SCHEDULE F

WPCF GENERAL CONDITIONS – INDUSTRIAL FACILITIES

SECTION A.  STANDARD CONDITIONS

1.  Duty to Comply with Permit

   The permittee must comply with all conditions of this permit.  Failure to comply with any permit
   condition is a violation of Oregon Revised Statutes (ORS) 468B.025 and grounds for an
   enforcement action.  Failure to comply is also grounds for the Department to modify, revoke, or
   deny renewal of a permit.

2.  Property Rights and Other Legal Requirements

   Issuance of this permit does not convey any property rights of any sort, or any exclusive privilege,
   or authorize any injury to persons or property or invasion of any other rights, or any infringement
   of federal, tribal, state, or local laws or regulations.

3.  Liability

   The Department of Environmental Quality or its officers, agents, or employees may not sustain
   any liability on account of the issuance of this permit or on account of the construction or
   maintenance of facilities or systems because of this permit.

4.  Permit Actions

   After notice by the Department, this permit may be modified, suspended, or revoked in whole or
   in part during its term for cause including but not limited to the following:

   a.  Violation of any term or condition of this permit, any applicable rule or statute, or any
       order of the Commission;

   b.  Obtaining this permit by misrepresentation or failure to disclose fully all relevant facts.

5.  Transfer of Permit

   This permit may not be transferred to a third party without prior written approval from the
   Department.  The Department may approve transfers where the transferee acquires a property
   interest in the permitted activity and agrees in writing to fully comply with all the terms and
   conditions of this permit and the rules of the Commission.  A transfer application and filing fee
   must be submitted to the Department.

6.  Permit Fees

   The permittee must pay the fees required by Oregon Administrative Rules.

---

SECTION B.  OPERATION AND MAINTENANCE OF POLLUTION CONTROLS

Last updated 10.19.2009
1. **Proper Operation and Maintenance**

At all times the permittee must maintain in good working order and properly operate as efficiently as possible all treatment or control facilities or systems installed or used by the permittee to comply with the terms and conditions of this permit.

2. **Standard Operation and Maintenance**

All waste collection, control, treatment, and disposal facilities or systems must be operated in a manner consistent with the following:

   a. At all times, all facilities or systems must be operated as efficiently as possible in a manner that will prevent discharges, health hazards, and nuisance conditions.

   b. All screenings, grit, and sludge must be disposed of in a manner approved by the Department to prevent any pollutant from the materials from reaching waters of the state, creating a public health hazard, or causing a nuisance condition.

   c. Bypassing untreated waste is generally prohibited. Bypassing may not occur without prior written permission from the Department except where unavoidable to prevent loss of life, personal injury, or severe property damage.

3. **Noncompliance and Notification Procedures**

If the permittee is unable to comply with conditions of this permit because of surfacing sewage; a breakdown of equipment, facilities or systems; an accident caused by human error or negligence; or any other cause such as an act of nature, the permittee must:

   a. Immediately take action to stop, contain, and clean up the unauthorized discharges and correct the problem.

   b. Immediately notify the Department's Regional office so that an investigation can be made to evaluate the impact and the corrective actions taken, and to determine any additional action that must be taken.

   c. Within 5 days of the time the permittee becomes aware of the circumstances, the permittee must submit to the Department a detailed written report describing the breakdown, the actual quantity and quality of waste discharged, corrective action taken, steps taken to prevent a recurrence, and any other pertinent information.

Compliance with these requirements does not relieve the permittee from responsibility to maintain continuous compliance with the conditions of this permit or liability for failure to comply.

4. **Wastewater System Personnel**

The permittee must provide an adequate operating staff that is duly qualified to carry out the operation, maintenance, and monitoring requirements to assure continuous compliance with the conditions of this permit.

5. **Public Notification of Effluent Violation**

If effluent limitations specified in this permit are exceeded or an overflow occurs that threatens public health, the permittee must take such steps as are necessary to alert the public, health agencies and other affected entities (e.g., public water systems) about the extent and nature of the discharge in accordance with the notification procedures developed in accordance with General Condition B.6. Such steps may include, but are not limited to, posting of the river at access points and other places, news releases, and paid announcements on radio and television.

Last updated 10.19.2009
6. Emergency Response and Public Notification Plan
The permittee must develop and implement an emergency response and public notification plan that identifies measures to protect public health from bypasses or upsets that may endanger public health. At a minimum the plan must include mechanisms to:
   a. Ensure that the permittee is aware (to the greatest extent possible) of such events;
   b. Ensure notification of appropriate personnel and ensure that they are immediately dispatched for investigation and response;
   c. Ensure immediate notification to the public, health agencies, and other affected entities (including public water systems). The response plan must identify the public health and other officials who will receive immediate notification;
   d. Ensure that appropriate personnel are aware of and follow the plan and are appropriately trained;
   e. Provide emergency operations: and
   f. Ensure that DEQ is notified of the public notification steps taken.

SECTION C. MONITORING AND RECORDS

1. Inspection and Entry
The permittee must at all reasonable times allow authorized representatives of the Department to:
   a. Enter upon the permittee's premises where a waste source or disposal system is located or where any records are required to be kept under the terms and conditions of this permit;
   b. Have access to and copy any records required by this permit;
   c. Inspect any treatment or disposal system, practices, operations, monitoring equipment, or monitoring method regulated or required by this permit; or
   d. Sample or monitor any substances or permit parameters at any location at reasonable times for the purpose of assuring permit compliance or as otherwise authorized by state law...

2. Averaging of Measurements
Calculations of averages of measurements required for all parameters except bacteria must use an arithmetic mean; bacteria must be averaged as specified in the permit.

3. Monitoring Procedures
Monitoring must be conducted according to test procedures specified in the most recent edition of Standard Methods for the Examination of Water and Wastewater, unless other test procedures have been approved in writing by the Department and specified in this permit.

4. Retention of Records
The permittee must retain records of all monitoring and maintenance information, including all calibrations, copies of all reports required by this permit, and records of all data used to complete the application for this permit, for a period of at least 3 years from the date of the sample, measurement, report or application. The Department may extend this period at any time.

SECTION D. REPORTING REQUIREMENTS

Last updated 10.19.2009
1. **Plan Submittal**

Pursuant to Oregon Revised Statute 468B.055, unless specifically exempted by rule, construction, installation, or modification of disposal systems, treatment works, or sewerage systems may not commence until plans and specifications are submitted to and approved in writing by the Department. All construction, installation, or modification shall be in strict conformance with the Department's written approval of the plans.

2. **Change in Discharge**

Whenever a facility expansion, production increase, or process modification is expected to result in a change in the character of pollutants to be discharged or in a new or increased discharge that will exceed the conditions of this permit, a new application must be submitted together with the necessary reports, plans, and specifications for the proposed changes. A change may not be made until plans have been approved and a new permit or permit modification has been issued.

3. **Signatory Requirements**

All applications, reports, or information submitted to the Department must be signed and certified by the official applicant of record (owner) or authorized designee.

4. **Twenty-Four Hour Reporting**

The permittee must report any noncompliance that may endanger health or the environment. Any information must be provided orally (by telephone) within 24 hours from the time the permittee becomes aware of the circumstances, unless a shorter time is specified in the permit. During normal business hours, the Department’s Regional office must be called. Outside of normal business hours, the Department must be contacted at 1-800-452-0311 (Oregon Emergency Response System).

The following must be included as information that must be reported within 24 hours under this paragraph:

a. Any unanticipated bypass that exceeds any effluent limitation in this permit;
b. Any upset that exceeds any effluent limitation in this permit;
c. Violation of maximum daily discharge limitation for any of the pollutants listed by the Department in this permit; and
d. Any noncompliance that may endanger human health or the environment.

A written submission must also be provided within 5 days of the time the permittee becomes aware of the circumstances. The written submission must contain:
e. A description of noncompliance and its cause;
f. The period of noncompliance, including exact dates and times;
g. The estimated time noncompliance is expected to continue if it has not been corrected;
h. Steps taken or planned to reduce, eliminate and prevent reoccurrence of the noncompliance; and
i. Public notification steps taken, pursuant to General Condition B.6.

The Department may waive the written report on a case-by-case basis if the oral report has been received within 24 hours.

**SECTION E. DEFINITIONS**

1. $BOD_5$ means five-day biochemical oxygen demand.
2. $TSS$ means total suspended solids.
3. $FC$ means fecal coliform bacteria.

Last updated 10.19.2009
4. \( NH_3-N \) means Ammonia Nitrogen.
5. \( NO_3-N \) means Nitrate Nitrogen.
6. \( NO_2-N \) means Nitrite Nitrogen.
7. TKN means Total Kjeldahl Nitrogen.
8. CI means Chloride.
9. TN means Total Nitrogen.
10. "Bacteria" includes but is not limited to fecal coliform bacteria, total coliform bacteria, and E. coli bacteria.
11. Total residual chlorine means combined chlorine forms plus free residual chlorine.
12. mg/l means milligrams per liter.
13. ug/l means micrograms per liter.
14. kg means kilograms.
15. GPD means gallons per day.
16. MGD means million gallons per day.
17. Grab sample means an individual discrete sample collected over a period of time not to exceed 15 minutes.
18. Composite sample means a combination of samples collected, generally at equal intervals over a 24-hour period, and based on either time or flow.
19. Week means a calendar week of Sunday through Saturday.
20. Month means a calendar month.
21. Quarter means January through March, April through June, July through September, or October through December.
