# Information Required for Industrial Wastewater NPDES Permit Readiness Review

## Checklist to be completed by permit readiness team

### Water Quality Permitting

Use this checklist to determine Industrial NPDES permit readiness. Complete one readiness review for each individual permit

\*Key documents required to complete this review - application, correspondence and permit

Indicate permit status and/or reasons for delay	administratively extended	Category for delay	Competing priorities		Reason for delay	Compliance work	
<p>Readiness summary (to be completed by reviewer after checklist is completed): on applicant review in march 2008 (was drafted), issuance was stopped due to compliance schedule litigation. Facility planning and upgrades (capacity and quality) will be required as part of compliance schedule and may impact the facility/community in next permit cycle. Difficulties with land owner and land application process may create some delays in permit issuance.</p>
