

CITY OF MILWAUKIE

December 16, 2019

Kathleen George, Chair
Oregon Environmental Quality Commission
Department of Environmental Quality
700 NE Multnomah Street, Suite 600
Portland, OR 97232-4100

Re: Petition for Indirect Source Rules for Construction and Operation

Dear Chair George:

The undersigned respectfully requests that the Oregon Environmental Quality Commission initiate a rulemaking process for new indirect source rules to regulate air contaminants produced by aggregate mobile source emissions associated with the construction and operation of indirect sources. These aggregate air pollution emissions contribute to unhealthy diesel pollution concentrations, health inequities and climate change.

Mobile emissions are not addressed in the state's new air toxics regulatory program, Cleaner Air Oregon, and regulations from HB 2007 will not meaningfully affect the emissions from indirect sources. Indirect source rules limit aggregate air pollution from areas with concentrated emissions from mobile sources. This approach in other jurisdictions has effectively reduced pollution that harms health and contributes to climate change.

Indirect source rules also help address the inequitable health risks of localized air pollution. The uneven spatial pattern of pollution often poses higher adverse health risks for communities of color and low-income populations.

Improving health and meeting carbon emission reduction goals are local, regional and statewide commitments. These commitments require new methods and collaboration. Despite local and state leadership, the United Nations' Intergovernmental Panel on Climate Change warned that we have 12 years to limit climate catastrophe. Indirect source rules address needed carbon reductions and localized diesel exhaust impacts.

CITY OF MILWAUKIE

City leaders across Oregon urge the state to explore this effective tool for building a livable future. Recognizing this work will require additional funding, we also support the allocation of additional resources to the Department of Environmental Quality to implement new indirect source rules. We also welcome the opportunity to participate in a rulemaking process. The Commission is uniquely situated to craft an equitable, statewide policy to help improve health of Oregonians and limit the climate catastrophe.

Sincerely,

Ted Wheeler
Mayor, City of Portland

ORS 183.390: Oregon Administrative Procedures Act, Adoption of Rules

183.390 Petitions requesting adoption of rules

(1) An interested person may petition an agency requesting the promulgation, amendment or repeal of a rule. The Attorney General shall prescribe by rule the form for such petitions and the procedure for their submission, consideration and disposition. Not later than 90 days after the date of submission of a petition, the agency either shall deny the petition in writing or shall initiate rulemaking proceedings in accordance with ORS 183.335.

(2) If a petition requesting the amendment or repeal of a rule is submitted to an agency under this section, the agency shall invite public comment upon the rule, and shall specifically request public comment on whether options exist for achieving the rule's substantive goals in a way that reduces the negative economic impact on businesses.

(3) In reviewing a petition subject to subsection (2) of this section, the agency shall consider:

- (a) The continued need for the rule;
- (b) The nature of complaints or comments received concerning the rule from the public;
- (c) The complexity of the rule;
- (d) The extent to which the rule overlaps, duplicates or conflicts with other state rules or federal regulations and, to the extent feasible, with local government regulations;
- (e) The degree to which technology, economic conditions or other factors have changed in the subject area affected by the rule; and
- (f) The statutory citation or legal basis for the rule. [1957 c.717 §5; 1971 c.734 §8; 2003 c.749 §6]

OAR 137-001-0070: Model rules for rulemaking

137-001-0070

Petition to Promulgate, Amend, or Repeal Rule

OAR 137-001-0070 was adopted by the Attorney General as required by ORS 183.390. Agencies must apply this rule without further adoption or amendment.

(1) An interested person may petition an agency to adopt, amend, or repeal a rule. The petition shall state the name and address of the petitioner and any other person known to the petitioner to be interested in the rule. The petition shall be legible, signed by or on behalf of the petitioner, and shall contain a detailed statement of:

- (a) The rule petitioner requests the agency to adopt, amend, or repeal. When a new rule is proposed, the petition shall set forth the proposed language in full. When an amendment of an existing rule is proposed, the rule shall be set forth in the petition in full with matter proposed to be deleted and proposed additions shown by a method that clearly indicates proposed deletions and additions;
- (b) Facts or arguments in sufficient detail to show the reasons for and effects of adoption, amendment, or repeal of the rule;

(c) All propositions of law to be asserted by petitioner.

(2) If the petitioner requests the amendment or repeal of an existing rule, the petition must also contain comments on:

(a) Options for achieving the existing rule's substantive goals while reducing the negative economic impact on businesses;

(b) The continued need for the existing rule;

(c) The complexity of the existing rule;

(d) The extent to which the existing rule overlaps, duplicates, or conflicts with other state or federal rules and with local government regulations; and

(e) The degree to which technology, economic conditions, or other factors have changed in the subject area affected by the existing rule, since the agency adopted the rule.

(3) If a petition requests the amendment or repeal of a rule, before denying a petition, the agency must invite public comment upon the rule, including whether options exist for achieving the rule's substantive goals in a way that reduces the negative economic impact on businesses.

(4) The agency:

(a) May provide a copy of the petition, together with a copy of the applicable rules of practice, to all persons named in the petition;

(b) May schedule oral presentations;

(c) Shall, in writing, within 90 days after receipt of the petition, either deny the petition or initiate rulemaking proceedings.

Oregon Administrative Rules 340-254: Rules for Indirect Sources

340-254-0010

Policy

The Commission finds and declares Indirect Sources to be air contamination sources as defined in ORS 468A.005. The Commission further finds and declares that the regulation of Indirect Sources is necessary to control the concentration of air contaminants which result from Motor Vehicle Trips and/or Aircraft Operations associated with the use of Indirect Sources.

Statutory/Other Authority: ORS 468 & 468A

Statutes/Other Implemented: ORS 468A.025

340-254-0030

Definitions

The definitions in OAR 340-200-0020, 340-204-0010 and this rule apply to this division. If the same term is defined in this rule and 340-200-0020 or 340-204-0010, the definition in this rule applies to this division.

(1) "Associated Parking" means a Parking Facility or facilities owned, operated, and/or used in conjunction with an Indirect Source.

(2) “Average Daily Traffic” means the total traffic volume during a given time period in whole days greater than one day and less than one year divided by the number of days in that time period, commonly abbreviated as ADT.

(3) “Commence Construction” means to begin to engage in a continuous program of on-site construction or on-site modifications, including site clearance, grading, dredging, or landfilling in preparation for the construction, installation, or modification of an Indirect Source. Interruptions and delays resulting from natural disasters, strikes, litigation, or other matters beyond the control of the owner shall be disregarded in determining whether a construction or modification program is continuous.

(4) “Department” means the Department of Environmental Quality.

(5) “Director” means the Director of the Department or Regional Authority and authorized deputies or officers.

(6) “Indirect Source” means a facility, building, structure, or installation, or any portion or combination thereof, which indirectly causes or may cause Mobile Source activity that results in emissions of an air contaminant for which there is a National Ambient Air Quality Standard. Such Indirect Sources shall include, but not be limited to:

- (a) Parking Facilities;
- (b) Retail, Commercial, and Industrial Facilities;
- (c) Recreation, Amusement, Sports, and Entertainment Facilities;
- (d) Office and Government Buildings;
- (e) Educational Facilities;
- (f) Hospital Facilities.

(7) “Indirect Source Construction Permit” means a written permit in letter form issued by the Department or Regional Authority having jurisdiction, bearing the signature of the Director, which authorizes the permittee to commence construction of an Indirect Source under construction and operation conditions and schedules as specified in the permit.

(8) “Indirect Source Emission Control Program” or “ISECP” means a program which reduces Mobile Source emissions resulting from the use of the Indirect Source. An ISECP may include, but is not limited to:

- (a) Posting transit route and scheduling information;
- (b) Construction and maintenance of bus shelters and turnout lanes;
- (c) Maintaining mass transit fare reimbursement programs;
- (d) Making a car pool matching system available to employees, shoppers, students, residents, etc.;

- (e) Reserving Parking Spaces for car pools;
- (f) Making Parking Spaces available for park-and-ride stations;
- (g) Minimizing vehicle running time within parking lots through the use of sound parking lot design;
- (h) Ensuring adequate gate capacity by providing for the proper number and location of entrances and exits and optimum signalization for such;
- (i) Limiting traffic volume so as not to exceed the carrying capacity of roadways;
- (j) Altering the level of service at controlled intersections;
- (k) Obtaining a written statement of intent from the appropriate public agency(s) on the disposition of roadway improvements, modifications, and/or additional transit facilities to serve the individual source;
- (l) Construction and maintenance of exclusive transit ways;
- (m) Providing for the collection of air quality monitoring data at Reasonable Receptor and Exposure Sites;
- (n) Limiting facility modifications which can take place without resubmission of permit application.
- (9) "Mobile Source" means self-propelled vehicles, powered by internal combustion engines including, but not limited to, automobiles, trucks, motorcycles, and aircraft.
- (10) "Off-Street Area or Space" means any area or space not located on a public road dedicated for public use.
- (11) "Parking Facility" means any building, structure, lot, or portion thereof, designed and used primarily for the temporary storage of motor vehicles in designated Parking Spaces.
- (12) "Parking Space" means any Off-Street Area or Space below, above, or at ground level, open or enclosed, that is used for parking one motor vehicle at a time.
- (13) "Person" means individuals, corporations, associations, firms, partnerships, joint stock companies, public and municipal corporations, political subdivisions, the State and any agencies thereof, and the federal government and any agencies thereof.
- (14) "Population" means that population estimate most recently published by the Center for Population Research and Census, Portland State University, or any other population estimate approved by the Department.
- (15) "Regional Authority" means a regional air quality control authority established under the provisions of ORS 468A.105.

(16) “Reasonable Receptor and Exposure Sites” means locations where people might reasonably be expected to be exposed to air contaminants generated in whole or in part by the Indirect Source in question.

(17) “Sensitive Area” means locations which are actual or potential areas containing Carbon Monoxide hotspots, as determined by the Department.

(18) “Vehicle Trip” means a single movement by a motor vehicle which originates or terminates at or uses an Indirect Source.

Indirect Sources Required to Have Indirect Source Construction Permits

The owner, operator, or developer of an Indirect Source identified in section (1) of this rule shall not commence construction of such a source without an approved Indirect Source Construction Permit issued by the Department or Regional Authority having jurisdiction.

(1) All Indirect Sources meeting the criteria of this section relative to type, location, size, and operation are required to apply for an Indirect Source Construction Permit: The following sources that are located within the boundaries of a Carbon Monoxide nonattainment area or maintenance area identified in the State Implementation Plan, provided that such areas include at least one city containing 50,000 or more Population within the city’s municipal boundary, including but not limited to Portland, Salem, Medford and Eugene. Any Parking Facility or other Indirect Source with Associated Parking being constructed or modified to create new or additional parking or Associated Parking, capacity of 1000 or more Parking Spaces, except within the Central City area of Portland as defined in the Carbon Monoxide Maintenance Plan and Redesignation Request for the Portland (Metro) Area, where the minimum number of Parking Spaces associated with an Indirect Source requiring Department approval shall be 800.

(2) Where an Indirect Source is constructed or modified in increments which individually are not subject to review under this rule, and which are not part of a program of construction or modification in planned incremental phases approved by the Director, all such increments commenced after January 1, 1975, shall be added together for determining the applicability of this rule.

(3) An Indirect Source Construction Permit may authorize more than one phase of construction where commencement of construction or modification of successive phases will begin over acceptable periods of time referred to in the permit; and thereafter construction or modification of each phase may be begun without the necessity of obtaining another permit.

Indirect Source Construction Permit Application Requirements for Parking Facilities

(1) For Parking Facilities subject to this regulation, the following information shall be submitted to the Department:

- (a) A completed Short Form Application;
- (b) A map showing the location of the site;
- (c) A description of the proposed and prior use of the site;
- (d) A site plan showing the location and quantity of Parking Spaces at the Indirect Source and Associated Parking area, points of motor vehicle ingress and egress to and from the site and Associated Parking;
- (e) An estimate of the annual average weekday Vehicle Trips generated by the movement of Mobile Sources to and from the Parking Facility and/or Associated Parking Facility for the first and fifth years after completion of each planned incremental phase of the Indirect Source;
- (f) A description of the availability and type of mass transit presently serving or projected to serve the proposed Indirect Source. This description shall include mass transit operation within 1/4 mile of the boundary of the Indirect Source;
- (g) Such additional information as may be required when there is reasonable basis for concluding:
 - (A) That the Indirect Source may cause or contribute to a violation of the Clean Air Act Implementation Plan for Oregon; or
 - (B) That the Indirect Source may cause or contribute to a delay in the attainment of or a violation of any applicable ambient air quality standard; or
 - (C) That the information is necessary to determine whether the proposed Indirect Source may cause or contribute to any such delay or violation. The Department shall base such conclusion on any reliable information, including but not limited to ambient air monitoring, traffic volume, traffic speed, or air quality projections based thereon.
 - (D) The additional information that may be required as a condition precedent to issuance of a permit may include any of that information required to be submitted in a Long Form Application by section (2) of this rule.
- (2) Additional Requirements for Sensitive Areas. For Indirect Sources proposed to be located within the boundaries of a Carbon Monoxide nonattainment area or maintenance area as specified in OAR 340-254-0040(1), the following Long Form Application information shall be submitted to the Department:
 - (a) All information required under section (1) of this rule;
 - (b) An estimate of the Average Daily Traffic, peak hour and peak eight hour traffic volumes for all roads, streets, and arterials within 1/4 mile of the Indirect Source and for all freeways and expressways within 1/2 mile of the nearest boundary of the Indirect Source for the time periods stated in subsection (1)(e) of this rule as they exist at the time of application;

(c) An estimate of the gross emissions of carbon monoxide, Volatile Organic Compounds, and oxides of nitrogen based on information required by subsections (1)(e) and (2)(b) of this rule;

(d) Estimated carbon monoxide at Reasonable Receptor and Exposure Sites. Estimates shall be made for the first, fifth, and tenth years after the Indirect Source and Associated Parking are completed or fully operational. Such estimates shall be made for the average and, if applicable, peak operating conditions.

(e) Evidence of the compatibility of the Indirect Source with any adopted transportation plan for the area;

(f) An estimate of the additional residential, commercial, and industrial developments which may occur concurrent with or as the result of the construction and use of the Indirect Source. This shall also include an air quality impact assessment of such development pursuant to subsection (2)(d) of this rule;

(g) A description of the Indirect Source Emission Control Program if such a program is necessary in order to be in compliance with the requirements of OAR 340-254-0070(5)(a), (b), and (c).

(3) Within 15 days after the receipt of an application for an Indirect Source Construction Permit or addition thereto, the Department or Regional Authority having jurisdiction shall advise the owner or operator of the Indirect Source in writing of any additional information required as a condition precedent to making a final determination to issue or deny a permit.

(4) An application shall not be considered complete until the required information is received by the Department or Regional Authority having jurisdiction. If no timely written request is made for additional information, the application shall be considered complete.

Issuance or Denial of Indirect Source Construction Permits

(1) Issuance of an Indirect Source Construction Permit shall not relieve the permittee from compliance with other applicable provisions of the Clean Air Act Implementation Plan for Oregon.

(2) Within 20 days after receipt of a complete permit application, the Department or Regional Authority having jurisdiction shall:

(a) Issue a 20 day notice and notify appropriate newspapers and any interested Person(s) who has requested to receive such notices in each region in which the proposed Indirect Source is to be constructed of the opportunity for written public comment on the information submitted by the applicant, the Department's evaluation of the proposed project, the Department's proposed decision, and the Department's proposed construction permit where applicable;

(b) Make publicly available in at least one location in each Department region in which the proposed Indirect Source would be constructed, the information submitted by the applicant, the Department's evaluation of the proposed project, the Department's proposed decision, and the Department's proposed construction permit where applicable.

(3) Within 60 days of the receipt of a complete permit application, the Department or Regional Authority having jurisdiction shall act to either disapprove a permit application or approve it with possible conditions.

(4) Conditions of an Indirect Source Construction Permit may include, but not be limited to:

(a) An Indirect Source Emission Control Program where it is necessary in order to be in compliance with the requirements of subsections (5)(a), (b), and (c) of this rule. The ISECP shall only contain control measures which have reasonably definable costs;

(b) Completion and submission of a Notice of Completion form prior to operation of the Indirect Source.

(5) An Indirect Source Construction Permit may be denied if:

(a) The Indirect Source will cause or contribute to a violation of the Clean Air Act Implementation Plan for Oregon;

(b) The Indirect Source will cause or contribute to a delay in the attainment of or cause or contribute to a violation of any National Ambient Air Quality Standard;

(c) The Indirect Source causes or contributes to any violation of any National Ambient Air Quality Standard by another Indirect Source or system of Indirect Sources;

(d) The applicable requirements for an Indirect Source Construction Permit application are not met.

(6) Any owner or operator of an Indirect Source operating without a permit required by this rule, or operating in violation of any of the conditions of an issued permit shall be subject to civil penalties and injunctions.

(7) Nothing in this rule shall preclude a Regional Authority authorized under OAR 340-254-0020 from setting the permit conditions for areas within its jurisdiction at levels more stringent than those detailed in this division.

(8) If the Department shall deny, revoke, or modify an Indirect Source Construction Permit, it shall issue an order setting forth its reasons in essential detail.

(9) An Indirect Source Construction Permit shall be applied for at least 90 days in advance of the anticipated start of construction.

Permit Duration

(1) An Indirect Source Construction Permit issued by the Department or a Regional Authority having jurisdiction shall remain in effect until modified or revoked by the Department or such Regional Authority.

(2) The Department or Regional Authority having jurisdiction may revoke the permit of any Indirect Source operating in violation of the construction, modification, or operation conditions set forth in this permit.

(3) An approved permit may be conditioned to expire if construction or modification is not commenced within 18 months after receipt of the approved permit; and, in the case of a permit granted covering construction or modification in approved, planned incremental phases, a permit may be conditioned to expire as to any such phase as to which construction or modification is not commenced within 18 months of the time period stated in the initial permit for the commencing of construction of that phase. The Director may extend such time period upon a satisfactory showing by the permittee that an extension is justified.
