INFORMATION REQUESTED

The 2001 Legislature passed Senate Bill 786 (ORS 676.400), which requires that health professional regulatory boards maintain information regarding racial, ethnic and bilingual status of licensees and applicants and report to the data to the Legislature.

This law was the result of a study performed by the Governor’s Racial and Ethnic Health Task Force, which determined that access to health care by racial and ethnic minorities is inadequate to address the chronic health issues these communities face. People of color and people with native languages other than English experience extreme difficulty accessing health services. Culturally competent health care providers are critical in providing appropriate health care and the collection of the information requested below will assist decision makers in developing programs to address the disparity in access to health care experienced by various communities.

See the reverse of this page for racial and ethnic definitions from the State of Oregon employment documents and the US Census Bureau.

Provision of this information is voluntary. If you choose not to provide the information, it will have no effect on the acceptance or processing of your application or renewal.
