Information Required for Individual Wastewater NPDES Permit Readiness Review

Checklist to be completed by permit readiness team

Water Quality Permitting

Use this checklist to determine Individual NPDES permit readiness. Complete one readiness review for each individual permit

*Key documents required to complete this review - application, correspondence and permit

Readiness summary (to be completed by reviewer after checklist is completed): the Netarts Oceanside STP is a minor STP that directly discharges to the Pacific Ocean. The facility has a history of compliance issues and was under an MAO when the current permit was drafted. NPDES-R form missing treatment processes. The 2005 MZ study should be reviewed to determine if it's still accurate; The biosolids information in the application was a copy of the description of the biosolids section of the current fact sheet; The facility may still be under an MAO, this needs to be verified							
Readiness Score ((# of "action required" + Sum of estimated time rankings) * Complexity)						114
