

A photograph of a forest with a large tree stump in the foreground and tall trees in the background. The stump is weathered and has a small hole in it. The forest is dense with tall, thin trees and some ferns on the ground. The lighting is soft, suggesting a misty or overcast day.

Forest Planning and Management for Ecosystem Services

Ben Hayes - Springboard Forestry LLC

12.12.2018, Tillamook, OR

Considerations

- Water Quality
- Water Quantity
- Risk Management
- Ecological Resilience
- Financial Returns
- Regional Economic Impacts

An aerial photograph of a dense forest with a mix of green and brown trees, suggesting a transition or a specific forest type. A large, semi-transparent white circle is overlaid on the left side of the image, containing the title and a bulleted list. The background shows a forest with a mix of green and brown trees, possibly indicating a transition or a specific forest type. A path or road is visible on the right side of the forest.

Management Planning

- Resource Assessment
 - Forest Inventory
 - Road Inventory
 - Risk Analysis
 - Growth, Yield, Carbon
- Management Options
- Public Input
