

State of Oregon  
Department of  
Environmental  
Quality

**Materials Handling  
Fugitive Emissions Unit Summary**

**FORM EU506  
Answer Sheet**

Facility name: \_\_\_\_\_ Permit Number: \_\_\_\_\_

|    |                                            |  |
|----|--------------------------------------------|--|
| 1. | Emissions Unit name and ID number or label |  |
| 2. | Description of operations                  |  |
| 3. | Date installation/construction commenced   |  |
| 4. | Date installed                             |  |

5.

|                                                   |  |  |  |  |
|---------------------------------------------------|--|--|--|--|
| Device                                            |  |  |  |  |
| Material                                          |  |  |  |  |
| Particle size (microns)                           |  |  |  |  |
| Moisture content (%)                              |  |  |  |  |
| Mean wind speed (mph)                             |  |  |  |  |
| Fugitive controls                                 |  |  |  |  |
| Frequency of material transfer                    |  |  |  |  |
| Average quantity in each transfer                 |  |  |  |  |
| Particulate matter (PM) emission factor           |  |  |  |  |
| PM emissions (attach calculations)                |  |  |  |  |
| PM <sub>10</sub> emission factor                  |  |  |  |  |
| PM <sub>10</sub> emissions (attach calculations)  |  |  |  |  |
| PM <sub>2.5</sub> emission factor                 |  |  |  |  |
| PM <sub>2.5</sub> emissions (attach calculations) |  |  |  |  |
| VOC emission factor                               |  |  |  |  |
| VOC emissions (attach calculations)               |  |  |  |  |

6. Applicable Requirements:

| Applicable Requirement Citation | Parameter/Pollutant | Limit/Standard/Requirement | Currently in Compliance? | Current Monitoring Method | Proposed Monitoring Method |
|---------------------------------|---------------------|----------------------------|--------------------------|---------------------------|----------------------------|
|                                 |                     |                            |                          |                           |                            |
|                                 |                     |                            |                          |                           |                            |
|                                 |                     |                            |                          |                           |                            |
|                                 |                     |                            |                          |                           |                            |
|                                 |                     |                            |                          |                           |                            |
