

The Oregon Health Authority is putting out a call to current and previously licensed healthcare professionals in Oregon to register with **SERV-OR** to volunteer in support of COVID-19 vaccination efforts. As you know, health care resources are strained, and communities need health care professionals who can make themselves available to join the response.

[Sign up](#) today.

What is [SERV-OR](#)?

The **State Emergency Registry of Volunteers in Oregon ([SERV-OR](#))** is a statewide pool of licensed and retired: dentists, dental hygienists, dental assistants, and other health care professionals who are willing to volunteer in response to Federal, State, and/or local emergencies.

How can you help as a volunteer professional, after registering with [SERV-OR](#)?

There are several ways you may be asked to help, depending on the need.

You may be asked to:

- Administer COVID-19 Vaccine
- Fill various logistical, administrative, or clinical support roles at mass vaccination events
- Work from home supporting public health vaccine data entry

You also may have colleagues who are former health care professionals, and they can be part of this effort too!

- Previously licensed health care professionals volunteers may register in [SERV-OR](#) to volunteer **if their licenses expired fewer than 10 years ago and were in good standing at the time their licenses lapsed.**
- They may register at [SERV-OR](#) with their local **Medical Reserve Corps Unit** and the **State Managed Volunteer Pool for Previously Licensed Volunteers**
- They will receive a no-cost background check and be asked to complete required training before they can deploy

Thank you for considering who else may be available to participate in this important effort, even if they have left the health care workforce.

Thank you for doing your part to keep all of Oregon safe! We ask that you visit [SERV-OR](#) and [sign up](#) today.
