Subject: Chiropractic physician participation in Managed Care Organization (MCO) panels

You requested information about chiropractic physicians on panels for the four authorized managed care organizations. MCOs do not set specific limits on the number of chiropractic physicians allowed on a panel. Rather, MCOs base the number on what is needed to provide quality medical services to enrolled workers and ensure enrolled workers have access to quality health care services.

The table below shows the number of chiropractic physician panel providers for each of the MCOs by geographic area. Note that only two of the four MCOs are statewide.
