REPORTING PERIOD

(Check one)

(Check one) Jan. - March April - June July - Sept. Oct. - Dec. 20_____

Reports and required fees are due to DEQ no later than January 31, April 30, July 31 and October 31 for the previous quarter.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form is for calculation and payment of DEQ solid waste permit fees (\$.58/ton), as well as solid waste disposal fee (\$1.11/ton) and the Orphan Site Account fee (\$.13/ton). See page 4 for more details and an explanation of types of waste to be included. **Complete pages 2 and 3 first.** Record the weight (if scales used) or volume of **all in-state** waste and **all out-of-state** waste received for the reporting period. Also report the weight of all in-state and all out-of-state alternative daily cover (ADC) received and/or used during the reporting period. Calculation of fees due must be made on this form, even if you also submit reporting information on your own forms.

Use TOTAL TONS from pages 2 and 3 to perform the calculations below.

Total In-State Solid Waste: # of Tons <i>(page 2, step 3)</i>	_____			
Total Out-of-State Waste: # of Tons <i>(page 3, step 5)</i>	_____			
Total "Counting" Waste Tires: # of Tons <i>(page 4 step 7)</i>	_____			
Total Tons Received in Reporting Period:	_____	X \$1.11/ton =	\$ _____	
		.13/ton =	\$ _____	
		.58/ton =	\$ _____	
 Sewage Sludge: # of Tons <i>(page 4, step 8)</i>	 _____	 X \$.58/ton =	 \$ _____	
		Fee Subtotal =	\$ _____	
 Approved Alternative Daily Cover (ADC) used: # of Tons <i>(page 3, step 6B)</i>	 _____	 X \$1.11/ton =	 \$ _____	
		.13/ton =	\$ _____	
		ADC Credit =	\$ _____	
Make check payable to DEQ.				
		Fee Subtotal - ADC Credit = TOTAL PAYMENT:	\$ _____	

I CERTIFY that I am familiar with the information contained in this report and that, to the best of my knowledge, such information is true, complete, and accurate.

SPECIFIED WASTE: If your site is authorized by the Department to receive "cleanup materials contaminated with hazardous substances," you must, on a quarterly basis, report the source, type, quantity, and date of waste received. Please attach to this form. (Include specified wastes as part of the amounts entered on this form.)

INSTRUCTIONS / EXPLANATION OF TYPES OF WASTE INCLUDED

SOLID WASTE PER TON DISPOSAL ("TIPPING") FEES. ORS 459A.110, OAR 340-097-0110 (2), and OAR 340-097-0120 (7) require each solid waste disposal site that receives domestic solid waste for final disposal or destruction to submit a per-ton solid waste disposal fee of \$1.11 per ton for all in-state and out-of-state domestic solid waste received up until March 31, 2019. For waste received after March 31, 2019, the per-ton solid waste disposal fee is \$1.18 per ton. ORS 459.236 and OAR 340-097-0120 also require such sites to submit a fee of \$.13/ton for remedial action under the Orphan Site Account. These two fees are not charged on sewage sludge.

SOLID WASTE PERMIT FEES. ORS 459.235 AND OAR 340-97-110 THROUGH -120 require solid waste disposal sites to pay a Solid Waste Permit Compliance Fee. The Permit Compliance fee is calculated at a rate of \$.58/ton for all solid waste received.

"Domestic Solid Waste" includes, but is not limited to, residential, commercial, and institutional wastes, as defined in ORS 459A.100, but does not include sewage sludge or septic tank and cesspool pumpings or waste received at an ash monofill from an energy recovery facility.

DO NOT INCLUDE SOURCE SEPARATED RECYCLABLE MATERIAL ON THIS FORM.

INSTRUCTIONS FOR PAGE 2. This form requests reports of the quantities of "counting" waste and "non-counting" waste received at your facility. This breakdown will help DEQ calculate more accurately the amount of solid waste disposed of for each county. "Counting" waste "counts" toward the solid waste disposal rate and must be reported by county of origin. The disposal rate is then used to calculate the county material recovery rate. Certain waste ("non-counting" waste) may, by law, be excluded from the disposal rate; if you record this waste separately, please list it in Part 2 of this form. INCLUDE BOTH "COUNTING" AND "NON-COUNTING" WASTE IN YOUR TOTAL TONNAGE FOR FEE CALCULATION PURPOSES.

"Counting" Resid./Comm./Construction and Demolition SW by County. "Counting" waste includes residential and commercial domestic solid waste; construction and demolition waste, such as lumber and wood, drywall (gypsum), glass, roofing material and similar materials. Report amounts of "counting" waste for the previous calendar quarter by county in Part 1. If you do not track "non-counting waste" (see below) separately, count all waste as "counting."

"Non-counting" waste. "Non-counting" waste is not reported by county. "Non-counting" wastes are whole or segregated loads of:

Asbestos

Contaminated cleanup material

"Industrial" woodwaste: Slash from logging and sawmills, and major land clearing debris.

Rubble, rock, asphalt, etc. Soil, dirt, concrete rubble and blocks, bricks, gravel, ash.

Oregon alternative daily cover (ADC)-qualified waste

Other industrial waste: Waste generated by industrial or manufacturing processes

Other wastes: Please specify type of waste on the line provided and contact DEQ to determine a conversion factor if you do not weigh the waste.

Waste from businesses that self-haul their own waste should be included in the "PRIVATE VEHICLES" column.

"TRANSFER STATIONS & SW PROC. FACILITIES" include only facilities with DEQ solid waste permits, and excludes facilities processing only source-separated recyclable materials.
