

## Oregon's TMDL Priorities and Schedule

Based on Oregon's final 2010 Section 303(d) list of Category 5: Water Quality Limited Waters Needing a TMDL, Oregon's TMDL priorities and schedule have been determined for the next two years. The TMDLs will generally address all listed pollutants unless other control or management strategies are determined to be appropriate. For watersheds where a TMDL was recently completed and all listed pollutants were not addressed or additional pollutants are listed, TMDLs for the remaining pollutants will be scheduled upon completing this cycle of TMDLs. The sequence for developing TMDLs reflects Oregon's priorities, and the target date for completion is DEQ's goal.

Oregon established a prioritization process that was used to set TMDL priorities and schedules in 1998, 2002, and 2004. The 2010 TMDL Priorities and Schedule update priorities identified by that process and take into account TMDLs that have been completed and approved. In addition, 2011-2012 TMDL development priorities were established based on: subbasins addressed in Coastal Zone Reauthorization Act litigation settlement agreement (in 3<sup>rd</sup> Field HUC 171002 Northern Oregon Coastal), basins where no TMDLs have been developed, and facilities planning needs. DEQ anticipates that TMDL prioritization in the future could be based on Status Assessments and Action Plans developed as part of the Oregon Watershed Approach.

### 2010 TMDL Priorities and Schedule

Priority	3 <sup>rd</sup> or 4 <sup>th</sup> Field HUC	Name	Start Date for TMDL Development	Target Date for Completing TMDLs	Listed Pollutants To be addressed in scheduled TMDLs	2010 Listed Pollutants Not scheduled to be addressed
	<i>170703</i>	<i>Deschutes</i>				
1	17070301	Upper Deschutes	In development	2012	Temperature	Chlorophyll a, pH Lakes - Aquatic weeds or algae, chlorophyll a, dissolved oxygen, pH
1	17070301	Deschutes River in Upper Deschutes only	In development	2012	Chlorophyll a, dissolved oxygen, pH, sedimentation, temperature, turbidity	Reservoirs - Aquatic weeds or algae, chlorophyll a, dissolved oxygen, pH
1	17070302	Little Deschutes	In development	2012	Dissolved oxygen, temperature	Lakes - Aquatic weeds or algae, mercury
1	17070303	Beaver-South Fork	In development	2012	Temperature	
1	17070304	Upper Crooked	In development	2012	Temperature	
1	17070305	Lower Crooked	In development	2012	Temperature	

Priority	3 <sup>rd</sup> or 4 <sup>th</sup> Field HUC	Name	Start Date for TMDL Development	Target Date for Completing TMDLs	Listed Pollutants To be addressed in scheduled TMDLs	2010 Listed Pollutants Not scheduled to be addressed
1	Crosses 17070304 17070305	Crooked River (only)	In development	2012	pH, temperature, total dissolved gas	
<b>171002</b>		<b><i>Northern Oregon Coastal</i></b>				
1	17100204	Siletz-Yaquina	In development	2012	Dissolved oxygen, bacteria, temperature	Aquatic weeds or algae, sedimentation, turbidity  Lakes - Aquatic weeds or algae, chlorophyll a, pH  Ocean beaches - Enterococcus
1	17100205	Alsea	In development	2012	Dissolved oxygen, bacteria, temperature	Lakes - Aquatic weeds or algae, chlorophyll a
1	17100206	Siuslaw	In development	2012	Dissolved oxygen, bacteria, temperature	Biological criteria, sedimentation
1	17100207	Siltcoos	In development	2012	Temperature	Lakes - Aquatic weeds or algae
<b>171003</b>		<b><i>Southern Oregon Coastal</i></b>				
1	17100305	Coquille	In development	2012	Aquatic weeds or algae, chlorophyll a, dissolved oxygen, bacteria, iron, temperature
