3/23/2020

To our valued customers:

Our Staff would like to assure you that Oregon Surplus Property is closely monitoring and following the current guidance from Federal and State government and health authorities regarding COVID-19 virus to make sure we are taking the right actions to protect our employees, customers, and agency partners.

As an essential business, our offices and warehouse remain open; however, **effective today (March 23, 2020) our warehouse will be closed to the public, until we receive different directions from our management.** Customers picking up merchandise purchased on auction will be allowed to pick up their items as long as they have scheduled their arrival date/time in advance.

We have implemented a full variety of measures to safeguard the health of our staff and anyone who comes in contact with us, while ensuring to every extent possible the full continuity of our business. We are receiving and processing property and maintaining inventory as well as supporting our community partners to store and property and support database users.

We have taken the necessary safety and hygiene measures for all at work staff, including reducing the number of individuals physically on the production floor to ensure safe distancing practices. Although some of our administrative employees are working remotely, they are supported by the latest technology and can provide the same excellent service as they could if they were in house. We have restricted outside public access to our building to only as needed.

Oregon Surplus stands ready to support the needs of our employees, agency partners, and end-user customers. Oregon Surplus website and inventory database is available for immediate reference at www.OregonSurplus.com.

We remain vigilant in upholding these practices and will take additional precautions as recommended by the Centers for Disease Control & Prevention (CDC), World Health Organization (WHO), and local governments.

Stay safe and healthy!
