

SOLID WASTE EXPORTED FROM OREGON/FEE CALCULATION

Oregon waste disposed of at out-of-state disposal sites

Mail to:
 Dept. of Environmental Quality
 Business Office
 700 NE Multnomah St. Suite #600
 Portland, OR 97232

Email:
 sw.feereporting@deq.state.or.us

For DEQ use only:

Date Rec'd _____
 Amount Rec'd _____
 Check No. _____

Name of Transporter: _____
 Address: _____

REPORTING PERIOD

(Check one)

Jan.-March April-June July-Sept. Oct.-Dec. 20 _____

One-time disposal Disposal Date: _____

Reports and required fees are due to DEQ no later than January 31, April 30, July 31 and October 31 for the previous quarter; or no later than 60 days after disposal, if disposal is not on-going.

INSTRUCTIONS FOR COMPLETING THIS FORM

Complete page two of this form first. Record the weight of all Oregon waste disposed of at out-of-state disposal sites receiving domestic solid waste for the reporting period. Calculation of the fees must be made on this form.

Use TOTAL TONS from page two of this form to perform the calculations below. Please submit one check to cover the total amount

<u>Oregon Waste Disposed of Out-Of-State</u>			
Tons: _____ <i>(page 2, step 2)</i>	x \$1.11 / ton	=	\$ _____
	x \$.13 / ton	=	\$ _____
Make checks payable to DEQ.	TOTAL DUE:		\$ _____

ORS 459A.110 and 459A.115, and ORS 340-97-110 and -120 require a person who transports solid waste (generated in Oregon) out of the State of Oregon to a disposal site that receives "domestic solid waste" to pay a solid waste disposal fee of \$1.11 per ton. In addition, ORS 459.236 and OAR 340-97-120 require such persons to submit a fee of 13 cents per ton for remedial action under the Orphan Site Account.

Domestic solid waste must be reported by county of origin.

Exemptions: The following types of out-of-state disposal sites do not qualify as receiving "domestic solid waste," and thus any Oregon waste delivered to such sites is exempt from this Uniform Application fee:

- (1) A disposal site limited to ONLY building demolition or construction wastes and land clearing debris;
- (2) An industrial waste facility;
- (3) An ash monofill receiving ash from an energy recovery facility;
- (4) A facility authorized by permit to store, treat or dispose of both hazardous waste and solid waste;
- (5) A site not required to have a solid waste permit, and which receives ONLY "clean fill" (soil, rock, concrete, brick, building block, tile or asphalt paving).

The following are also exempt from the fee: source-separated recyclable materials (including yard debris if it is delivered to a yard-debris compost facility), and sewage sludge or septic tank and cesspool pumpings. Waste that is approved for use as daily cover by local permitting authorities, and that is used for daily cover, is also exempt.

I CERTIFY that I am familiar with the information contained in this report and that to the best of my knowledge such information is true, complete and accurate.

SOLID WASTE EXPORTED FROM OREGON / FEE CALCULATION

Name of Transporter _____

Please report amount of waste for appropriate reporting period by Oregon county. Attach separate sheet for additional counties. By-county accuracy for "In-State/Domestic" SW is important. However estimates may be used.

The following materials do not need to be reported separately by county, but are included in the total tonnage on which fees are paid unless they are approved and used as daily cover:

- a) asbestos
- b) contaminated cleanup material
- c) industrial process wastes
- d) rubble, rock, and asphalt.

	County (Check box if estimating origin)	From Transfer Station or SW Processing facility	Direct to out-of-state disposal site	Tires and Tire Shreds (from all sources)	Total Tons
