IMPORTANT DOCUMENT LAND APPLICATION AUTHORIZATION

Dave Buckwald, Principal Operator
Yachats Wastewater Treatment Plant
PO Box 345, Yachats, OR 97498

RE: Biosolids – Lincoln County
Yachats WWTF Contact Number 541.547.3385
NPDES Permit No. 103001; File No. 99260
Hall site, 7662 Yachats River Road, Yachats, Lincoln County, OR
Site ID: Hall 1 WR-2015-05-BS
T14 R 11W, Sec 34, TL 1200; T15 R 11W, Sec 3, TL 700
100 acres total approximately 95 acres for land application

Dear Mr. Buckwald:

The Oregon Department of Environmental Quality (DEQ or “the Department”) received a request to review the Hall land application site for the City of Yachats. On May 12, 2015 I met with you and we talked about renewing this land application site. I received your renewal packet for this site on May 29, 2015.

The City of Yachats has an activated sludge facility and produces an aerobically digested Class B biosolids. The Yachats wastewater treatment facility (WWTF) will haul Class B biosolids to the Hall property located at 7662 Yachats River Road, Yachats, Oregon (see Table 1 and attached site map). Included with the request were data characterizing the liquid biosolids from the Yachats WWTF.

Site Description. The property owned Hall is zoned as Exclusive Farm Use (EFU). The site is managed for grass pasture. Adjacent properties are also in agriculture or residential properties.

Table 1. The property reviewed for biosolids land application, located in Lincoln Co., Oregon.

Township, Range, Section	Tax Lot(s)	Total Area (acres)	Spreadable Area [†] (approx. acres)	Map* and DEQ No.
T14 R 11W, Sec 34 B and C fields	1200	6.3/5.6	11	WR-2015-05-BS
T15 R 11W, Sec 3, A field	700	1.7	1.7	WR-2015-05-BS
Total Spreadable Acres about 13 + ac			12.7	

[†]Spreadable acres are based upon attached maps and do not reflect site-specific setback requirements. Actual acres spread may also vary slightly based upon site conditions at time of application.
