

BMC Master License Agreement

5404

Readme file

When issuing a PO for BMC products you will need to reference MLA 5404.

The MLA covers BMC software products available at the time of signature. If you are unsure if the BMC product is covered under this MLA you will need to verify through the VAR or BMC representative.

Please work with your VAR representative to assure this MLA is associated with the purchase.

The MLA is not a purchase agreement it is a licensing agreement between the State and BMC. All purchases must be made from a State contract or from a Value Added Reseller such as SHI.

The ordering agency *ONLY* signs the PO to the VAR or other reseller. The purchasing agency should not sign any BMC documents unless they have a preexisting contract with BMC directly.
