Re: Invitation to meeting – collection of workers' Social Security numbers on injury reporting forms

On July 20, 2020, the workers' compensation Management-Labor Advisory Committee sent the following recommendation to Gov. Kate Brown:

The Department of Consumer and Business Services (DCBS) should convene a stakeholder group to discuss the use of the Social Security number on the Form 801 Report of Job Injury or Illness (issue 1). The committee heard concerns that the use of a Social Security number on the most common injury reporting form has a chilling effect on workers filing claims. Because the reporting form is used by many entities for a variety of purposes, the committee supports further discussion before the agency makes any change to this requirement. The agency should start meetings as soon as possible.

Interested people are invited to attend a virtual meeting to discuss this issue.
