Good morning everyone! I spoke with several leaders in Amazon yesterday afternoon. Due to the time constraints of our meetings and fact they are a national company addressing COVID-19 protocol at all their facilities, they submitted to me their blog which outlines what steps Amazon is taking to address the outbreak.

I ask that the following link be included in our meeting records for folks to review. It spells out all the things that Amazon is doing to address COVID-19 at all of their facilities, including those in Oregon.

I encourage each member to review this material when considering testimony regarding their operations.

Thank you!
