# Information Required for Individual Wastewater NPDES Permit Readiness Review

## Checklist to be completed by permit readiness team

### Water Quality Permitting

Use this checklist to determine Individual NPDES permit readiness. Complete one readiness review for each individual permit

<b>Readiness summary (to be completed by reviewer after checklist is completed):</b> This facility has burned down is going to be rebuilt by the PacCoast Warrenton Company. A new application for the new facility will be required for this permit. WET requirements should be written into the permit if it is classified as a major discharger. All of the delays are related to the fact that this is going to be a new facility and we do not have enough information to write a permit.							
<b>Readiness Score ((# of "action required" + Sum of estimated time rankings) * Complexity)</b>						<b>297</b>
