agreed to by each party. With respect to an Order, the terms "BMC" and "Customer" as used in this Agreement will be deemed to refer to the entities that execute that Order, the Order will be considered a two party agreement between such entities, and BMC or its authorized reseller will separately invoice the Customer named in the Order for the associated License fees and Support fees. If an Order is placed with a BMC Authorized Reseller then the BMC Authorized Reseller will invoice the Customer for the associated License fees and Support fees according to the Ordering Document and the State Contract. Neither execution of this Agreement, nor anything contained herein, shall obligate either party to enter into any Ordering Documents or Orders. Unless BMC is a party to the State Contract, BMC will not be a party to or bound by any Customer purchase order, whose terms and conditions are only binding on DAS or Customer and BMC's Authorized Reseller

3. LICENSE. Subject to the terms, conditions, payment obligations and restrictions set forth in this Agreement, BMC grants Customer a non-exclusive, non-transferable, non-sub-licensable perpetual (unless a non-perpetual license is provided on an Order) license to install in the Territory, access and use the Product (i) up to the Licensed Capacity, (ii) for Customer's internal business operations, (iii) in accordance with the Documentation and the applicable Order, and (iv) make one copy of the Product for archival purposes only (collectively a "License").

4. RESTRICTIONS. Customer will not: (a) copy, operate or use any Product in excess of the applicable Licensed Capacity or other than as set forth in the License above; (b) modify, delete or remove any ownership, title, trademark, patent or copyright notices from any Product, or copy or partial copy of a Product; (c) disassemble, reverse engineer, decompile or otherwise attempt to derive any Product

source code from object code, except to the extent expressly permitted by applicable law despite this limitation without possibility of contractual waiver; (d) distribute, rent, lease, sublicense or provide the Product to any third party; (e) use the Products in an outsourcing or service bureau environment on behalf of non-Affiliate third parties, or allow the products to be used by an outsourcing or service bureau provider on Customer's behalf; (f) provide a third party with the results of any functional evaluation, or performance tests, without BMC's prior written approval; or (g) attempt to disable or circumvent any of the licensing mechanisms within the Product.

5. PRODUCT PERFORMANCE WARRANTY. BMC warrants that (a) the Product will perform in substantial accordance with its Documentation for a period of one year from the date of the first Order, (b) BMC has used commercially reasonable efforts consistent with industry standards to scan for and remove software viruses, and (c) other than passwords that may be required for the operation of the Product, BMC has not inserted any code that is not addressed in the Documentation and that is designed to delete, interfere with or disable the normal operation of the Product in accordance with the License. This warranty will not apply to any problems caused by hardware, Computers, or software other than the Product, or misuse of the Product, use of the Product other than as provided by the applicable License, modification of the Product, or claims made either outside the warranty period or not in compliance with the notice and access requirements set forth below. No warranty is provided for additional Licensed Capacity, Product provided pursuant to Support or Product provided pursuant to Section 12.

6. LIMITED REMEDIES. BMC's entire liability, and Customer's exclusive remedy, for breach of the above warranty is limited to: BMC's use of commercially reasonable efforts to have the Product perform in substantial accordance with its Documentation, or replacement of the non-conforming Product within a reasonable period of time, or if BMC cannot have the Product perform in substantial accordance with its Documentation replace the Product within such time period, then BMC will refund the amount paid by Customer for the License for that Product. Customer's rights and BMC's obligations in this Section are conditioned upon Customer's providing BMC during the warranty period (a) full cooperation and access to the Product in resolving any claim; and (b) written notice addressed to the BMC Legal Department that includes notice of the claim, a complete description of the alleged defects sufficient to permit their reproduction in BMC's development or support environment, and a specific reference to the Documentation to which such alleged defects are contrary.

7. DISCLAIMER OF WARRANTIES. EXCEPT FOR THE EXPRESS WARRANTIES IN THIS AGREEMENT, THE PRODUCT IS PROVIDED WITH NO OTHER WARRANTIES WHATSOEVER, AND BMC, ITS AFFILIATES AND LICENSORS DISCLAIM ALL OTHER WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT. BMC DOES NOT WARRANT THAT THE OPERATION OF THE PRODUCT WILL BE UNINTERRUPTED OR ERROR FREE, OR THAT ALL DEFECTS CAN BE CORRECTED.

8. SUPPORT. Subject to issuance of an Order, Customer may acquire BMC support services ("Support") through its Order for the total Licensed Capacity of a Product.

Notwithstanding anything to the contrary contained in this Agreement or Order, Customer has opted not to automatically renew support on an annual basis. If Customer wants to re-enroll the Products in Support, Customer must submit a purchase order or other mutually agreed upon renewal document for Support prior to the Support anniversary date. If Customer does not timely submit such an order or renewal document, BMC may charge a reinstatement fee. The annual fee for Support will be agreed upon at the time of each Order. A further description of Support is located at www.bmc.com/support/review-policies, and is incorporated herein by this reference. BMC may change its Support terms to be effective upon Customer's support anniversary date. BMC will provide a Support renewal quote to the Customer or reseller, if applicable, ninety (90) days prior to the Support anniversary date. BMC reserves the right to discontinue Support for a Product where BMC generally discontinues such services to all licensees of that Product. If Customer terminates Support and then re-enrolls in Support, BMC may charge Customer a reinstatement fee.

9 DELIVERY AND TAXES. Customer shall comply with the provisions of the Ordering Document. Customer will pay each License fee and/or Support fee as provided in the Ordering Document or Order. If Customer purchases Products and/or Support directly from BMC, pursuant to the Ordering Document or Order from BMC, then Customer will provide BMC with a copy of Customer's valid applicable tax exempt certification and all fees payable under an Order will be exempt from applicable taxes. For Products that are delivered electronically, upon request from BMC, Customer agrees to provide BMC with documentation supporting that the designated Product was received electronically. If Customer accepts any Product in a non-electronic format, there may be an additional charge and it is the sole responsibility of Customer to bear any sales/use tax obligation, penalties, and interest. The unpaid balance of each late payment bears interest at a rate equal to the maximum amount permitted by law. All Products are licensed FCA ("Free Carrier" as per Incoterms 2000) shipping point. The Products are accepted on the date BMC delivers the Product to the Customer either physically or by providing access codes for electronic download, whichever occurs first, however, such acceptance will not affect the Product Performance Warranty provided in this Agreement. The undersigned certifies under penalty of perjury that BMC has complied with the tax laws of the State of Oregon and the applicable tax laws of any political subdivision of this state. BMC shall, for the duration of this Agreement and any extensions, comply with all tax laws of this state and all applicable tax laws of any political subdivision of this state. For the purposes of this section, "tax laws" includes: (i) All tax laws of this state, including but not limited to ORS 305.620 and ORS chapters 316, 317, and 318; (ii) Any tax provisions imposed by a political subdivision of this state that apply to BMC, to BMC's property, operations, receipts, or income, or to BMC's performance of or compensation for any work performed by BMC; (iii) Any tax provisions imposed by a political subdivision of this state that apply to BMC, or to goods, services, or property, whether tangible or intangible, provided by BMC; and (iv) Any rules, regulations, charter provisions, or ordinances that implemented or enforced any of the foregoing tax laws or provisions. This Agreement will be reported to the Oregon Department of Revenue. The Department of Revenue may take any and all actions permitted by law relative to the collection of taxes due to the State of Oregon or a political subdivision, including (i) garnishing the Contractor's compensation under this Contract or (ii) exercising a right of setoff against Contractor's compensation under this Contract for any amounts that may be due and unpaid to the State of Oregon or its political subdivisions for which the Department of Revenue collects debts.

10 PROPRIETARY RIGHTS AND CONFIDENTIALITY. (a) BMC, its Affiliates or licensors retain all right, title and interest to the Product, Support and all related intellectual property and proprietary rights. The Product and all third party software provided with the Product are protected by applicable copyright, trade secret, industrial and other intellectual property laws. BMC reserves any rights not expressly granted to Customer in this Agreement. Customer retains all right, title and interest to all Customer's and/or its clients' data, information, and intellectual property. (b) "**Confidential Information**" means all proprietary or confidential information that is disclosed to the recipient ("**Recipient**") by the discloser ("**Discloser**"), and includes, among other things (i) any and all information relating to Discloser financial information, operations, customers/clients, employees, products or services, including, without limitation, intellectual property, software code, flow charts, techniques, specifications, development and marketing plans, strategies, forecasts, and proposal related documents and responses; (ii) as to BMC, and its licensors, the Product (excluding portions of the Documentation that BMC makes publically available) and any third party software provided with the Product; and (iii) the terms of this Agreement, including without limitation, Product pricing information, except to the extent required by law or in response to a public records request. Confidential Information does not include information that Recipient can show: (a) was rightfully in Recipient's possession without any obligation of confidentiality before receipt from the Discloser; (b) is or becomes a matter of public knowledge through no fault of Recipient; (c) is rightfully received by Recipient from a third party without violation of a duty of confidentiality; or (d) is independently developed by or for Recipient. Recipient may not disclose Confidential Information of Discloser to any third party or use the Confidential Information in violation of this Agreement. The Recipient (i) will exercise the same degree of care and protection with respect to the Confidential Information of the Discloser that it exercises with respect to its own Confidential Information and (ii) will not, either directly or indirectly, disclose, copy, distribute, republish, or allow any third party to have access to any Confidential Information of the Discloser. Notwithstanding the foregoing, Recipient may disclose Discloser's Confidential Information to Recipient's employees and agents who have the need to know in order to provide the License or Support for the Product, provided that such employees and agents have legal obligations of confidentiality substantially the same (and in no case less protective) as the provisions of this Agreement. (c) **Notification Obligation.** If the Recipient becomes aware of any unauthorized use or disclosure of Discloser's Confidential Information, then Recipient will promptly and fully notify the Discloser of all facts known to it concerning such unauthorized use or disclosure. In addition, if the Recipient or any of its employees or agents are required (by oral questions, interrogatories, requests for information, or documents in legal proceedings, subpoena, civil investigative demand, or other similar process) to disclose any of Discloser's Confidential Information, the Recipient will not disclose the Discloser's Confidential Information without providing the Discloser with commercially reasonable advance prior written notice to allow Discloser to seek a protective order or other appropriate remedy or to waive compliance with this provision. In any event, the Recipient will exercise its commercially reasonable efforts to preserve the confidentiality of the Discloser's Confidential Information, including, without limitation, cooperating with Discloser to obtain an appropriate protective order or other reliable assurance that confidential treatment will be accorded to the Confidential Information. Any obligation of Customer to maintain the confidentiality of BMC's proprietary information provided to Agency/Licensee is conditioned by and subject to Customer's obligations under the Oregon Public Records Law, Oregon Revised Statutes (ORS) 192.410 to 192.505 which may require disclosure of proprietary information as a "public record" unless exempt under ORS 192.501 or ORS 192.502. Both parties will comply with all federal law related to privacy.

11 DISCLAIMER OF DAMAGES; LIMITS ON LIABILITY. EXCEPT FOR VIOLATIONS OF LICENSE RESTRICTIONS (SECTION 4), AND PROPRIETARY RIGHTS AND CONFIDENTIALITY (SECTION 10) AND FOR INFRINGEMENT CLAIMS (SECTION 13), NEITHER PARTY, ITS AFFILIATES OR BMC'S LICENSORS ARE LIABLE FOR (A) ANY SPECIAL, INDIRECT, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES RELATING TO OR ARISING OUT OF THIS AGREEMENT, SUPPORT, THE PRODUCT OR ANY THIRD PARTY CODE OR SOFTWARE PROVIDED WITH THE PRODUCT (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, LOST COMPUTER USAGE TIME, AND DAMAGE TO, OR LOSS OF USE OF DATA), EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, AND IRRESPECTIVE OF NEGLIGENCE OF A PARTY OR WHETHER SUCH DAMAGES RESULT FROM A CLAIM ARISING UNDER TORT OR CONTRACT LAW OR (B) DAMAGES OF ANY KIND IN AN AMOUNT GREATER THAN THE AMOUNT OF ACTUAL, DIRECT DAMAGES UP TO THE GREATER OF THE AMOUNT PAID AND PAYABLE BY CUSTOMER FOR THE LICENSE TO THE APPLICABLE PRODUCT GIVING RISE TO SUCH DAMAGES.

12 TRIAL LICENSE. BMC may determine, in its sole discretion, to make products available to Customer without an Order and without charge. Such products are deemed to be "Products" pursuant to this Agreement except that (a) they are provided to Customer solely so that Customer may evaluate internally whether to acquire a license to the products for a fee, (b) the license term for such products is 30 days; (c) the Products are provided "AS IS" and without any warranty or support, and (d) the products cannot be put into productive use or included as part of Customer's business processes in any manner, unless or until they are expressly licensed and paid for under an Order. BMC may terminate all of Customer's rights and licenses to these Products for BMC's convenience upon notice to Customer.

13 INFRINGEMENT CLAIMS. If a third party asserts a claim against Customer asserting that Customer's use of a Product in accordance with this Agreement violates that third-party's patent, trade secret or copyright rights ("**Infringement Claim**"), then BMC will, at its own expense: (a) defend or settle the Infringement Claim; and (b) indemnify Customer for any damages finally awarded against Customer based on infringement by the Product. BMC's obligations under this Section will not apply if: (a) BMC's legal department does not receive prompt, detailed written notice of the Infringement Claim from Customer, (b) BMC is not able to retain sole control of the defense of the Infringement Claim and all negotiations for its settlement or compromise, (c) BMC does not receive reasonable assistance, or (d) the Infringement Claim is based on (i) the use of Product in combination with products not approved by BMC in the Product's Documentation, (ii) the failure of Customer to use any updates to such Product within a reasonable time after such updates are made available to Customer, or (iii) the failure of Customer to use the Product as permitted by the Order and in accordance with the Documentation. BMC will not bind Customer to a monetary obligation in a settlement or compromise, or make an admission on behalf of Customer, without obtaining Customer's prior consent. If BMC determines in BMC's reasonable discretion that use of the Product should be stopped because of an infringement claim or potential infringement claim, if a court of competent jurisdiction enjoins Customer from using a Product as a result of an Infringement Claim and BMC is unable to have such injunction stayed or overturned, or if BMC settles an Infringement Claim

on terms that would require Customer to stop using the Product, then BMC will, at its expense and election: (a) modify or replace the Product, (b) procure the right to continue using the Product, or (c) if in BMC's reasonable judgment, neither (a) or (b) is commercially reasonable, terminate Customer's License to the Product and (i) for any perpetual licenses, issue a refund based upon the applicable license fees paid, prorated over 48 months from the date of the Order under which the Products were initially licensed; and (ii) for any non-perpetual licenses, release Customer from its obligation to make future payments for the Product or issue a pro rata refund for any fees paid in advance. This Section contains Customer's exclusive remedies and BMC's sole liability for Infringement Claims. Notwithstanding the foregoing, the State of Oregon reserves the right to maintain its own defense in any claim in the event State interests are affected and provided further that BMC shall not settle any action in the name of the State of Oregon. In the event that the State of Oregon maintains its own defense or refuses to accept a settlement made on its behalf, then BMC will not provide any indemnifications provided for under this Agreement.

14 TERMINATION. Upon thirty days advance written notice, BMC or DAS may terminate this Agreement for its convenience on a prospective basis. BMC may: (i) terminate the Licenses to the Products if Customer fails to pay any applicable fees due under that Order within 30 days after receipt of written notice from BMC of non-payment; (ii) terminate a Customer's Licenses to the Products, without notice or cure period, if Customer violates the intellectual property rights of BMC, its Affiliates or licensors, or uses the Products outside of the scope of the applicable Licenses; or (iii) terminate all Licenses and this Agreement in whole or in part if DAS commits any other material breach of this Agreement and fails to correct the breach within 30 days after BMC notifies DAS in writing of the breach, and (iv) BMC may terminate a License in whole or in part if a Customer commits any other material breach of this Agreement or its License and fails to correct the breach within 30 days after BMC notifies Customer in writing of the breach. Upon any termination of a License, Customer will immediately uninstall and stop using the relevant Product, and upon BMC's request, Customer will immediately return such Product to BMC, together with all related Documentation and copies, or certify its destruction in writing. Nothing in this Agreement may be construed to permit any violation of Article XI, Section 7 of the Oregon Constitution, set forth below in Section 14.1, or any other law regulating liabilities or monetary obligations of the State of Oregon.

14.1 Oregon Constitution, Article XI, Section 7 Credit of State Not to Be Loaned; Limitation Upon Power of Contracting Debts. Section 7 provides as follows:

"The Legislative Assembly shall not lend the credit of the state nor in any manner create any debt or liabilities which shall singly or in the aggregate with previous debts or liabilities exceed the sum of fifty thousand dollars, except in case of war or to repel invasion or suppress insurrection or to build and maintain permanent roads; and the Legislative Assembly shall not lend the credit of the state nor in any manner create any debts or liabilities to build and maintain permanent roads which shall singly or in the aggregate with previous debts or liabilities incurred for that purpose exceed one percent of the true cash value of all the property of the state taxed on an ad valorem basis; and every contract of indebtedness entered into or assumed by or on behalf of the state in violation of the provisions of this section shall be void and of no effect. This section does not apply to any agreement entered into pursuant to law by the state or any agency thereof for the lease of real property to the state or agency for any period not exceeding 20 years and for a public purpose. [Constitution of 1859; Amendment proposed by initiative petition filed July 2, 1912, and adopted by the people Nov. 5, 1912; Amendment proposed by H.J.R. 11, 1920 (s.s.), and adopted by the people May 21, 1920; Amendment proposed by S.J.R. 4, 1961, and adopted by the people Nov. 6, 1962; Amendment proposed by S.J.R. 19, 1963, and adopted by the people Nov. 3, 1964]"

14.2 Non-appropriation. Notwithstanding any other provisions of an Order or this Agreement, Customer will have the right to terminate an Order at no additional cost and with no penalty, if funds necessary for the continued fulfillment of an Order are not appropriated by the State of Oregon legislature. Prior to such termination, Customer must provide written notice documenting the lack of funding, and the Order will be terminated as of the last anniversary date for which funding was available, that date then becoming the expiration date for purposes of the Order. Upon any termination for non-appropriation, Customer will immediately uninstall and stop using the terminated Products, and upon BMC's request, Customer will immediately return such Products to BMC at Customer's expense, together with all related documentation and copies, or certify their destruction in writing.

15 AUDIT. If requested by BMC, and not more than once a year, Customer agrees to deliver to BMC, within 30 days of such request, as specified by BMC either (a) periodic product usage reports generated from specific products or (b) written periodic product usage reports, to be provided solely when the product does not generate reports. Additionally, if requested by BMC not more than once a year, Customer agrees to allow BMC to perform an audit at the locations where the Products are installed, upon prior notice and during normal business hours to ensure compliance with the terms of this Agreement. Customer agrees to cooperate during any such audit and to provide reasonable access to its information and systems, subject to Customer's access and security policies and procedures. BMC shall send Customer a copy of the audit report. If an audit reveals that Customer has exceeded the Licensed Capacity for a Product, Customer, unless it disputes the results of the audit agrees to pay the applicable fees for additional capacity upon receipt of invoice.

16 EXPORT CONTROLS. Customer represents and warrants that it: a) will comply with the United States Export Administration Regulations and other U.S. or foreign export regulations; b) no individual accessing or using the Product is a citizen of or from an embargoed country (currently Iran, Syria, Sudan, Cuba and North Korea); c) is not prohibited from receiving the Product under such regulations; d) will not acquire the Product for a person who is restricted under such regulations; e) will not use the Product in contradiction to such regulations; and f) will not use the Product for prohibited uses, including but not limited to nuclear, chemical, missile or biological weapons related end uses. For Product exported from Ireland, EC No. 428/2009 sets up a Community regime for control of exports of dual-use items and technology, and it is declared that this Product is intended for civil purposes only. Therefore, Customer agrees to

comply with both the U.S. regulations and those E.U. regulations and will not export in violation of the regulations and without all proper licenses. Any failure to comply with these regulations will result in Customer forfeiting all rights to the Product.

17 GOVERNING LAW AND DISPUTE RESOLUTION. A party will provide written notice to the other party of any controversy, dispute or claim arising out of or relating to this Agreement, or to the formation, interpretation, breach, termination, or validity thereof ("**Controversy**"). The parties shall engage in good faith negotiations to resolve the Controversy. Only if the Controversy is not resolved through good faith negotiations within 15 days of the sending of the written notice of Controversy, the Controversy may be submitted to litigation, and shall be tried in either state or federal court. This Agreement is governed by and construed under the substantive laws, without regard to conflict of laws principles, in the State of Oregon.

The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this Agreement. Nothing in this Agreement shall be deemed as preventing either party from seeking immediate injunctive relief from any court having jurisdiction over the parties and the subject matter of the dispute.

18 ASSIGNMENT AND TRANSFERS. Customer may not assign or transfer a Product separate from the applicable Agreement and License, and may not assign or transfer an Agreement or a License, except in the event of a merger with or into, or a transfer of all or substantially all of Customer's assets to, a third party who assumes all of Customer's liabilities and obligations under the Agreement and License, and expressly agrees in writing to be bound by and comply with all of the terms of the Agreement and License. Except as specifically authorized by applicable law, any attempt to assign or transfer an Agreement or License in violation of this provision will be null and void and be treated as a violation of BMC's intellectual property rights or use outside the scope of the License.

19 DATA PROTECTION. (a) Customer acknowledges that BMC neither requires nor needs Customer to (i) send BMC any personal data collected by Customer ("**Customer Collected Data**") or (ii) give BMC access to any Customer Collected Data. Consequently, Customer remains responsible for either filtering, making anonymous, encrypting such Customer Collected Data or for having proper procedures in place to prevent Customer Collected Data from being sent to or accessed by BMC. (b) In the course of normal business, BMC may collect and process personal information related to the Customer (mainly contact and related information) in order to perform its obligations under this Agreement and/or under a License, such information being referred to hereinafter as "**Customer Contact Information**". Where the Customer Contact Information is to be processed by BMC, BMC will comply with its Controller and Processor Binding Corporate Rules Policy found at <http://media.cms.bmc.com/documents/External+Privacy+Binding+Coporate+Rules+Policy+-+Aug+04.pdf> (the "**BCR**") with respect to compliance with data protection laws and/or regulations. The BCR policy is incorporated into a BMC corporate wide policy, requiring all BMC entities, employees and third party providers to comply with and respect the BCR policy which is governing the collection, use, access, storage and transfer of personal data among BMC entities and third-party sub-processors. The details of the BCR approval of BMC Software are available at http://ec.europa.eu/justice/data-protection/international-transfers/binding-corporate-rules/bcr_cooperation/index_en.htm. BMC shall in particular: (i) allow Customer to access, modify, correct or erase Customer Contact Information when necessary; (ii) take reasonable technical and organizational security measures to maintain the confidentiality and integrity of Customer Contact Information and to prevent its unauthorized access, use, or disclosure; and (iii) refrain from using Customer Contact Information for any other purpose than performing its obligations under this Agreement and/or any Order.

20 MISCELLANEOUS TERMS. A waiver by a party of any breach of any term of this Agreement will not be construed as a waiver of any continuing or succeeding breach. Should any term of this Agreement be invalid or unenforceable, the remaining terms will remain in effect. The parties acknowledge they have read this Agreement and agree that it is the complete and exclusive statement of the agreement and supersedes any prior or contemporaneous negotiations or agreements, between the parties relating to the subject matter of this Agreement. There are no representations, promises, warranties, covenants, or undertakings between the parties other than those expressly set forth in this Agreement. This Agreement may not be modified or rescinded except in writing signed by both parties. Any delay or failure of any party to perform any obligation under this Agreement caused by governmental restrictions, labor disputes, storms or natural disasters, emergency, or other causes beyond the reasonable control of the party, will not be deemed a breach of this Agreement; provided, however, this provision does not apply to the payment of monies or any breach of Section 10. Customer agrees that BMC and its affiliates may refer to Customer as a customer of BMC for internal purposes only. BMC shall make no representations of the Customer's opinion or position as to the quality or effectiveness of the Products without the prior written consent of Customer. The BMC Products may contain third party software which is delivered to Customer as part of the Product and may not be taken out of the Product or used separately from the Product and for which additional terms may be included in the Documentation. The Product may contain hyperlinks to websites controlled by parties other than BMC. BMC is not responsible for and does not endorse the content or accept any responsibility for Customer's use of these websites. Customer should refer to the policies posted by other websites regarding data privacy and other topics before using them. Any additional documents presented to a BMC representative by Customer for signature as a condition for going on a Customer's site will be governed by this Agreement and to the extent that such document presents additional terms or conflicts with this Agreement, it shall be considered null and void.

21 U.S. FEDERAL ACQUISITIONS. This Section applies only to acquisitions of the commercial Product and Documentation subject to this Agreement by or on behalf of the United States Government, or by any prime contractor or subcontractor (at any tier) under any contract, grant, cooperative agreement or other activity with the United States Government. In the event the Products are delivered to the United States Government, the United States Government hereby agrees that the Products qualify as "commercial items" within the meaning of the Federal acquisition regulation(s) applicable to this procurement. The terms and conditions of this Agreement shall pertain to the United States Government's use and disclosure of the Product, and shall supersede any conflicting contractual terms and conditions. The following additional statement applies only to acquisitions governed by DFARS Subpart 227.4 (October 1988): "Restricted Rights - Use, duplication and disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 (Oct. 1988)."

22 ADDITIONAL TERMS. The following additional terms are incorporated into this Agreement.

a. **DEFINITIONS.** Terms set forth below have the indicated meaning regardless of whether they are capitalized.

"Client" means a third party whose data is processed by Customer and is only permitted if Customer is an authorized BMC service provider.

"Cloud Environment" means a shared pool of configurable computing resources (e.g., networks, servers, storage, applications and services) managed so they behave as if they were one computer.

"Cloud Services" means the dynamic provisioning of IT resources as a service, where typically the Cloud infrastructure is shared across multiple tenants, and tenants are billed on a utility/subscription basis for what they use. Examples of Cloud Services include Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS).

"Cloud Service Provider" is an entity that provides Cloud Services to Clients under agreements pursuant to transactions for which the Cloud Service Provider is compensated.

"Computer" or **"Server"** has the meaning generally given within the computer industry, which is a single machine, whether a central processing unit, such as a mainframe machine, or a distributed systems machine, such as a Unix or Intel based server. A mainframe machine would be an individual mainframe computer having single or multiple processors or engines. For purposes of distributed systems machines a Computer or Server may be physical or virtual.

"Enterprise" is the environment consisting of all hardware owned or leased by a Customer, or by a Client respectively, in the Territory.

b. **LICENSE RESTRICTIONS.** The following restrictions apply to certain Products.

BMC Application Automation – License Add-on: Excludes use of BladeLogic agent for server compliance, remediation, configuration, patching, and provisioning tasks.

BMC Atrium Orchestrator – Adapters License Add-on: Restricts license rights to deploy one unique adapter for every unit licensed; also includes unlimited deployment rights to use Light Weight Activity Peers in combination with licensed adapters; test and development license are provided at no additional cost.

- **Adapter** - a system/interfaces/gateways/connectors used to talk to external applications.
- **Light Weight Activity Peer** - Slave peers/servers that can optionally be added to a grid to accommodate network latencies and/or security topologies when deployed in combination with adapters; these peers do not directly add incremental processing power.

BMC Atrium Orchestrator Automation Pack – Device Endpoint License Add-on: Restricts license rights to up to five (5) peers in the orchestration environment; and allows use of the following runbooks (Continuous Compliance for Network Automation and NetApp Solutions) and supporting base Adapters only for the Licensed Capacity.

BMC Atrium Orchestrator Automation Pack – Server Endpoint License Add-on: Restricts license rights to up to five (5) peers in the orchestration environment; and allows use of the following runbooks (Continuous Compliance for Server Automation, Discovery Synch, and NetApp Solutions) and supporting base Adapters only for the Licensed Capacity.

BMC Atrium Orchestrator - Peer License Add-on: Restricts license rights to deploy one peer for every unit licensed; a peer can either be a Configuration Distribution Peer or an Application Peer; test and development license are provided at no additional cost.

- **Application Peer** – Server that executes workflows.
- **Configuration Distribution Peer** – Master application that controls all workflows, including load balancing across the grid of Peers.

BladeLogic Application Release Automation: Excludes use of BladeLogic agent for server compliance, remediation, configuration, patching, and provisioning tasks.

BMC Atrium Orchestrator Service Desk Automation Pack – User License Add-on: The Product excludes the use of any other BMC developed runbook besides Service Desk Automation and product components (peers, base adapters, and application adapters) for other use cases including but not limited to event triage and remediation where an event management solution, such as BMC TrueSight Operations Management or other third party tool, is the generator of incidents, or closed loop compliance use cases where change requests are generated by a configuration management solution, such as BMC Server Automation or other third party tool.

BladeLogic Automation Suite – Base License:

- Excludes use of the Threat Director capabilities in BladeLogic Portal except for the first 100 enrolled server endpoints and 100 enrolled network device endpoints.
- Excludes use of BMC Atrium Orchestrator as follows:
 - BMC Atrium Orchestrator Content – Excludes the use of any workflow or runbook content other than Management and Utility actions found in the Operations Management module. Excludes the use of any base adapter. Excludes the use of any non-BMC product application adapter.

- o BMC Atrium Orchestrator Platform – Excludes the use of additional licensed capacity other than what is listed here: 1 peer, 3 Development Studio named user licenses, and 5 Development Studio user licenses. This entitlement is a 1-time grant across all BMC products that include this access and rights are not cumulative.

BladeLogic Database Automation: Excludes the use of the BMC Database Automation agent for multiple operations. Once the agent is registered within the console and a job has been executed against the target, the Product license has been consumed.

BladeLogic Server Automation – Compliance Module: Excludes use of BladeLogic agent for server configuration, patching, and provisioning tasks.

BladeLogic Server Automation – Configuration Module: Excludes use of BladeLogic agent for server compliance, remediation, and provisioning tasks.

BladeLogic Server Automation – Provisioning Module: Excludes use of BladeLogic agent for server configuration, patching, compliance, and remediation tasks.

BladeLogic Server Automation Suite: Excludes the use of BladeLogic agent for the application packaging and deployment of internally built, proprietary, or custom-developed code.

BMC Capacity Management for Mainframes: Any BMC Capacity Management for Mainframes Product and/or any BMC Performance Analyzer for Mainframes, BMC Performance Predictor for Mainframes, BMC Performance Perceiver for Mainframes, BMC Performance Analyzer for Mainframe Applications and other related products that may be released as part of the BMC Capacity Management for Mainframes must be licensed for all Computer(s) within the mainframe environment for which the Product or one of its components will process data or execute functionality on behalf of, regardless of whether the Product or one of its components is specifically installed on that Computer. The Products may be installed on or moved to any Computer(s) included in the licensed environment.

BMC Capacity Management Products: Any BMC Capacity Management product for distributed systems environments can be reassigned over time from one Computer to another provided that no data related to the first Computer remains stored in the Capacity Management Product repositories.

BMC Cloud Lifecycle Management – Core License Add-on (“CLM Core”):

- The Product may only be used in a Cloud Environment.
- The Product includes the right to use BMC Network Automation for the network devices in the Cloud Environment as long as the number of supported Network Devices does not exceed the Licensed Capacity. The Product includes the right to use BMC Network Automation only in order to enable the initial provisioning, on-going network operations, and use of the Virtual Data Center feature for Network Devices in the Cloud Environment. The Product does not include the right to use BMC Network Automation for the management of Network Devices that are not in a BMC Network Automation Pod.
- The Product includes the right to use BMC Atrium Orchestrator for the Licensed Capacity, only in order to deliver the process orchestration use cases that are installed out-of-the-box. The Product does not include the right to use any other functional capabilities or product components, including, but not limited to peers, adapters, and runbook content.

BMC Cloud Lifecycle Management – Standard Pack License Add-on (“CLM Standard”):

- The Product may only be used in a Cloud Environment.
- If Customer is also a Cloud Service Provider then Product cannot be used by the Cloud Service Provider for other environments, including but not limited to the Cloud Service Provider's internal IT environment, or System Integration activities for Clients which are not part of Cloud Services. The Product may not be installed on Client premises or accessed or used directly by Clients.
- The Product includes expanded license rights for BMC Atrium Orchestrator including unlimited peer licenses, use of all generally available Base Adapters, and Development Studio and Operator Control Panel user licenses to support the Licensed Capacity. The Product does not include the right to use any other Application Adapters or Runbook content other than what is installed out-of-the-box.
- Customer may only use the BMC Remedy Service Request Management functionality of the BMC Remedy ITSM product. The Product includes the right to use BMC Remedy Service Request Management for any number of users, to support any service requests that are directly related to the delivery or consumption of Cloud Services, for the Licensed Capacity.
- The Product includes the right to use BMC Network Automation for the network devices in the Cloud Environment as long as the number of supported Network Devices does not exceed the Licensed Capacity. The Product includes the right to use BMC Network Automation only in order to enable the initial provisioning, on-going network operations, and use of the Virtual Data Center feature for Network Devices in the Cloud Environment. The Product does not include the right to use BMC Network Automation for the management of Network Devices that are not in a BMC Network Automation Pod.
- The Product includes the right to use BMC Atrium Orchestrator for the Licensed Capacity, only in order to deliver the process orchestration use cases that are installed out-of-the-box. The Product does not include the right to use any other functional capabilities or product components, including, but not limited to peers, adapters, and runbook content.
- The product includes the right to use BMC TrueSight Capacity Optimizer for Servers for the Licensed Capacity only in order to enable the out-of-the-box Capacity Aware Placement Advice capability as part of the CLM Resource Manager. The Product does not include the rights to use any other functional capabilities of BMC TrueSight Capacity Optimization,

including but not limited to, the use of BMC TrueSight Capacity Optimization for capacity planning, virtualization and consolidation; capacity analysis, forecasting, reporting and dashboards; and capacity metering for showback or chargeback.

BMC Cloud Lifecycle Management – Foundation Standard Pack License Add-on (“CLM Foundation”):

- The Product may only be used in a Cloud Environment.
- If Customer is also a Cloud Service Provider then The Product cannot be used by the Cloud Service Provider for other environments, including but not limited to the Cloud Service Provider's internal IT environment, or System Integration activities for Clients which are not part of Cloud Services. The Product may not be installed on Client premises or accessed or used directly by Clients.
- The Product includes expanded license rights for BMC Atrium Orchestrator including unlimited peer licenses, use of all generally available Base Adapters, and Development Studio and Operator Control Panel user licenses to support the Licensed Capacity. The Product does not include the right to use any other Application Adapters or Runbook content other than what is installed out-of-the-box.
- The Product includes the right to use the BladeLogic Server Automation (BBSA) for Server Provisioning and Software Deployment functionality only. The Product does not include the right to use any other functionality of BBSA, including, but not limited to, patching, compliance, application release automation, configuration management, discovery, inventory, and nsh-scripting.
- Customer may only use the BMC Remedy Service Request Management functionality of the BMC Remedy ITSM product. The Product includes the right to use BMC Remedy Service Request Management for any number of users, to support any service requests that are directly related to the delivery or consumption of Cloud Services, for the Licensed Capacity.
- The Product includes the right to use BMC Network Automation for the network devices in the Cloud Environment as long as the number of supported Network Devices does not exceed the Licensed Capacity. The Product includes the right to use BMC Network Automation only in order to enable the initial provisioning, on-going network operations, and use of the Virtual Data Center feature for Network Devices in the Cloud Environment. The Product does not include the right to use BMC Network Automation for the management of Network Devices that are not in a BMC Network Automation Pod.
- The product includes the right to use BMC Capacity Optimization for the Licensed Capacity only in order to enable the out-of-the-box Capacity Aware Placement Advice capability as part of the CLM Resource Manager. The Product does not include the rights to use any other functional capabilities of BMC Capacity Optimization, including but not limited to, the use of BMC Capacity Optimization for capacity planning, virtualization and consolidation; capacity analysis, forecasting, reporting and dashboards; and capacity metering for showback or chargeback.

CONTROL-M/Assist: Control-M/Assist may only be used to interface with the third party scheduler and may not be used to schedule or manage batch processes outside of the cross-scheduler dependencies.

Control-M Self Service Mobile Integration Kit: The Control-M Self Service Mobile Integration Kit is governed by the terms and conditions of the license agreement provided with the product.

BMC Database Automation – License Add-on: Excludes the use of the BMC Database Automation agent for multiple operations. Once the agent is registered within the console and a job has been executed against the target, the Product license has been consumed.

BMC Decision Support – Database Automation (5 Viewer/Query Licenses): Excludes use of Report Authoring module which must be licensed separately.

BMC Decision Support – Network Automation (5 Viewer/Query Licenses): Excludes use of Report Authoring module which must be licensed separately.

BMC Decision Support – Server Automation (5 Viewer, 1 Query License): Excludes use of Report Authoring module which must be licensed separately.

BMC FootPrints Service Core 5 Named User BASE Software Package: May be used with no more than three workspaces per instance and by no more than 15 named users.

FootPrints Service Core Dynamic SQL DB Link/DS DL: Customers using the module in replacement of the Microsoft SCCM add on module are required to only connect to databases that house Microsoft SCCM data. Customers using the module in replacement of the contact's supervisor approval feature can only use the module to connect to a DB that houses information about contacts and their supervisors.

BMC HR Case Management: The license enables the customer to use up to 300 Named MyIT Self Service users for each BMC HR Case Management licensed named user and up to 750 Named MyIT Self Service users for each BMC HR Case Management licensed concurrent user.

BMC Identity Products:

- **Internal User:** If a Product name includes the term “Internal User,” that Product can only be used by Customer's employees (full time and part time) and contractors whose information is being managed using the BMC IdM tools. Information on these users will typically be found in the HR database.
- **External User:** If a Product name includes the term “External User,” that Product can only be used by Customer's business partners and customers/ prospects whose information is being managed using the BMC IdM tools or Customer's employees

(full or part time)/contractors who are licensed to use one or more of the following BMC Identity Management Tools: (1) BMC Identity User Administration (2) BMC Identity Password Management (3) BMC Identity Compliance Manager, provided the users have no more than 2 logons (access points) being managed by the IdM tools.

- **Archive User:** If a Product name includes the term "Archive User," that Product can only be used by users whose identity information is stored within the IdM system but is not being actively managed; the information could be stored for the purpose of audit/ forensics etc.
- **Developer User:** If a Product name includes the term "Developer User," that Product can only be used by users who create or modify applications using the BMC Directory Management Studio.

BMC Mobile Device Management Products: For BMC Mobile Device Management (MDM) Products, any clickwrap agreement with AirWatch, LLC contained in the Products is void and of no effect. Customer's use of these Products is governed by the Agreement.

BMC Monitoring Only Products: Customer is not entitled to use analytics as further detailed in the Documentation.

BMC myIT Suite: Each named user shall be licensed for a maximum of three (3) Device Endpoints. "Device Endpoint" means a personal digital assistant or similar computing device. An additional user license is required for every 3 devices registered by a unique named user. For users who register a fourth device and for every multiple of 3 devices registered by a unique user, an additional license is consumed. When a device is unregistered and the total number of devices registered by a unique user falls below 4 or a multiple of 3 devices, a MyIT user license is released for reuse.

BMC Real End User Experience Monitoring and Analytics - Licensed Add-on Product: For synthetic transaction monitoring solutions, each instance of the execution server installed should be counted. For real end user transaction monitoring solutions, each instance of the watchpoint created should be counted.

BMC Remedy Products: Customer may not bypass or delay, in any way, the consumption of a concurrent or named user license to perform an activity that requires a user license (including, without limitation, submitting a ticket to a parallel form and then using workflow to perform the update without a license).

A Remedy instance is defined as a Remedy AR System server or server group sharing a common database.

Concurrent users are for use within one Remedy instance and may not be used in more than one instance.

Named user licenses cannot be shared between multiple people.

A hot backup license is a replicate of the Remedy production licenses on one backup server. Customer may access that backup server only when the customary server on which the AR System is installed fails or in preparation of that backup server for such situation.

BMC Remedy Smart Reporting component is limited to use with Remedy platform based ITSM applications (both delivered by BMC as well as custom-developed ITSM applications). It may not be used for reporting on non-ITSM applications.

Development License Restriction for BMC Remedy Products: If a Product name includes the term "Dev Lsn", Customer will restrict installation, access and use of such Product to a server dedicated to development and testing only, and will not allow any production or commercial activity on that server.

Load Balanced System Restriction for BMC Remedy Products: If Customer has multiple servers in a single logical environment pointing to a single AR System database instance, only one instance of Remedy "per Instance" licenses is required for installation on these servers (except for the AR System, which must be licensed for each server).

BMC Remedy and MyIT Products: Customer's perpetual license in the BMC Remedy and/or BMC MyIT Products does not include a perpetual license to the Google Maps service that is currently used for the map/location feature within BMC MyIT and BMC Remedy with Smart IT. BMC Remedy with Smart IT is available for download with any license of BMC Remedy Products.

License Allocation Restriction for BMC Remedy IT Service Management Suite Products: Notwithstanding anything to the contrary in this Order or the Agreement, and when the Product is licensed (i) on the "per named user" Unit of Measurement, Customer may exchange 5 named user licenses of the Product for 2 licenses of the same Product with the Unit of Measurement of "per concurrent user" or (ii) on the "per concurrent user" Unit of Measurement, Customer may exchange 2 concurrent user licenses for 5 licenses of the same Product with the Unit of Measurement of "per named user". Customer will not incur additional charges for such exchange of licenses so long as Customer does not exceed the Licensed Capacity of the Product granted to Customer, however, Customer must: (i) notify BMC in writing of its intent to exchange the Product Licenses and (ii) enter into a separate Order to reflect Customer's new Licensed Capacity and the new Unit of Measurement.

BMC Remedy IT Service Management: Excludes use of BMC Atrium Orchestrator as follows:

- BMC Atrium Orchestrator Content – Excludes the use of any workflow or runbook content other than Management and Utility actions found in the Operations Management module. Excludes the use of any base adapter. Excludes the use of any non-BMC product application adapter.
- BMC Atrium Orchestrator Platform – Excludes the use of additional licensed capacity other than what is listed here: 1 peer, 3 Development Studio named user licenses, and 5 Development Studio user licenses. This entitlement is a 1-time grant across all BMC products that include this access and rights are not cumulative.

BMC Remedy Service Desk: The license enables the customer to use up to 100 Named MyIT Base users for each BMC Remedy Service Desk licensed named user and up to 250 Named MyIT Base users for each BMC Remedy Service Desk licensed concurrent user.

License Allocation Restriction for BMC Remedy Service Management Products: Notwithstanding anything to the contrary in this Order or the Agreement, and when the Product is licensed (i) on the "per named user" Unit of Measurement, Customer may exchange 3 named user licenses of the Product for 1 license of the same Product with the Unit of Measurement of "per concurrent user" or (ii) on the "per concurrent user" Unit of Measurement, Customer may exchange 1 concurrent user license for 3 licenses of the same Product with the Unit of Measurement of "per named user". Customer will not incur additional charges for such exchange of licenses so long as Customer does not exceed the Licensed Capacity of the Product granted to Customer, however, Customer must: (i) notify BMC in writing of its intent to exchange the Product Licenses and (ii) enter into a separate Order to reflect Customer's new Licensed Capacity and the new Unit of Measurement.

BMC Remedy Service Management Suite: The license enables the customer to use up to 100 Named MyIT Base users for each BMC Remedy Service Management Suite licensed named user and up to 250 Named MyIT Base users for each BMC Remedy ITSM Suite licensed concurrent user.

BMC Remedy Service Management Suite: Each person can have only one user license type (named or concurrent). Each user can have one and only one type of concurrent user license: BMC Remedy Service Management Suite User license, BMC Remedy Service Desk User license, BMC Remedy Service Optimization User license, BMC Remedy Service Innovation User license.

BMC Server Automation – Compliance License Add-on: Excludes use of BladeLogic agent for server configuration, patching, and provisioning tasks.

BMC Server Automation – Configuration License Add-on: Excludes use of BladeLogic agent for server compliance, remediation, and provisioning tasks.

BMC Server Automation – License Add-on: Excludes the use of BladeLogic agent for the application packaging and deployment of internally built, proprietary, or custom-developed code.

BMC Server Automation – Patch License Add-on: Excludes use of BladeLogic agent for server compliance, remediation, and provisioning tasks.

BMC Server Automation – Provisioning License Add-on: Excludes use of BladeLogic agent for server compliance, remediation, and provisioning tasks.

BMC Service Desk Express Products: No terms in any Business Objects or Crystal license agreement embedded in the Product apply to the Product. Customer may make and operate 2 additional copies of the Product solely for internal pre-production configuration and testing purposes.

BMC Service Desk Express Suite Restriction for BMC Service Desk Express Products: When purchasing Concurrent User licenses for the "Service Desk Express" Product, regardless of the number of such licenses purchased and regardless of the number of purchases made (including future purchases), Customer is restricted via license keys to a total of (i) five Concurrent Users conducting a process in the report environment of the Crystal Reports "Web Server" product which is embedded in the "Service Desk Express" Product and (ii) two named users accessing the "Crystal Reports Professional" product which is bundled with the "Service Desk Express" Product.

BMC Subsystem Optimizer for IMS Restriction: The BMC Application Restart Control for IMS product and the MainView Batch Optimizer product that are shipped with the BMC Subsystem Optimizer for IMS (Subzero for IMS) License may only be used to manage, update and access IMS data as part of a Subzero for IMS implementation, unless Customer has separately licensed the BMC Application Restart Control for IMS product and the MainView Batch Optimizer product. Customer may not use the functionality of such Products for any other purpose.

BMC Subsystem Optimizer for DB2 Restriction: The BMC Application Restart Control for DB2 product and the MainView Batch Optimizer product that are shipped with the BMC Subsystem Optimizer for DB2 (Subzero for DB2) License may only be used to manage, update and access DB2 data as part of a Subzero for DB2 implementation, unless Customer has separately licensed the BMC Application Restart Control for DB2 product and the MainView Batch Optimizer product. Customer may not use the functionality of such Products for any other purpose.

License Restriction for BMC TrueSight Synthetic Monitor with Borland Silk Performer: The BMC TrueSight Synthetic Monitor with Borland Silk Performer product may only be used with BMC performance management products and BMC application performance management products.

BMC TrueSight Operations Management – Base License or BMC ProactiveNet Performance Management Suite – Base License: Excludes use of BMC Atrium Orchestrator as follows:

- BMC Atrium Orchestrator Content – Excludes the use of any workflow or runbook content other than Management and Utility actions found in the Operations Management module. Excludes the use of any base adapter. Excludes the use of any non-BMC product application adapter.

- BMC Atrium Orchestrator Platform – Excludes the use of additional licensed capacity other than what is listed here: 1 peer, 3 Development Studio named user licenses, and 5 Development Studio user licenses. This entitlement is a 1-time grant across all BMC products that include this access and rights are not cumulative.

c. **UNITS OF MEASUREMENT.** The following units of measurement apply to certain Products.

per adapter: A license is required for each installation of an adapter that interfaces with the Product.

per agent : A license is required for each unit of software with the official name of Remote Sys Call Daemon or RSCD Agent that can be deployed on a physical or virtual operating system.

per application: A license is required for all unique collection of application component templates and configuration objects used to form a single logical platform defined by the Customer.

per asset: A license is required for every physical or logical Server Endpoint, Client Endpoint, Device Endpoint, Data Center Rack, Data Center IP Sensor, or Other Endpoint monitored, managed or discovered by the Product. "**Client Endpoint**" means a laptop, desktop or other non-Server Computer. "**Device Endpoint**" means a personal digital assistant or similar computing device. "**Other Endpoint**" means a router, a switch, a hub, or other network device, peripheral or hardware instrument, as the case may be. A "**Server Endpoint**" is any virtual or physical Computer that provides a service for other Computers or users connected to it via the Internet, extranet, intranet, or other networked technologies.

per Cisco™ UCS Server: A license is required for each Cisco Unified Computing System (UCS) Server on which the Product is installed and/or manages regardless of whether the Product or one of its components is installed on that Server.

per Client Endpoint: A license is required for each Client Endpoint. "**Client Endpoint**" means a laptop, desktop or other non-Server Computer.

per component: A license is required for all objects that represent a physical or logical part of the service model.

per concurrent access license: A license is required for the maximum number of simultaneous sessions accessing the Product. Sessions are counted in packs of 5.

per concurrent session: A license is required for the maximum number of simultaneous sessions accessing the Product.

per concurrent user: A license is required for the maximum number of individual employees or contractors of Customer to whom simultaneous access has been granted to the Product on a computer or multiple computers.

per CPU – Full Capacity: A license is required for the total number of active, physical CPUs in each Computer upon which the Product is installed or which the Product manages, either remotely or locally. "**CPU**" means a physical processor or central unit in a designated Computer containing the logic circuitry that performs the instructions of a Computer's programs and refers to the "socket" which can contain one or more processor cores.

per CPU – Subcapacity: A license is required for all active, physical CPUs which the Product manages, either remotely or locally. "**CPU**" means a physical processor or central unit in a designated Computer containing the logic circuitry that performs the instructions of a Computer's programs and refers to the "socket" which can contain one or more processor cores.

per database: A license is required for the total allocated database space per host ID or physical Computer which the Product is managing. The total allocated database capacity cannot be segregated or aggregated into lower or higher ranges.

per deployed robot: A license is required for all PATROL End-to-End Response Timer robots deployed.

per Device Endpoint: A license is required for each Device Endpoint. "**Device Endpoint**" means a personal digital assistant or similar computing device.

per engine: A license is required for each mainframe general purpose engine on the server upon which the Product is installed and/or manages regardless of whether the Product or one of its components is installed on that Server.

per enterprise: A license is required per Customer and per Client each, regardless of the number of times Customer installs the Product in its Enterprise or its Client's Enterprise. "**Client**" means a third party whose data is processed by Customer and is only permitted if Customer is an authorized BMC service provider.

per gigabyte: A license is required for the total allocated database space of all Computers on which the Product has been installed or operated.

per gigabyte range: A license is required for the total allocated database space per host ID or physical Computer which the Product is managing. The Product may not be moved to another Computer unless the current Computer is taken out of service. The total allocated database capacity cannot be segregated or aggregated into lower or higher ranges among different Computers. For example: if Customer licenses 26-50 gigabytes, the Customer is only licensed for a maximum of 50 gigabytes in total across all the databases of the licensed Product on one particular Computer.

per installed server: A license is required for each Server (with a Classification at the appropriate Tier level, if applicable) upon which the Product or any of its components is installed.

per instance: A license is required for all named occurrences of the Product created or installed in the Enterprise.

per Linux engine: A license is required for all engines of a mainframe Computer on which Customer is running Linux, when applicable classified by Linux Group using BMC's standard Computer classification.

per managed asset – Device Endpoint: A license is required for every Device Endpoint that is monitored, managed, or discovered by the Product(s). A "**Device Endpoint**" can be any virtual or physical Non-Server Client Computer (e.g. laptop, desktop computer, PDA, smart phone); any Network device (e.g. router, switch, hub) standalone or chassis-based device/card/processor using a unique-IP address (also includes virtual network devices managed through the IP address of its physical host); and independent Storage (e.g. a disk array, a fiber switch, a tape library, a switch director). When applicable, the license must be computed at the appropriate tier level.

per managed asset – Server Endpoint: A license is required for every Server Endpoint monitored, managed (directly or indirectly), or discovered by the Product(s). A "**Server Endpoint**" is any virtual or physical Computer that provides a service for other Computers or users connected to it via the Internet, extranet, intranet, or other networked technologies. For purposes of clarity, a Server Endpoint includes containers.

per managed component: A license is required for all objects that represent a physical or logical part of the service model managed by the Product.

per managed network device: A license is required for each Network Device managed using a unique IP-address. "**Network Device**" means a standalone or chassis-based network device/card/processor.

per managed server: A license is required for each Server managed by the Product or one of its components whether locally or remotely. When applicable, this license must be computed at the appropriate tier level based on the cumulative count of managed servers. Network Devices are not counted as Servers. This license does not include the Product's installation on or management of Integrated Facility for Linux (IFL) engines. "**Network Device**" means a standalone or chassis-based network device/card/processor.

per MIPS: A license is required for the total aggregate number of MIPS for each Computer, including all Computers coupled in a parallel Sysplex environment, upon which the Product is installed, or which is managed or monitored by the Product. MIPS Rating is the aggregate computing power (expressed in millions of instructions per second) of a Computer, using the MIPS rating set forth in the then current Gartner Group Rating Guide. Computer-specific passwords will be issued for the Product.

per monitored element: A license is required for all remotely monitored elements, such as a Server, database, operating system, URL, firewall, storage, or network device.

per monitored server: A license is required for each Server (with a Classification at the appropriate Tier level, if applicable) which the Product or one of its components is monitoring regardless of whether the Product is monitoring it locally or remotely.

per named user: A license (with a Classification at the appropriate Level, if applicable) is required for each individual employee or contractor or client of Customer. When user-based interaction is required, a license is required for all individuals for whom access has been granted to the Product on a computer or multiple computers typically via the issuance of a unique ID regardless of whether the individual is actively using the Product at any given time.

per node: A license is required for every Node which the Product manages and/or monitors. "**Node**" means a laptop, desktop, mobile device, or any virtual or physical Computer that provides a service for other Computers or users connected to it via the Internet, extranet, intranet, or other networked technologies.

per port: A license is required for each port. A port is defined as a physical connection point used by a storage device to connect other devices or systems. For the purpose of BMC licensing, all active ports (Fibre Channel, iSCSI, etc.) for all managed devices (storage arrays, filers, tape libraries, etc.) are counted. Ports on hosts, gateways and switches are not to be counted.

per project: A license is required for each specific project, facility or business unit, as the case may be specified at the time of order.

per Server Endpoint: A license is required for each Server Endpoint. A "**Server Endpoint**" is any virtual or physical Computer that provides a service for other Computers or users connected to it via the Internet, extranet, intranet, or other networked technologies.

per Service Management MIPS: A license is required for the total aggregate number of MIPS for each Computer, including all Computers coupled in a parallel Sysplex environment, upon which the Product is installed, managed or monitored. MIPS Rating is the aggregate computing power (expressed in millions of instructions per second) of a Computer, using the MIPS rating set forth in the then current Gartner Group Rating Guide.

per site: A license is required for the physical site at which the Product is installed regardless of the number of times the Product is installed.

per task: For all Control-M Products, except those that run exclusively in the Mainframe environment, a license is required for the maximum number of Tasks (as defined below) present in the Control-M "Active Jobs" databases in any 24-hour period,

regardless of whether the Tasks execute or not. For the Control- M Products that run exclusively in the Mainframe environment, a license is required for the maximum number of Tasks (as defined below) present in solely the Mainframe environment's Control-M "Active Jobs" database. Tasks in the Control-M "Active Jobs" databases include all Tasks in all Distributed Systems and/or Mainframe environments in any 24-hour period (including but not limited to development, staging, QA, pre-production, production, and test environments), except that, (i) SMART folders/table and sub-folders/tables which contain scheduling definitions and are listed as tasks in the "Active Jobs" databases are not counted as Tasks, (ii) Tasks that have time zone settings may remain in the "Active Jobs" databases for up to three consecutive days, but are only counted as one Task, (iii) a Task that runs more than once during the day (with the same Order ID) is counted as one Task – this includes Tasks that are rerun and cyclic Tasks, and (iv) Tasks that are provided for by licenses under alternative Units of Measurement (i.e. tier or MIPS) are not considered Tasks under this "per task" unit of measurement. The number of steps or scripts executed within the named Task shall have no bearing upon the number of Tasks licensed. "Task" is interchangeable with "job" and means an executable command containing the name of the JCL, CL, DCL, ECL, script or dummy processes that is scheduled to execute, as well as the scheduling criteria, flow control, and resource usage.

per terabyte: A license is required for the total aggregate storage capacity in the Enterprise

per third-party software: A license is required for each installation of the third-party software product that interfaces with the Product.

23. INTENDED BENEFICIARIES. DAS and BMC are the only parties to this Agreement and are the only parties entitled to enforce the terms of this Agreement. Nothing in this Agreement gives, is intended to give, or shall be construed to give or provide any benefit or right not held by or made generally available to the public, whether directly, indirectly or otherwise, to third persons unless the third persons are individually identified by name herein and expressly described as intended beneficiaries of the terms of this Agreement. The State of Oregon, its agencies and ORCPP members are intended beneficiaries of the terms of this Agreement.

Each party hereto warrants and represents that a duly authorized representative of such party has executed this Agreement and this Agreement constitutes the legal, valid and binding obligation of such party. Where a party has executed this Agreement using an electronic or digital signature, such party warrants and represents that the signature is legally binding and satisfies all legal requirements.
