At the second hearing held February 3, 2005, many educators expressed criticism of specific rule changes. As a result, several of the points the Board negotiated into the rule were not kept. UNFINISHED BUSINESS

The Oregon Board of Dentistry received a letter from ODA's Beryl Fletcher regarding clarification for weekly monitoring of sterilizers.

The Board clarified that the testing does not have to be that involved, CDC requirements are fine. As long as sterilizers are tested weekly in an accurate manner (including use of testing kits) then they are fine. Dentists are also advised to check with their insurance companies to see if they have a specific timeframe that they wish records to be kept.

Discussion regarding interpretation of rules adopted in January regarding Limited Access Permits.

Sean Benson of the ODA stated that there seems to be some confusion by many hygienists whether the Board expanded the scope of LAPs when they expanded the scope of dental hygiene. Mr. Braatz pointed out that the Board may not expand the scope of unsupervised practice of a limited access Dental Hygienist by rule. Paul Cosgrove also brought up the fact that although the Board cannot change the scope of LAPs currently, with the eventual passing of HB Bill 2426, the rule changes will eventually apply to LAP hygienists as well, when the Bill becomes law.

CORRESPONDENCE

The Board received a letter from Michelle Duwe, Harrell Medical, Inc.

Per the Board's request, HMI provided more information regarding the new McCUE Variable Pulsed Light Technology, seeking to gain Board approval for use in the dental community. The Board indicated that the McCUE could only be used within the scope of dentistry.

The Board received a letter from Carol Knapp, R.N., M.S., Jackson County.

Carol Knapp is currently the co-coordinator for Jackson County's Bioterrorism and Emergency Preparedness Team. She is inquiring, in an emergency situation, would Dentists and/or Dental Hygienists be permitted to dispense antibiotics to the general public under the guidance of the county's Health Officer. It was decided that the Board did not have the power to make that decision.

The Board received a letter from William E. Zepp, CAE, ODA

Mr. Zepp notified Mr. Braatz that the ODA's Board of Trustees took official position relative to the practice of Dental Hygiene. It is for the Board's information only.

Ms. Beach sent the Board a letter regarding LAP licensure and the requirement of 5,000 hours of supervised clinical practice. She asked that the Board consider modification of the rules or to possibly develop an alternate pathway. After discussion and review, the Board decided that the LAP rules will remain as is.

The Board received a letter from Gordon S. Anderson, D.D.S.

Dr. Anderson is petitioning the Board for an extension to complete his required CE courses needed to renew his dental license. The Board granted the request for an extension seeing as Dr. Anderson had already made progress in completing the hours required.
