

SOLID WASTE DISPOSAL REPORT/ FEE CALCULATION

For Municipal Solid Waste Facilities Receiving More Than 1,000 Tons Per Year

Mail to:
Dept. of Environmental Quality
Business Office
700 NE Multnomah St., Suite 600
Portland, OR 97232

Email:
sw.feereporting@deq.state.or.us

For DEQ use only:

Date Rec'd _____
Amount Rec'd _____
Check No. _____

Facility Name: _____

SW Permit No.: _____

REPORTING PERIOD

(Check one)

Jan.-March April-June July-Sept. Oct.-Dec. 20_____

Required reports and fees are due January 31, April 30, July 31, and October 31 for the previous quarter.

INSTRUCTIONS FOR COMPLETING THIS FORM

This form is for calculation and payment of DEQ solid waste permit fees (\$.58/ton), as well as solid waste disposal fees (\$1.11/ton) and the Orphan Site Account fee (\$.13/ton). See page 4 for more details and an explanation of types of waste included. Complete pages 2 and 3 of this form first. Record the weight (if scales used) or volume of all in-state waste and out-of-state waste for the reporting period. If your solid waste permit does not require you to monitor and report amount of waste received, estimate population served by allocating the population between in-state and out-of-state. Compute tonnage by assuming one ton of waste per person per year. Calculation of the fees must be made on this form, even if you also submit reporting information on your own forms.

Use TOTAL TONS from pages 2 and 3 to perform the calculations below.

Total In-State Solid Waste: # of Tons (page 2, step 3)	_____		
Total Out-of-State Waste: # of Tons (page 3, step 5)	_____		
Total "Counting" Waste Tires: # of Tons (page 3 step 6)	_____		
Total Tons Received in Reporting Period:	_____	x \$1.11/ton =	_____
		x \$0.13/ton =	_____
		x \$0.58/ton =	_____
Sewage Sludge: # of Tons (page 4, step 8)	_____	x \$0.58/ton =	_____
		TOTAL PAYMENT:	_____

I CERTIFY that I am familiar with the information contained in this report and that, to the best of my knowledge, such information is true, complete, and accurate.

NAME (PRINT) _____ SIGNATURE _____ DATE _____

PHONE _____ EMAIL _____

SPECIFIED WASTE: If your site is authorized by the Department to receive "cleanup materials contaminated with hazardous substances," you must, on a quarterly basis, report the source, type, quantity, and date of waste received. Please attach to this form. (Include specified wastes as part of the amounts entered on this form.)

IN-STATE SOLID WASTE DISPOSAL WORKSHEET

1	COUNTY	WASTE COLLECTION SERVICE PROVIDERS		PRIVATE VEHICLES	TRANSFER STATIONS SW PROC. FACILITIES	
	OREGON COUNTY NAME	COMPACTED	UNCOMPACTED	UNCOMPACTED		
"Counting" Resid/Comm/Const. & Demolition SW by County		Yd T	Yd T	Yd T	Yd T	Indicate measurement by circling cubic yards (Yd) or tons (T). Attach separate sheet for additional counties. By-county accuracy is important for "counting" waste. However, estimates can be used. See page 4 for definition of "Counting" and "Non-counting" waste.
		Yd T	Yd T	Yd T	Yd T	
		Yd T	Yd T	Yd T	Yd T	
		Yd T	Yd T	Yd T	Yd T	
		Yd T	Yd T	Yd T	Yd T	
		Yd T	Yd T	Yd T	Yd T	
		Yd T	Yd T	Yd T	Yd T	
	Additional Counties From Attached Sheet	Yd T	Yd T	Yd T	Yd T	
	Subtotal: In-State "Counting" Waste (tons only)					
"Non-Counting" Waste	Contaminated Cleanup Material		Yd T	Yd T	Yd T	LINE TOTAL (Add Across)
	Asbestos		Yd T	Yd T	Yd T	
	Industrial Waste (includes industrial wood waste)	Yd T	Yd T	Yd T	Yd T	
	Rubble, Rock, Asphalt, etc.		Yd T	Yd T	Yd T	
	Oregon ADC-Qualified Waste (from page 3, step 6A)		Yd T	Yd T	Yd T	
	Other (Specify)		Yd T	Yd T	Yd T	
	Total In-State "Counting" & "Non-Counting" Waste					
1+2						
3 Conversion Table	If quantities above are not recorded in tons, convert to equivalent tonnage.					
		Cubic Yards			Tons	
	Domestic Solid Waste	_____	Total compacted cu. yd.	X 0.35 =	_____	T
	Domestic Solid Waste	_____	Total uncompactd cu. yd.	X 0.15 =	_____	T
	Contaminated Cleanup Material	_____	Total uncompactd cu. yd.	X 1.20 =	_____	T
	Asbestos	_____	Total uncompactd cu. yd.	X 0.25 =	_____	T
	Industrial Waste	_____	Total compacted cu. yd.	X 0.35 =	_____	T
	PHONE	_____	Total uncompactd cu. yd.	X 0.15 =	_____	T
	Rubble, Rock, Asphalt, etc.	_____	Total uncompactd cu. yd.	X 1.25 =	_____	T
	Other (specify) _____	_____	Total uncompactd cu. yd.	X =	_____	T
		TOTAL (add down)				Put total in 3B below.
3 Recovery	Materials Recovered From Disposed "Counting" Waste (Put in 3C below)					
	(It is preferable to deduct recovered waste directly from the appropriate entry above. However, if it is not possible to determine the specific source of the recovered waste, include the recovered waste here and deduct from the total disposed below. Include only material recovered from mixed "counting" waste shown in Section 1 above.)					
3	Total In-State SW Equivalent Tons	_____	3A	+	_____	3B
				-	_____	3C
				=	_____	

OUT-OF-STATE SOLID WASTE DISPOSAL WORKSHEET

Out-of-State Waste Type	Yd T	Yd T	Yd T	Yd T	Yd T
Resid/Comm/Constr/Demo/ Industrial SW	Yd T	Yd T	Yd T	Yd T	Yd T
Contaminated Cleanup Material		Yd T	Yd T	Yd T	Yd T
Asbestos		Yd T	Yd T	Yd T	Yd T
Other (Specify)		Yd T	Yd T	Yd T	Yd T
4 Out-of-State Totals (tons only)					LINE TOTAL (Add Across)

Indicate measurement by circling cubic yards (Yd) or tons (T).

Put total in 5A below.

Conversion Table	If quantities above are not recorded in tons, convert to equivalent tonnage.			
		Cubic Yards		Tons
	Domestic Solid Waste	_____	Total compacted cu. yd. X 0.35 =	_____ T
	Domestic Solid Waste	_____	Total uncompactd cu. yd. X 0.15 =	_____ T
	Contaminated Cleanup Material	_____	Total uncompactd cu. yd. X 1.20 =	_____ T
	Asbestos	_____	Total uncompactd cu. yd. X 0.25 =	_____ T
	Other (specify) _____	_____	Total uncompactd cu. yd. X =	_____ T
			TOTAL (add down)	<div style="border: 1px solid black; width: 100px; height: 20px; display: inline-block;"></div>

Put total in 5B below.

5	Total In-State SW Equivalent Tons	_____	+	_____	=	
		5A		5B		

6 WASTE TIRES AND TIRE SHREDS

Includes all shredded and oversized tires. For tires originating outside Oregon, show state of origin. For Oregon tires, show county. Multnomah, Clackamas, and Washington Counties can be combined as "Metro."

County/State of Origin	Tons
TOTAL	

7 SEWAGE SLUDGE

Sewage sludge or septic tank and cesspool pumpings. If measured only by volume, use the conversion factor below to calculate tonnage.

Gallons	Tons
_____ gallons X 0.00396 =	

INSTRUCTIONS / EXPLANATION OF TYPES OF WASTE INCLUDED

SOLID WASTE PER TON DISPOSAL ("TIPPING") FEES. ORS 459A.110, OAR 340-097-0110 (2), and OAR 340-097-0120 (7) require each solid waste disposal site that receives domestic solid waste for final disposal or destruction to submit a per-ton solid waste disposal fee of \$1.11 per ton for all in-state and out-of-state domestic solid waste received up until March 31, 2019. For waste received after March 31, 2019, the per-ton solid waste disposal fee is \$1.18 per ton. ORS 459.236 and OAR 340-097-0120 also require such sites to submit a fee of \$.13/ton for remedial action under the Orphan Site Account. These two fees are not charged on sewage sludge.

"Domestic Solid Waste" includes, but is not limited to, residential, commercial, and institutional wastes, as defined in ORS 459A.100, but does not include sewage sludge or septic tank and cesspool pumpings or waste received at an ash monofill from an energy recovery facility.

SOLID WASTE PERMIT FEES. ORS 459.235 AND OAR 340-97-110 THROUGH -120 require solid waste disposal sites to pay a Solid Waste Permit Compliance Fee. The Permit Compliance fee is calculated at a rate of \$.58/ton for all solid waste received.

DO NOT INCLUDE SOURCE SEPARATED RECYCLABLE MATERIAL ON THIS FORM.

INSTRUCTIONS FOR PAGE 2. This form requests reports of the quantities of "counting" waste and "non-counting" waste received at your facility. This breakdown will help DEQ calculate more accurately the amount of solid waste disposed of for each county. "Counting" waste "counts" toward the solid waste disposal rate and must be reported by county of origin. The disposal rate is then used to calculate the county material recovery rate. Certain waste ("non-counting" waste) may, by law, be excluded from the disposal rate; if you record this waste separately, please list it in Part 2 of this form. **INCLUDE BOTH "COUNTING" AND "NON-COUNTING" WASTE IN YOUR TOTAL TONNAGE FOR FEE CALCULATION PURPOSES.**

"Counting" Resid./Comm./Construction and Demolition SW by County. "Counting" waste includes residential and commercial domestic solid waste; construction and demolition waste, such as lumber and wood, drywall (gypsum), glass, roofing material and similar materials. Report amounts of "counting" waste for the previous calendar quarter by county in Part 1. If you do not track "non-counting waste" (see below) separately, count all waste as "counting."

"Non-counting" waste. "Non-counting" waste is not reported by county. "Non-counting" wastes are whole or segregated loads of:

Asbestos

Contaminated cleanup material

"Industrial" wood waste: Slash from logging and sawmills, and major land clearing debris.

Rubble, rock, asphalt, etc. Soil, dirt, concrete rubble and blocks, bricks, gravel, ash.

Other industrial waste: Waste generated by industrial or manufacturing processes

Other wastes: Please specify type of waste on the line provided and contact DEQ to determine a conversion factor if you do not weigh the waste.

Waste from businesses that self-haul their own waste should be included in the "PRIVATE VEHICLES" column.

"TRANSFER STATIONS & SW PROC. FACILITIES" include only facilities with DEQ solid waste permits and excludes facilities processing only source-separated recyclable materials.
